

Citigroup Global Markets Deutschland AG

Frankfurt am Main

(Issuer)

Summary

and

Securities Note

Warrants

based on

shares or securities representing shares, share indices, exchange rates, commodities, futures contracts

Date of the summary and the securities note is 13 May 2013.

The summary (the "Summary") and the securities note (the "Securities Note"), each dated 13 May 2013, and the registration form of Citigroup Global Markets Deutschland AG dated 3 May 2013, including any supplements, (the "Registration Form") form a tripartite base prospectus (all documents together referred to as the "Tripartite Base Prospectus" or the "Prospectus").

The documents forming the Tripartite Base Prospectus, any supplements hereto and the final terms will be made available in paper form free of charge at the address of the relevant paying agent and published on the Issuer's website (www.citifirst.com).

The Tripartite Base Prospectus constitutes a base prospectus for non-equity securities within the meaning of Article 22 (6) No. 4 of Commission Regulation (EC) No. 809/2004 of 29 April 2004 as most recently amended by Commission Regulation (EU) No. 486/2012 of 30 March 2012 and Commission Regulation (EU) No. 862/2012 of 4 June 2012 (the "Prospectus Regulation"). The competent authority for the approval of the Tripartite Base Prospectus in accordance with § 6 and § 13 of the German Securities Prospectus Act (*Wertpapierprospektgesetz*, "WpPG") is the Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht*, "BaFin"). The final terms (the "Final Terms") relating to individual series of warrants (the "Warrants") issued under this Tripartite Base Prospectus will be filed with BaFin. All investment decisions relating to the Warrants should be made on the basis of the Tripartite Base Prospectus as a whole (i.e. the Summary, the Securities Note and the Registration Form, in each case including any supplements) and the respective Final Terms.

The Warrants are not and will not be registered pursuant to the United States Securities Act of 1933 as amended. They may not be offered, sold, traded or delivered within the United States either directly or indirectly by or to or for the account of a US person (as defined in Regulation S pursuant to the United States Securities Act of 1933), except in the case of exemption from the registration requirements of the Securities Act. Any person receiving the cash amount in accordance with these terms and conditions is deemed to have made a declaration that the person entitled to the rights arising from the Warrants is not a US person.

A. SUMMARY**ENGLISH SUMMARY**

The following Summary contains options and blank spaces, marked by square brackets or italic script, relating to the Warrants that may be issued under the Tripartite Base Prospectus. The summaries for the individual issues of Warrants will be included in the Final Terms and will contain only those options that are relevant for the respective issue of Warrants. In addition, the placeholders ("●") contained in the following Summary that are relevant for the particular issue will be filled out in the summary for the individual issue.

Summaries consist of specific disclosure requirements, known as the "key information". This key information is divided into the following Sections A – E and numbered (A.1 – E.7).

This Summary contains all the key information required to be incorporated in a summary for this type of securities and for issuers of this type. Since some items do not fall to be included, the numbering is not consecutive in places and there may be gaps. Even where an item of key information must be included in the summary due to the type of security or for issuers of this type, it is possible that there is no relevant information to be disclosed with respect to this item of key information. In this event, the summary will contain a brief description of the key information and the comment "Not applicable" in the relevant place.

Section A – Introduction and warnings			
A.1	<p>This Summary presents the key features and risks of Citigroup Global Markets Deutschland AG (the "Issuer") and of the Warrants issued under the Tripartite Base Prospectus. The Summary is intended as an introduction to the Tripartite Base Prospectus, which comprises this Summary, the Registration Form of Citigroup Global Markets Deutschland AG dated 3 May 2013 including any supplements and the Securities Note of Citigroup Global Markets Deutschland AG dated 13 May 2013. Investors should therefore ensure that any decision to invest in the Warrants is based on a review of the entire Prospectus, including any supplements and the Final Terms. Where claims relating to the information contained in a base prospectus, any supplements, and the respective Final Terms are brought before a court, the investor acting as plaintiff may, as a result of the laws of individual member states of the European Economic Area, have to bear the costs of translating the base prospectus, any supplements, and the Final Terms into the language of the court prior to the commencement of legal proceedings. The Issuer can be held liable for the content of this Summary, including any translation prepared, but only in the event that the Summary is misleading, inaccurate or inconsistent when read in conjunction with the other parts of the Prospectus, or, when read in conjunction with the other parts of the Tripartite Base Prospectus, does not convey all of the key information required.</p>		
A.2	<table border="1"> <tr> <td data-bbox="292 1585 576 2024">Consent to the use of the prospectus</td> <td data-bbox="584 1585 1412 2024"> <p>[With respect to Non-exempt Offers pursuant to Article 3 (2) of the Prospectus Directive the Issuer consents to the use of the Prospectus by all financial intermediaries (general consent) for offers in [Germany] [,][and] [Portugal][,] [and] [France][,] [and] [the Netherlands][,] [and] [Sweden][,] [and] [Finland] (the "Offer State[s]"). Consent to the use of the prospectus	<p>[With respect to Non-exempt Offers pursuant to Article 3 (2) of the Prospectus Directive the Issuer consents to the use of the Prospectus by all financial intermediaries (general consent) for offers in [Germany] [,][and] [Portugal][,] [and] [France][,] [and] [the Netherlands][,] [and] [Sweden][,] [and] [Finland] (the "Offer State[s]"). The general consent to the subsequent resale and final placement of the securities by the financial intermediar[y][ies] is given with respect to [Germany][,] [and] [Portugal][,] [and] [France][,] [and] [the Netherlands][,] [and] [Sweden][,] [and] [Finland].]</p> <p>[With respect to Non-exempt Offers pursuant to Article 3 (2) of the Prospectus Directive the Issuer consents to the use and accepts</p>		

		<p>responsibility for the content of the Prospectus by the following financial intermediaries (individual consent) for offers in [Germany] [,][and] [Portugal][,] [and] [France][,] [and] [the Netherlands][,] [and] [Sweden][,] [and] [Finland] (the "Offer State[s]"): [●]. The individual consent to the subsequent resale and final placement of the securities by the financial intermediar[y][ies] is given with respect to [Germany][,] [and] [Portugal][,] [and] [France][,] [and] [the Netherlands][,] [and] [Sweden][,] [and] [Finland].]</p> <p>[Furthermore, this consent is given subject to [●].]</p> <p>[The subsequent resale and final placement of the securities by financial intermediaries may take place [during the period from [●] until [●] (the "Offer Period") [during the period of validity of the Tripartite Base Prospectus pursuant to § 9 of the German Securities Prospectus Act (<i>Wertpapierprospektgesetz</i>, "WpPG").]</p> <p>In the event of an offer by a financial intermediary, the terms and conditions of the offer must be provided to investors at the time of the offer by the financial intermediary.</p>
Section B – Issuer and any guarantors		
B.1	The legal and commercial name of the issuer.	The legal and commercial name of the Issuer is Citigroup Global Markets Deutschland AG.
B.2	The domicile and legal form of the issuer, the legislation under which the issuer operates and its country of incorporation.	<p>Domicile</p> <p>Frankfurt am Main; the address of Citigroup Global Markets Deutschland AG is Frankfurter Welle, Reuterweg 16, 60323 Frankfurt am Main, Federal Republic of Germany (telephone +49 (0)69-1366-0).</p> <p>Legal form and jurisdiction</p> <p>The Issuer is a stock corporation (<i>Aktiengesellschaft</i>, "AG") under German law.</p> <p>Place of registration</p> <p>The Issuer is entered in the commercial register of the Frankfurt am Main Local Court under the number HRB 88301.</p>
B.4b	A description of any known trends affecting the issuer and the industries in which it operates.	<p>The Bank expects world economic growth in 2013 to increase slightly from 2.5 per cent to 2.6 per cent. In 2014 growth should increase to 3.2 per cent. The slowdown in worldwide economic growth was principally due to the slowdown of growth in the industrialized countries. The Bank expects moderate growth of 1.0 per cent for industrialized countries in 2013 and a modest increase to 1.6 per cent in 2014.</p> <p>Overall the Bank expects continued significant variations between different regions in the world.</p> <p>The Bank expects a mild recession in the Eurozone (the Bank's growth forecasts are for -0.6 per cent and -0.4 per cent for 2013 and 2014). This is</p>

		<p>seen to be due to the continuing sovereign debt crisis and the high level of private sector indebtedness in the peripheral European countries. The ECB is expected to continue to act to stabilise markets and to reduce interest rates in the second quarter of 2013 depending on further economic growth in the Eurozone, which could be followed by a forecast final interest rate reduction in the second half of the year. The Bank considers it likely that Southern Europe and Ireland will only gradually reach a common sustainable fiscal path. If the core countries in future are no longer prepared to increase their support for the peripheral states, this could lead to a raft of debt restructurings (with likely longer maturities and interest rate reductions), but probably not before 2015.</p> <p>In the Warrants and Certificates Division, the competition is expected to remain intense among leading issuers. Further regulatory challenges are expected, which have to be integrated into the business in a timely manner.</p> <p>Given the forecasts made by the individual business divisions and a restrictive cost management approach, the Bank is expecting continued overall profits in fiscal years 2013 and 2014.</p>
B.5	If the issuer is part of a group, a description of the group and the issuer's position within the group.	<p>The Issuer is a member of the German subgroup of Citigroup. As a public limited company, it is managed by the executive board. The Issuer is wholly-owned by the German holding company, Citigroup Global Markets Finance Corporation & Co. beschränkt haftende KG, a limited partnership with registered offices in Frankfurt/Main.</p> <p>Citigroup Global Markets Finance Corporation & Co. beschränkt haftende KG is also a silent partner of the Issuer, having a silent equity interest ("Stille Einlage") totalling EUR 122,710,051.49 as of 30 November 2012. The general partner of Citigroup Global Markets Finance Corporation & Co. beschränkt haftende KG is Citigroup Global Markets Finance LLC (USA). The sole limited partner is Citi Overseas Investment Bahamas Inc.</p> <p>All shares of Citigroup Global Markets Finance LLC are held by Citi Overseas Investment Bahamas Inc., the sole shareholder of which is Citibank Overseas Investment Corporation (USA). This company is in turn 100 per cent owned by Citibank, N.A. (USA). Citibank, N.A. (USA) is a 100 per cent owned subsidiary of Citicorp (USA), which in turn is a 100 per cent owned subsidiary of Citigroup, Inc. (USA).</p>
B.9	Where a profit forecast or estimate is made, state the figure.	Not applicable; the Issuer has decided not to make any profit forecasts or profit estimates in the Base Prospectus.
B.10	A description of the nature of any qualifications in the audit report on the historical financial information.	The annual financial statements of the Issuer for the financial years from 1 December 2011 to 30 November 2012 and 1 December 2010 to 30 November 2011 were audited by the Issuer's statutory auditor and certified with an unqualified auditor's opinion.
B.12	Selected historical key financial information	Key Financial Information of Citigroup Global Markets Deutschland AG

regarding the issuer, presented for each financial year of the period covered by the historical financial information and any subsequent interim financial period accompanied by comparative data from the same period in the prior financial year, except that the requirement for comparative balance sheet information is satisfied by presenting the year-end balance sheet information. A statement that there has been no material adverse change in the prospects of the issuer since the date of its last published audited financial statements or a description of any material adverse change.

A description of significant changes in the financial or trading position of the issuer subsequent to the period covered by the historical financial information.

The table below provides a comparison of certain noteworthy financial statistics which have been taken from the audited financial statements 2012 between the prior fiscal year (fiscal year 2011) and fiscal year 2012 and thereby reveals the business development of Citigroup Global Markets Deutschland AG:

	30.11.2012 in million Euro	prior fiscal year (30.11.2011) in million Euro
Balance sheet total	9,543	8,690
Business volume	11,162	10,163
Equity capital	590	588
Loan portfolio	5,365	5,196
Number of employees	348	361

	01.12.2011 - 30.11.2012 in million Euro	prior fiscal year (01.12.2010 - 30.11.2011) in million Euro
Interest income from operations	11	29
Commissions from brokerage business	111	96
Commissions from securities business	18	17
Net income from financial trading operations	25	60
General administrative expenses	161	137

As of the balance sheet date, the **balance sheet equity capital** consists of the following components:

	30.11.2012 in million Euro (audited)	prior fiscal year (30.11.2011) in million Euro (audited)
Subscribed capital		
Share capital	210.6	210.6
Silent partner capital	122.7	122.7
Capital reserves	195.8	193.8
Legal reserves	33.0	33.0
Other earnings reserves	27.9	27.9

In addition, as part of incorporating the new rules under the BilMoG

		<p>pursuant to § 340g of the German Commercial Code (HGB), a new separate item was created ("Fund for general banking risks") in the amount of EUR 9.4m (EUR 6.6m in the previous year).</p> <p>The regulatory capital under BIZ consists of core capital and supplemental capital (subordinated liabilities) after approval as follows:</p> <table border="1"> <thead> <tr> <th></th> <th>30.11.2012 in million Euro</th> <th>prior fiscal year (30.11.2011) in million Euro</th> </tr> </thead> <tbody> <tr> <td>Equity capital on balance sheet</td> <td>590.0</td> <td>588.0</td> </tr> <tr> <td>Less intangible assets</td> <td>0</td> <td>-1.2</td> </tr> <tr> <td>Core capital</td> <td>599.3</td> <td>594.3</td> </tr> <tr> <td>Supplementary capital</td> <td>0.0</td> <td>0.0</td> </tr> <tr> <td>Equity capital</td> <td>599.3</td> <td>594.3</td> </tr> <tr> <td>Capital ratios</td> <td></td> <td></td> </tr> <tr> <td>Tier one capital in %</td> <td>33.6</td> <td>29.3</td> </tr> <tr> <td>Total capital ratio in %</td> <td>33.6</td> <td>29.3</td> </tr> </tbody> </table> <p>Despite the debt crisis in the Eurozone and the concomitant volatility on the international financial markets, Citigroup Global Markets Deutschland AG was once again able to earn a profit in the recently completed fiscal year.</p> <p>The Issuer declares that since the date of the last audited annual financial statements on 30 November 2012 no material adverse change in the outlook of the Issuer has occurred.</p> <p>Furthermore, the Issuer declares that since the date of the last audited annual financial statements on 30 November 2012 no material change has occurred in the financial or trading position.</p>		30.11.2012 in million Euro	prior fiscal year (30.11.2011) in million Euro	Equity capital on balance sheet	590.0	588.0	Less intangible assets	0	-1.2	Core capital	599.3	594.3	Supplementary capital	0.0	0.0	Equity capital	599.3	594.3	Capital ratios			Tier one capital in %	33.6	29.3	Total capital ratio in %	33.6	29.3

Total capital ratio in %	33.6	29.3																											
B.13	A description of any recent events particular to the issuer which are to a material extent relevant to the evaluation of the issuer's solvency.	Not applicable; significant events that may have a material impact on the assessment of the Issuer's solvency have recently not occurred. However, Citigroup is currently evaluating measures to optimize its organizational structure. In this context, the Issuer may become a wholly-owned subsidiary of, and subsequently merge with and into, Citigroup International plc., which would result in Citigroup International plc. receiving all the assets and liabilities of the Issuer. As a result of such merger, Citigroup International plc. would become the Issuer.																											
B.14	B.5 plus: If the issuer is dependent upon other entities within the group, this must be clearly stated.	Citigroup Global Markets Finance Corporation as the German holding company owns 100% of the shares of the Issuer. Pursuant to § 17 (2) of the German Stock Corporation Act (<i>Aktiengesetz</i> , "AktG"), it is assumed that a company in which a majority of the shares is held by another company is dependent upon that other company.																											
B.15	A description of the	The Issuer is engaged in the business of corporate and investment banking																											

	issuer's principal activities.	and offers companies, governments and institutional investors comprehensive financial solutions in the areas of investment banking, fixed income, foreign exchange, equities and derivatives, and global transaction services; in addition it is a leading issuer of warrants and certificates whose end investors are predominantly retail clients. Since the end of 2012 the Issuer's business line has also included Citi Private Bank – Family Office Coverage Germany and Covered Bond Research.
B.16	To the extent known to the issuer, state whether the issuer is directly or indirectly owned or controlled and by whom and describe the nature of such control.	<p>In addition to the inclusion of the Issuer in the Citigroup Inc. group of companies referred to above, the Issuer is also party to a control and profit and loss transfer agreement with its immediate parent company.</p> <p>Under the terms of the agreement, the Issuer has placed the management of its business under the control of its immediate parent company. Accordingly, the immediate holding company has the right to give instructions to the Issuer.</p> <p>The agreement also requires the Issuer to transfer its entire profit to its immediate parent company. In return, the immediate parent company is required to make up any annual loss of the Issuer arising during the period of the agreement, as provided in detail by § 302 (1) and (3) AktG.</p>
Section C – Securities		
C.1	A description of the type and the class of the securities being offered and/or admitted to trading, including any security identification number.	<p>Type/form of the Warrants</p> <p>Warrants are derivative financial instruments which may include an option right and which, therefore, may have many characteristics in common with options. One of the significant features of Warrants is the leverage effect: A change in the price of the underlying may result in a disproportionate change in the price of the Warrant. The leverage effect of the Warrant operates in both directions – not only to the investor's advantage in the event of the favorable performance of the factors determining the value, but also to the investor's disadvantage in the event of their unfavorable performance. The payment due under a Warrant on exercise or early termination depends on the value of the underlying at the relevant time.</p> <p><i>[If the Warrants are represented by a global bearer warrant, insert:</i></p> <p>[Each series of the] [The] Warrants [is] [are] represented by a Global Bearer Warrant which is deposited with the central securities depository. Definitive Warrants will not be issued during the entire term.]</p> <p><i>[In case Nederlands Centraal Instituut voor Giraal Effectenverkeer B.V is specified as central securities depository and the Warrants are issued in dematerialized form, insert:</i></p> <p>The Warrants will be issued in dematerialized bearer form and registered in the book-entry system of the central securities depository in accordance with Dutch law. No global security and no definitive securities will be issued in respect of the warrants.]</p> <p><i>[In case Euroclear France S.A. is specified as central securities depository and the Warrants are issued in dematerialized form, insert:</i></p>

		<p>The Warrants will be issued in dematerialized bearer form (<i>au porteur</i>) and inscribed in the books of the central securities depository which shall credit the accounts of the account holders. No physical document of title (including <i>certificats représentatifs</i> pursuant to Article R.211-7 of the French Monetary and Financial Code (<i>Code monétaire et financier</i>)) will be issued in respect of the Warrants.]</p> <p><i>[In case Central de Valores Mobiliários is specified as central securities depository and the Warrants are issued in dematerialized form, insert:</i></p> <p>The Warrants will be dematerialized (forma escritural) and represented by book entries (registos em conta) only and centralised through the CVM managed by Interbolsa in accordance with Portuguese law. No global security and no definitive securities will be issued in respect of the Warrants.]</p> <p><i>[In case Euroclear Sweden AB is specified as central securities depository and the Warrants are issued in dematerialized form, insert:</i></p> <p>The Warrants will be cleared through Euroclear Sweden AB (formerly known as VPC AB) and issued in registered form in accordance with the Swedish Financial Instruments Account Act (SFS 1998:1479). The Warrants will be issued in uncertificated book-entry form. No global security and no definitive securities will be issued in respect of the Warrants.]</p> <p><i>[In case Euroclear Finland Ltd. is specified as central securities depository and the Warrants are issued in dematerialized form, insert:</i></p> <p>The Warrants will be issued in the Finnish book-entry securities system maintained by Euroclear Finland Ltd. No global security and no definitive securities will be issued in respect of the Warrants.]</p> <p>Security identification number</p> <p>ISIN: [●]</p> <p>[WKN (German Securities Identification Number): [●]]</p> <p><i>[insert other identifier: ●]</i></p>
C.2	Currency of the securities issue.	[For the respective series of Warrants ●] <i>[insert currency: ●]</i>
C.5	A description of any restrictions on the free transferability of the securities.	Each Warrant [of a series of Warrants] is transferable in accordance with the laws applying in each case and, where relevant, the respective applicable regulations and procedures of the securities depository in whose records the transfer is registered.
C.8	A description of the rights attached to the securities including ranking and including limitations to those	<p>Applicable law for the securities:</p> <p>[The respective series of Warrants] [The Warrants] [is] [are] subject to German law. [The constituting of the Warrants may be governed by the laws of the jurisdiction of the central securities depository.]</p>

	rights.	<p>Rights attached to the Warrants</p> <p>Each Warrant grants the holder the right to the cash amount as described in more detail under C.15.</p> <p>Status of the Warrants</p> <p>[The respective series of Warrants] [The Warrants] create[s] direct, unsecured and unsubordinated obligations of the Issuer that rank <i>pari passu</i> in relation to one another and in relation to all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of obligations that have priority due to mandatory statutory provisions.</p> <p>Limitations to the rights</p> <p>The Issuer has the right to terminate the Warrants and to amend the terms and conditions pursuant to the provisions specified in the terms and conditions of the Warrants.</p>
C.11	An indication as to whether the securities offered are or will be the object of an application for admission to trading, with a view to their distribution in a regulated market or other equivalent markets with an indication of the markets in question.	<p>[Application has been made to [admit][include] the Warrants [to trading] in the [regulated] [market] [unofficial market] on the [Frankfurt][and] [Stuttgart] [●] Stock Exchange[, which [is][are] [not] [a] regulated market within the meaning of Directive 2004/39/EC]. [The Warrants have been admitted to the [regulated] [●] market of the [●] securities exchange, which is [not] a regulated market within the meaning of Directive 2004/39/EC.]</p> <p>[No application has been made for the Warrants to be admitted to a regulated market on a stock exchange.]</p>
C.15	A description of how the value of the investment is affected by the value of the underlying instrument(s), unless the securities have a denomination of at least EUR 100,000.	<p>[Description of Call Warrants with European type of exercise</p> <p>Call Warrants enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.</p> <p>In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Call Warrant may expire worthless if the reference price of the underlying reaches or falls below the strike.</p> <p>On the maturity date, the cash amount received by the investors is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike [converted into the settlement currency]. C.16	The expiration or maturity date of the derivative securities – the exercise date or final reference date.	Maturity date: [●] Exercise date(s): [●] [Valuation dates: ●] Valuation date: [●]
C.17	A description of the settlement procedure of the derivative securities.	[In the case of Warrants with automatic exercise, i.e. a European type of exercise, the Issuer will transfer any positive cash amount to the central securities depository on the maturity date for the credit of the warrant holders registered with the central securities depository at the close of business on the preceding banking day at the head office of the central securities depository.] [In the case of Warrants which the warrant holders have the right to exercise[at any time, i.e. in the case of an American type of exercise,] the Issuer will transfer any amount payable to the central securities depository on the payment date upon exercise for the credit of the warrant holders registered with the central securities depository at the close of business on the preceding banking day at the head office of the central securities depository.] The central securities depository has given an undertaking to the Issuer to make a corresponding onward transfer.
C.18	A description of how the return on derivative securities takes place.	[In the case of Warrants with a European type of exercise, the option right may be exercised by the warrant holder only with effect as of the valuation date for the respective Warrant. If the cash amount results in a positive value, the option right attaching to the respective Warrant is deemed to be exercised on the valuation date without further preconditions and without the submission of an explicit exercise notice ("Automatic Exercise"). [In the case of Warrants with [an American][this] type of exercise, in order to exercise the option right the warrant holder must have submitted an effective exercise notice to the exercise agent within the exercise period and transferred the Warrants intended to be exercised to the Issuer, crediting its account with Clearstream Frankfurt or Clearstream Luxembourg, or to Euroclear. If the option right is not exercised effectively within the exercise period and if the cash amount results in a positive value, the option right attaching to the respective Warrant is deemed to be exercised on the valuation date without further preconditions and without the submission of an explicit exercise notice ("Automatic Exercise").]
C.19	The exercise price or the final reference price of the underlying.	Reference price on the valuation date: [●]

<p>Section D – Risks</p>		
<p>D.2</p>	<p>Key information on the key risks that are specific to the issuer.</p>	<p>Risk of the cessation or limitation of price-setting by the Issuer</p> <p>If the Issuer were to limit or completely abandon its voluntary intention to set bid and offered prices, there would be a danger, if prices for Warrants were not set by any other party that investors would have to wait for the final maturity of the Warrants or, where early exercise is possible, exercise the option right.</p> <p>Liquidity risk despite control and profit and loss transfer agreement</p> <p>The Issuer would also be unable to meet its obligations arising from the securities despite the control and profit and loss transfer agreement if, in the event that the Issuer generated a net loss, while the immediate parent company would in principle be required to assume that loss, it was unable or unwilling to comply with this contractual obligation as a result of its own liquidity difficulties or overindebtedness.</p> <p>Brokerage of transactions for other Group companies and allocation of work within Citigroup</p> <p>The great majority of the Issuer's commission income consists of transfer pricing income from brokerage transactions with affiliated companies. The Issuer's costs arising from the exchange of services with individual Group companies are reimbursed on the basis of existing agreements using transfer prices. For this purpose, income and expenses, in particular commission income for transactions assisted by the bank in an advisory capacity in the context of its sales activities, are determined and allocated to the relevant areas providing the services. The transactions relate to equity trading, bond issues and corporate finance as well as to the sale of structured products, corporate derivatives and currency management products, and also global relationship banking. This process is coordinated closely across all areas with Citigroup Global Markets Limited, London, in particular, and also with Citibank, N.A., London.</p>

	<p>If a decision were made within Citigroup to reallocate the relevant activities to other Group companies, the Issuer could lose a material source of income.</p> <p>Risks in the lending business</p> <p>The Issuer's loan portfolio consists mainly of loans to international customers in the industrial and financial services sectors with investment grade credit ratings. Loan defaults have been avoided in recent years thanks to this business policy. The loan portfolio is mainly concentrated on a manageable number of borrower units, as defined by German banking law. If significant individual borrowers in the Issuer's portfolio were unable to meet their obligations, therefore, a substantial increase in loan loss provisions would be conceivable in principle and loan defaults could occur.</p> <p>Interest rate risk</p> <p>Risk-Treasury assesses and controls the Issuer's interest rate risk. The Issuer's exposure to changes in interest rates maybe a mid to long-term risk in holdings in liquid securities if these were not originally covered by hedging transactions like interest rate swap agreements. The same applies to medium and long-term loans granted by the Issuer. A significant risk from interest rate changes could arise where interest rates are not monitored in a timely or sensitive manner, which may produce the concomitant danger that action to cover such interest rate exposure is not taken early enough.</p> <p>Operating risk</p> <p>The Issuer has transferred a number of areas that are significant for the proper management and control of its business activities and the risks associated with them to other companies within and outside Citigroup. In the event that the companies to which these areas have been transferred do not fulfill their contractual obligations or do not do so at the proper time, the ability of the Issuer to meet its own obligations arising from the securities it has issued on the due dates could also be adversely affected.</p> <p>Tax risks</p> <p>The tax decisions issued to the Issuer are regularly subject to subsequent review in the form of an external tax audit or to the resolution of individual issues by the relevant courts. This is normal practice and means that an additional tax demand can be issued by the tax authorities years after the original assessment as a result of a tax audit or a generally applicable decision by a tax court.</p> <p>General business risks</p> <ul style="list-style-type: none"> • Settlement risk <p style="margin-left: 40px;">The risk that a business transaction is incorrectly processed or that a transaction is executed which is different from the intentions and expectations of the Issuer's management.</p> • Information risk
--	--

		<p>The risk that information, which was generated, received, transmitted or stored within or outside the Issuer's place of business, can no longer be accessed. Furthermore, such information may be of poor quality, or have been wrongly handled or improperly obtained. The information risk also includes risks that are generated by systems and used for processing information.</p> <ul style="list-style-type: none"> • Reputation risk <p>This represents the Issuer's risk that its relations with its customers could be harmed if its services are poor or transactions are incorrectly executed. This risk also includes the risk of entering into business relations with counterparties, whose business practices do not conform to the standards or business ethics of the Issuer.</p> <ul style="list-style-type: none"> • Personnel risk <p>The Issuer has a high demand for qualified and specially trained professionals and managers. Personnel risk entails the risk of high staff turnover and the risk that the Issuer will be unable to retain a sufficient staff of qualified personnel, as well as the risk that the Issuer's employees may knowingly or negligently violate established regulations or the firm's business ethics standards.</p> <ul style="list-style-type: none"> • Legal and regulatory risks <p>The Issuer views legal risks as any and all risks resulting from binding contracts and governing legislation. Regulatory risks result from the legal environment in which the Issuer does business.</p> <ul style="list-style-type: none"> • Risk of fraud <p>These are both internal and external risks of fraud such as bribery, insider trading and theft of data.</p>
D.6	<p>Key information on the key risks that are specific to the securities. This must include a risk warning to the effect that investors may lose the value of their entire investment or part of it, as the case may be, and/or, if the investor's liability is not limited to the value of his investment, a statement of that fact, together with a description of the circumstances in which</p>	<p><u>General risk factors of Warrants</u></p> <p>Risk of total loss</p> <p>Warrants represent particularly risky investment instruments. They entail a particularly high risk of losing the capital invested, up to and including a total loss, plus the transaction costs incurred and any borrowing costs.</p> <p>Risk of default by the Issuer of the Warrants</p> <p>In the event of the Issuer becoming insolvent, investors could suffer a loss up to and including a total loss. As bearer securities, Warrants do not fall within the scope of the deposit protection arrangements.</p> <p>Risk arising from above-average fluctuations in the prices of Warrants (leverage effect)</p> <p>One of the significant features of Warrants is the leverage effect: A change in the price of the underlying may result in a disproportionate change in the price of the Warrant. At the same time, Warrants also entail above-average</p>

	<p>such additional liability arises and the likely financial effect.</p>	<p>risks of loss.</p> <p>Risk of the absence or non-functioning of a secondary market in the Warrants or restricted availability of the Issuer's electronic trading system</p> <p>Investors should not assume that they will be able to sell a Warrant at a particular time or at a particular price during its term. Investors should assume instead that pricing on the exchange can only take place within the spread of bid and offered prices quoted by the Issuer, if available, and that their buy or sell orders on the exchange will be executed with the Issuer as the direct or indirect counterparty.</p> <p>Risk in connection with the cessation of secondary trading immediately prior to final maturityThe Issuer and/or the exchange cease trading in the Warrants shortly before their valuation date. However, the reference price of the underlying on the valuation date and/or the applicable exchange rate, both of which are important for the purpose of determining the cash amount of the Warrants, may still change between the last exchange trading day and the maturity date, which may be to the disadvantage of the investor. There is a particular risk that the price of the underlying may reach, fall below or exceed a barrier for the first time shortly before the reference price on the valuation date is determined and after trading in the secondary market has already finished.</p> <p>Currency risk with respect to the intrinsic value of the Warrants</p> <p>The performance of the investment is subject to a currency risk if the underlying on which the Warrants are based is expressed in a currency other than the currency in which the cash amount is paid out (settlement currency).</p> <p>Risks relating to market disruption events</p> <p>In the event of market disruption events with respect to the underlying, the Issuer has the right to postpone the valuation date for the reference price on exercise. This may result in an additional risk for investors if the underlying performs negatively during the time delay or, where applicable, if the exchange rate for converting the intrinsic value into the settlement currency moves in an unfavourable direction for the investor.</p> <p><u>Product specific risk factors</u></p> <p>[Risk relating to the loss of time value of Warrants depending on the remaining term</p> <p>The price of Warrants is calculated on the basis of two components of price (intrinsic value and time value). The intrinsic value of Warrants during their term is equal to the difference (if positive), multiplied by the multiplier, [between the value of the underlying and the strike (Call Warrants)] [or] [between the strike and the value of the underlying (Put Warrants)]. The amount of the time value, on the other hand, is essentially determined on the basis of the remaining term of the Warrant and the expected frequency and intensity of the fluctuations in the price of the underlying expected by</p>
--	--	---

	<p>the Issuer during the remaining term of the Warrant (implied volatility).]</p> <p>[Risks relating to other factors affecting value such as money market interest rates, expected dividends and the Issuer's refinancing costs</p> <p>The other factors affecting the price of the Warrants include, <i>inter alia</i>, interest rates on the money market relating to the remaining term, expected income from the Issuer's hedging transactions in or related to the underlying and the level of the Issuer's refinancing costs for entering into those hedging transactions.</p> <p>Even if the price of the underlying rises in the case of a call option or falls in the case of a put option, therefore, the value of the Warrant may decline as a result of the other factors affecting value. Given the limited term of the Warrant, there is no guarantee that the price of the Warrant will recover in sufficient time. The shorter the remaining term, the greater the risk.]</p> <p>[Risk of Warrants with currency hedging (Quanto Warrants)</p> <p>[The price of Warrants with currency hedging (Quanto Warrants) may be affected by exchange rate movements prior to the exercise or expiry of the Warrants even if the factors affecting their value remain otherwise unchanged.]</p> <p>[In the case of open end Warrants with currency hedging (Quanto Warrants), the cash or termination amount is initially calculated on the basis of the Quanto rate of conversion specified at the date of issue without taking into account exchange rate risks. In a second step, however, the amount is reduced by the net costs of the Quanto currency hedging incurred by the Issuer since the date of issue, or increased in the event of net income.]]</p> <p>[Risk relating to hedging transactions in the underlying in the case of Warrants with knock-out</p> <p>In the case of Warrants with knock-out, the possibility cannot be excluded that the Issuer's activities in setting up or unwinding hedging positions may reinforce movements in the price of the underlying for the Warrants to such an extent that a knock-out event is triggered and the option rights therefore expire early with no value.]</p> <p>[Risk from the occurrence of a knock-out event outside the trading hours in the secondary market</p> <p>Investors in principle face the risk that a knock-out event may also occur outside the times when the Warrants are normally traded. This risk is particularly relevant in circumstances where the trading hours for the Warrants differ from the trading hours during which trading in the underlying normally takes place.]</p> <p><i>[In the case of Turbo Warrants for which the knock-out barrier is equal to the strike, the following risk factor also applies:</i></p>
--	--

		<p>Risk of total loss prior to maturity due to the occurrence of a knock-out event</p> <p>The term of [Turbo][Speeder] [Bull] [or] [Bear] Warrants ends early at the knock-out time and the Turbo option rights expire worthless, in the event that the price of the underlying defined in the terms and conditions [is equal to or lower than (bull)] [or] [is equal to or higher than (bear)] the knock-out barrier of the [Turbo][Speeder] Warrant [within an observation period defined in the terms and conditions] [or] [at an observation time specified in the terms and conditions]. If a knock-out event occurs, investors will suffer a total loss of their capital invested.]</p> <p><i>[In the case of Turbo Warrants for which the respective strike is not equal to the knock-out barrier and the risk of jumps in the price of the underlying is not borne directly by the warrant holder (Turbo stop-loss without direct gap risk), the following risk factor also applies:</i></p> <p>Risk of total loss prior to maturity due to the occurrence of a knock-out event</p> <p>The term of [Turbo][Speeder] [Bull] [or] [Bear] Warrants ends early at the knock-out time and the option rights expire worthless, in the event that the price of the underlying defined in the terms and conditions [is equal to or lower than (bull)] [or] [is equal to or higher than (bear)] the knock-out barrier of the [Turbo][Speeder] Warrant [within an observation period defined in the terms and conditions] [or] [at an observation time specified in the terms and conditions]. If a knock-out event occurs, investors will suffer a loss equal to the difference between their capital invested (plus transaction costs) and the stop-loss cash amount payable by the Issuer on the occurrence of the knock-out event.]</p> <p><i>[In the case of Turbo Warrants for which the respective strike is not equal to the knock-out barrier and the risk of a total loss due to jumps in the price of the underlying (gap risk) is borne directly by the warrant holder (Turbo stop-loss with gap risk), the following risk factor also applies:</i></p> <p>Risk of total loss prior to maturity due to the occurrence of a knock-out event</p> <p>The term of [Turbo][Speeder] [Bull] [or] [Bear] Warrants ends early at the knock-out time and the option rights expire worthless, in the event that the price of the underlying defined in the terms and conditions [is equal to or lower than (bull)] [or] [is equal to or higher than (bear)] the knock-out barrier of the [Turbo][Speeder] Warrant [within an observation period defined in the terms and conditions] [or] [at an observation time specified in the terms and conditions].</p> <p>If a knock-out event occurs, investors will suffer a loss equal to the difference between the capital invested (plus transaction costs) and the stop-loss cash amount payable by the Issuer on the occurrence of the knock-out event. In the most unfavorable case, the stop-loss cash amount may be equal to zero and the warrant holder will suffer a total loss of the</p>
--	--	---

	<p>capital invested.]</p> <p><i>[In the case of Turbo Warrants:</i></p> <p>Price risk in connection with rising implied volatility</p> <p>In the case of these [Turbo][Speeder] Warrants, the price of the Warrants during their term is influenced by other factors affecting value in addition to the price of the underlying, including in particular the implied volatility of the underlying. From the point of view of the investor, an increase in the implied volatility of the underlying represents a price risk if the price of the underlying is close to the knock-out barrier.</p> <p>Risk of total loss due to jumps in the price of the underlying (gap risk)</p> <p>The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, that could trigger a knock-out event is known as gap risk.]</p> <p>[Risk of exercise of the Warrants and Issuer's right of termination</p> <p>In the case of [Open End Turbo][BEST Speeder] Warrants with knock-out, there is a risk that the term may be ended unexpectedly. The term of the Warrants ends either with the effective exercise of the Warrants by the warrant holder, or with a termination of all the Warrants by the Issuer, or on the occurrence of a knock-out event or an early redemption of the Warrants, if the terms and conditions provide for early redemption of the Warrants.]</p> <p>[Risk of total loss due to a knock-out event and risk from the Issuer unwinding its hedging position</p> <p>If the Warrants are [Open End Turbo][BEST Speeder] [Bull] [or] [Bear] Warrants with knock-out, the term of the Warrants ends early at the knock-out time and the option rights expire worthless, in the event that the price of the underlying defined in the terms and conditions [reaches or falls below (Bull)] [or] [reaches or exceeds (Bear)] the knock-out barrier of the [Open End Turbo][BEST Speeder] Warrant within an observation period defined in the terms and conditions. In the case of [Open End Turbo][BEST Speeder] [Bull] [or] [Bear] Warrants with knock-out, if a knock-out event occurs, investors will suffer a loss equal to the difference between the capital invested (plus transaction costs) and the stop-loss cash amount payable by the Issuer on the occurrence of the knock-out event. The stop-loss cash amount is determined by the Issuer taking into account a hedge price also calculated by the Issuer. Since the hedge price of the underlying may also be considerably [lower than (bull)] [or] [higher than (bear)] the knock-out barrier, the warrant holder bears the risk arising from the unwinding of the hedging position by the Issuer. In the most unfavorable case, the stop-loss cash amount may be equal to zero and the warrant holder will suffer a total loss of the capital invested.]</p> <p>[Additional risks relating to hedging transactions in the underlying for Warrants with knock-out</p> <p>In the case of Warrants with knock-out, the possibility cannot be excluded</p>
--	--

	<p>that the Issuer's activities in setting up or unwinding hedging positions may reinforce movements in the price of the underlying for the Warrants to such an extent that a knock-out event is triggered and the option rights therefore expire early with no value.]</p> <p>[Price risk in connection with rising implied volatility for [Turbo][Speeder] stop-loss Warrants with gap risk</p> <p>If the strike and the knock-out barrier for [Turbo][Speeder] stop-loss Warrants with gap risk are close to each other and if the price of the underlying in such cases moves towards the knock-out barrier and approaches it, then the increased risk of an early knock-out event becomes a separate quantifiable component of the option price for the first time. The measure for the quantification of these components of the option price is the implied volatility. From the point of view of the investor, an increase in the implied volatility of the underlying represents a price risk if the price of the underlying, the strike and the knock-out barrier in each case are close to each other.]</p> <p>[Risk relating to adjustments of the strike and of the knock-out barrier</p> <p>In the case of [Open End Turbo][BEST Speeder] [Bull] [or] [Bear] Warrants with knock-out, the strike and the knock-out barrier of the Warrants are subject to ongoing adjustment. In order to reflect the financing costs incurred by the Issuer in connection with the hedging transactions entered into for the Warrants, the strike of the Warrants is changed by an adjustment amount on a daily basis. Investors should note that the adjustment rate for adjusting the features of the Warrants specified by the Issuer using its reasonable discretion when determining the interest rate correction factor may differ significantly in certain financing level adjustment periods, if the prevailing market conditions so require, from the adjustment rate determined for the first financing level adjustment period.</p> <p>In addition, the relevant knock-out barrier for the respective following financing level adjustment period is adjusted by the Issuer in its reasonable discretion on an adjustment date pursuant to the terms and conditions of the Warrants. Investors should therefore not assume that the knock-out barrier will always remain at roughly the same distance from the strike during the term of the Warrants.]</p> <p><i>[In the case of capped Warrants, the following risk factor also applies:</i></p> <p>Risk from the limitation of the cash amount</p> <p>In the case of capped Warrants, the cash amount which may be payable by the Issuer at maturity is limited by a cap specified in the terms and conditions.]</p> <p><i>[In the case of Digital Warrants, the following risk factor also applies:</i></p> <p>Risk of total loss if the condition for payment of the cash amount does not occur</p>
--	--

	<p>In the case of Digital Warrants, the level of the cash amount that may be payable by the Issuer is specified in the terms and conditions. The actual payment of the cash amount is dependent on whether the reference price of the underlying is [higher (Call Warrants)] [or] [lower (Put Warrants)] than the strike at expiry.]</p> <p><i>[In the case of Straddle Warrants, the following risk factor also applies:</i></p> <p>Risk of loss up to and including a total loss if the price of the underlying on exercise or expiry is close to or equal to the strike</p> <p>A Straddle Warrant generally loses value during its term if the price of the underlying is equal to or close to the strike of the Warrant. The investor will suffer a total loss at maturity if the price of the underlying on exercise or expiry of the Warrants is exactly equal to the strike.]</p> <p><i>[In the case of Barrier Warrants (Up-and-Out Call or Down-and-Out Put Warrants), the following risk factors also apply:</i></p> <p>Risk of total loss prior to maturity if a knock-out event occurs</p> <p>In the case of Up-and-Out call or Down-and-Out Put Warrants, the term of the Barrier Warrants ends early at the knock-out time and the barrier option rights expire worthless, in the event that the price of the underlying defined in the terms and conditions [is equal to or higher than (Up-and-Out Call)] [or] [is equal to or lower than (Down-and-Out Put)] the knock-out barrier of the Barrier Warrant [within an observation period defined in the terms and conditions] [or] [at an observation time specified in the terms and conditions]. If a knock-out event occurs, investors will suffer a total loss of their capital invested.</p> <p>Price risk in connection with rising implied volatility</p> <p>In the case of Up-and-Out Call or Down-and-Out Put Warrants, the price of the Warrants during their term is influenced by other factors affecting value in addition to the price of the underlying, including in particular the implied volatility of the underlying. From the point of view of the investor, an increase in the implied volatility of the underlying represents a price risk if the price of the underlying is close to the knock-out barrier.</p> <p>Risk of jumps in the price of the underlying (gap risk)</p> <p>The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, that could trigger a knock-out event is known as gap risk.]</p> <p><u>Underlying specific risk factors</u></p> <p>[Risk in connection with indices as the underlying</p> <p>In the case of Warrants based on indices, the level of the cash amount is dependent on the performance of the index. Risks attaching to the index therefore also represent risks attaching to the Warrants. The performance of</p>
--	---

	<p>the index depends in turn on the individual index constituents of which the respective index is composed. During the term of the Warrants, however, their market value may not reflect the performance of the index or of the index constituents.]</p> <p>[Risk in connection with exchange rates as the underlying]</p> <p>Exchange rates express the relationship between the value of a particular currency and that of another currency. Exchange rates are subject to an extremely wide range of influencing factors. Examples which it is relevant to mention here include the rate of inflation in the particular country, differences in interest rates compared with other countries, the assessment of the performance of the respective economy, the global political situation, the convertibility of one currency into another, and the security of a monetary investment in the respective currency. In addition to these factors which are still capable of being assessed, there may be other factors for which an assessment is practically impossible.]</p> <p>[Risk in connection with commodities as the underlying]</p> <p>The price risks attaching to commodities are frequently complex. The factors affecting the prices of commodities are numerous and complicated. As an illustration, some of the typical factors reflected in commodity prices are listed below.</p> <ul style="list-style-type: none"> • Supply and demand • Direct investment costs, warehousing costs • Liquidity • Weather and natural disasters • Political risks • Taxation] <p>[Risk in connection with futures contracts as the underlying]</p> <p>a) General</p> <p>Futures contracts are standardized forward transactions based on financial instruments.</p> <p>In general, there is a close correlation between the development of the price of an underlying on the cash market and on the corresponding futures market. Since the Warrants are linked to the quoted price of the underlying futures contracts, knowledge of the method of operation of forward transactions and of the factors affecting their valuation are necessary to enable an accurate assessment to be made of the risks associated with the purchase of these Warrants, in addition to knowledge about the market for the underlying on which the respective futures contract is based.</p> <p>b) Rollover</p> <p>Since futures contracts as the underlying for the Warrants have a specific</p>
--	---

		<p>expiry date in each case, in the case of open end Warrants or if a specifically defined valuation date for the Warrants falls after the expiry date of the futures contract, the underlying is replaced by the Issuer in each case at a time specified in the terms and conditions by a futures contract which, except for an expiry date that is further in the future, has the same contract specifications as the original underlying futures contract ("Rollover").</p> <p>Once a Rollover has been completed, the features of the Warrants (e.g. strike, knock-out barrier) are adjusted.]]</p>
Section E – Offer		
E.2b	Reasons for the offer and use of proceeds when different from making profit and/or hedging certain risks.	Not applicable; the reasons for the offer are making profit and/or hedging certain risks and the net proceeds from the issuance of Warrants presented in this base prospectus will be used by the Issuer for its general business purposes.
E.3	A description of the terms and conditions of the offer.	<p>Offer method, offeror and issue date of the Warrants</p> <p>[The Warrants are being offered over-the-counter on a continuous basis [in [one] [or] [several] series[, with different features]].</p> <p>The offer of the Warrants begins in [Germany] [,][and] [Portugal][,] [and] [France][,] [and] [the Netherlands][,] [and] [Sweden][,] [and] [Finland] on [●].]</p> <p>[The Warrants are being offered during a subscription period [in [one] [or] [several] series[, with different features,]] at a fixed price plus an issuing premium. When the respective subscription period has ended, the Warrants will be sold over-the-counter.</p> <p>The subscription period begins on [●] and ends on [●].]</p> <p>The Issuer reserves the right to terminate [the subscription period][the offer] early for any reason whatsoever. [If a total subscription volume of [●] for the Warrants has been reached prior to the end of the subscription period at any time on a business day, the Issuer will terminate the subscription period for the securities at the relevant time on that business day without prior notice.]</p> <p>[The Issuer reserves the right to cancel the issue of the Warrants for any reason whatsoever.]</p> <p>[In particular, the issue of the Warrants depends, among other things, on whether the Issuer has received a total volume of at least [●] valid subscription applications for the securities by the end of the subscription period. If this condition is not met, the Issuer may cancel the issue of the Warrants at the end of the subscription period.]</p> <p>The offeror[s] of the Warrants [is][are]: [●].</p> <p>[The issue date is: [●]]</p>

		<p>Restrictions on the free transferability of the securities</p> <p>The Warrants may be offered or sold only if all applicable securities laws and regulations in force in the jurisdiction in which a purchase, offer, sale or delivery of Warrants is made or in which this document is circulated or kept for inspection have been complied with, and if all consents or authorizations required for the purchase, offer, sale or delivery of the Warrants in accordance with the legal norms in force in that jurisdiction have been obtained.</p> <p>In particular, the Warrants are not and will not be registered pursuant to the United States Securities Act of 1933 as amended. They may not be offered, sold, traded or delivered within the United States either directly or indirectly by or to or for the account of a US person (as defined in Regulation S pursuant to the United States Securities Act of 1933), except in the case of exemption from the registration requirements of the Securities Act. Any person receiving the cash amount in accordance with these terms and conditions is deemed to have made a declaration that the person entitled to the rights arising from the Warrants is not a US person.</p> <p>Issue price and costs and taxes on purchase</p> <p>The initial issue price is [●].</p> <p>[Not applicable, as the purchase of the Warrants entails no costs or taxes that are incurred by the Issuer specifically for purchasers or subscribers.][The purchase of the Warrants entails costs or taxes amounting to: [<i>insert costs and taxes incurred</i>: [●].] [The Issuer allows a sales commission of [up to] [●] per cent in respect of these Warrants. The sales commission is based on the initial issue price or, if greater, on the selling price of the Warrant in the secondary market.]</p>
E.4	A description of any interest that is material to the issue/offer including conflicting interests.	<p>The Issuer, its affiliated companies (if any) or other companies belonging to Citigroup, Inc. or affiliated to it generally act as the calculation agent for the Warrants. This activity can lead to conflicts of interest since the responsibilities of the calculation agent include making certain determinations and decisions which could have a negative effect on the price of the Warrants or the level of the cash amount.</p> <p>The Issuer, its affiliated companies (if any) or other companies belonging to Citigroup, Inc. or affiliated to it may engage in trading transactions in the underlying, other instruments linked to it, or derivatives, stock exchange options or stock exchange forward contracts, or may issue other securities and derivatives based on the underlying. The companies may also be involved in the acquisition of new shares or other securities of the underlying or, in the case of stock indices, of individual companies included in the index, or act as financial advisors to the entities referred to or work with them in the commercial banking business. The companies are required to fulfill their obligations arising in this connection irrespective of the consequences resulting for the warrant holders and, where necessary, to take actions they consider necessary or appropriate in order to protect themselves or safeguard their interests arising from these business</p>

		<p>relationships. The activities referred to above could lead to conflicts of interest and have a negative effect on the price of the underlying or securities linked to it such as the Warrants.</p> <p>The Issuer, its affiliated companies (if any) or other companies belonging to Citigroup, Inc. or affiliated to it may issue additional derivative securities based on the respective underlying or constituents of the underlying, including securities whose features are the same as or similar to those of the Warrants. The introduction of such products that compete with the Warrants may impact the price of the underlying or the constituents of the underlying and thus also the price of the Warrants. The Issuer, its affiliated companies (if any) or other companies belonging to Citigroup, Inc. or affiliated to it may receive non-public information relating to the underlying or the constituents of the underlying, but are under no obligation to pass on such information to the warrant holders. Furthermore, companies belonging to Citigroup, Inc. or affiliated to it may publish research reports relating to the underlying or constituents of the underlying. These types of activities may entail certain conflicts of interest and affect the price of the Warrants.</p> <p>[Investors should note that conflicts of interest to the disadvantage of the investor may arise from the payment of sales commissions to distributors, such that distributors may recommend Warrants yielding a higher fee because of the sales commission incentive. Investors should therefore always seek advice from their bank, financial advisor or other parties about the existence of possible conflicts of interest before purchasing Warrants.]</p> <p><i>[Insert potential conflicts of interest relating to the concrete issue: ●]</i></p>
E.7	Estimated expenses charged to the investor by the issuer or the offeror.	<p>[Not applicable, as no such expenses will be charged to the investor by the Issuer or the distributor/s.][The estimated expenses for the Warrants[, including the cost for admission to exchange trading,] are included in the issue price or the selling price, as the case may be. If the investor purchases the Warrants from a distributor, the purchase price to be paid by the investor may include sales commissions that have to be disclosed by the distributor.][<i>insert description of any such costs: ●</i>]</p>

DEUTSCHE ÜBERSETZUNG DER ZUSAMMENFASSUNG

Die folgende Zusammenfassung enthält durch eckige Klammern oder Kursivschreibung gekennzeichnete Optionen und Leerstellen bezüglich der Optionsscheine, die unter dem Dreiteiligen Basisprospekt begeben werden können. Die Zusammenfassung der einzelnen Emission der Optionsscheine wird in den Endgültigen Bedingungen enthalten sein und ausschließlich die für die jeweilige Emission von Optionsscheinen relevanten Optionen enthalten. Weiterhin werden in der Zusammenfassung der einzelnen Emission die in der nachfolgenden Zusammenfassung enthaltenen Leerzeichen ("●"), die für die konkrete Emission relevant sind, ausgefüllt werden.

Zusammenfassungen bestehen aus bestimmten Offenlegungspflichten, den sogenannten "Schlüsselinformationen". Diese Schlüsselinformationen sind in den nachfolgenden Abschnitten A – E gegliedert und nummeriert (A.1 – E.7).

Diese Zusammenfassung enthält alle Schlüsselinformationen, die in eine Zusammenfassung für diese Art von Wertpapieren und für Emittenten dieses Typs aufzunehmen sind. Da einige Punkte nicht zu berücksichtigen sind, ist die Nummerierung zum Teil nicht durchgängig und es kann zu Lücken kommen. Auch wenn eine Schlüsselinformation aufgrund der Art des Wertpapiers bzw. für Emittenten dieses Typs in die Zusammenfassung aufgenommen werden muss, ist es möglich, dass bezüglich dieser Schlüsselinformation keine relevante Information zu geben ist. In diesem Fall enthält die Zusammenfassung an der entsprechenden Stelle eine kurze Beschreibung der Schlüsselinformation und den Hinweis "Nicht anwendbar".

Abschnitt A - Einleitung und Warnhinweise		
A.1	Diese Zusammenfassung stellt die wesentlichen Merkmale und Risiken der Citigroup Global Markets Deutschland AG (der " Emittent ") und der Optionsscheine, die unter dem Dreiteiligen Basisprospekt begeben werden, dar. Die Zusammenfassung ist als Einführung zum Dreiteiligen Basisprospekt zu verstehen, der aus dieser Zusammenfassung, dem Registrierungsformular der Citigroup Global Markets Deutschland AG vom 3. Mai 2013 inklusive etwaiger Nachträge und der Wertpapierbeschreibung der Citigroup Global Markets Deutschland AG vom 13. Mai 2013 besteht. Der Anleger sollte jede Entscheidung zur Anlage in die Optionsscheine auf die Prüfung des gesamten Prospekts, einschließlich etwaiger Nachträge und der Endgültigen Bedingungen stützen. Für den Fall, dass vor einem Gericht Ansprüche aufgrund der in einem Basisprospekt, etwaiger Nachträge sowie den in den jeweiligen Endgültigen Bedingungen enthaltenen Informationen geltend gemacht werden, könnte der klagende Anleger aufgrund einzelstaatlicher Rechtsvorschriften von Mitgliedstaaten des Europäischen Wirtschaftsraums die Kosten für eine Übersetzung des Basisprospekts, etwaiger Nachträge und der Endgültigen Bedingungen in die Gerichtssprache vor Prozessbeginn zu tragen haben. Der Emittent kann für den Inhalt dieser Zusammenfassung, einschließlich einer gegebenenfalls angefertigten Übersetzung davon, haftbar gemacht werden, jedoch nur für den Fall, dass die Zusammenfassung irreführend, unrichtig oder widersprüchlich ist, wenn sie zusammen mit den anderen Teilen des Prospekts gelesen wird oder sie, wenn sie zusammen mit den anderen Teilen des Dreiteiligen Basisprospekts gelesen wird, nicht alle erforderlichen Schlüsselinformationen vermittelt.	
A.2	– Zustimmung zur Verwendung des Prospekts	[Im Hinblick auf prospektpflichtige Angebote gemäß Artikel 3 (2) Prospekttrichtlinie, stimmt der Emittent der Verwendung des Prospekts durch alle Finanzintermediäre (generelle Zustimmung) für Angebote in [Deutschland] [,][und] [Portugal][,] [und] [Frankreich][,] [und] [den Niederlanden][,] [und] [Schweden][,] [und] [Finnland] [(das

		<p>"Angebotsland"][die "Angebotsländer")] zu. Die generelle Zustimmung zu der späteren Weiterveräußerung und der endgültigen Platzierung der Wertpapiere durch [den][die] Finanzintermediär[e] wird in Bezug auf [Deutschland] [,][und] [Portugal][,] [und] [Frankreich][,] [und] [den Niederlanden][,] [und] [Schweden][,] [und] [Finnland] erteilt.]</p> <p>[Im Hinblick auf prospektpflichtige Angebote gemäß Artikel 3 (2) Prospekttrichtlinie, stimmt der Emittent der Verwendung des Prospekts durch die folgenden Finanzintermediäre (individuelle Zustimmung) für Angebote in [Deutschland] [,][und] [Portugal][,] [und] [Frankreich][,] [und] [den Niederlanden][,] [und] [Schweden][,] [und] [Finnland] ((das "Angebotsland"][die "Angebotsländer")] zu: [●]. Die individuelle Zustimmung zu der späteren Weiterveräußerung und der endgültigen Platzierung der Wertpapiere durch [den][die] Finanzintermediär[e] wird in Bezug auf [Deutschland] [,][und] [Portugal][,] [und] [Frankreich][,] [und] [den Niederlanden][,] [und] [Schweden][,] [und] [Finnland] erteilt.]</p> <p>[Ferner erfolgt diese Zustimmung vorbehaltlich [●].]</p> <p>[Die spätere Weiterveräußerung und endgültige Platzierung der Wertpapiere durch Finanzintermediäre kann [während des Zeitraums vom [●] bis [●] (die "Angebotsfrist")] [während der Dauer der Gültigkeit des Dreiteiligen Basisprospekts gemäß § 9 Wertpapierprospektgesetz] erfolgen.]</p> <p>Anlegern sind im Falle eines Angebots durch einen Finanzintermediär von diesem zum Zeitpunkt der Vorlage des Angebots die Angebotsbedingungen zur Verfügung zu stellen.</p>
Abschnitt B – Emittent und etwaige Garantiegeber		
B.1	Juristische und kommerzielle Bezeichnung des Emittenten.	Der juristische und kommerzielle Name des Emittenten lautet Citigroup Global Markets Deutschland AG.
B.2	Sitz und Rechtsform des Emittenten, das für den Emittenten geltende Recht und Land der Gründung der Gesellschaft.	<p>Sitz</p> <p>Frankfurt am Main; die Adresse der Citigroup Global Markets Deutschland AG lautet Frankfurter Welle, Reuterweg 16, 60323 Frankfurt am Main, Bundesrepublik Deutschland (Telefon +49 (0)69-1366-0).</p> <p>Rechtsform und Rechtsordnung</p> <p>Der Emittent ist eine Aktiengesellschaft (AG) nach deutschem Recht.</p> <p>Ort der Registrierung</p> <p>Der Emittent ist im Handelsregister des Amtsgerichts Frankfurt/Main unter der Nummer HRB 88301 eingetragen.</p>
B.4b	Alle bereits bekannten Trends, die sich auf den Emittenten und die Branchen, in denen er	Für die Entwicklung der Weltwirtschaft erwartet die Bank 2013 einen leichten Anstieg der Wachstumsrate von 2,5% auf 2,6%. 2014 sollte das Wachstum auf 3,2% ansteigen. Die Abschwächung des Weltwirtschaftswachstums hatte ihren Grund vor allem in der

	tätig ist, auswirken.	<p>Wachstumsverlangsamung in den Industrieländern. Für die Industrieländer erwartet die Bank 2013 ein moderates Wachstum von 1,0% mit einem leichten Anstieg auf 1,6% in 2014.</p> <p>Insgesamt erwartet die Bank weiterhin erhebliche Unterschiede zwischen den einzelnen Weltregionen.</p> <p>In der Eurozone erwartet die Bank eine leichte Rezession (die Wachstumsvorhersagen der Bank liegen bei -0,6% und -0,4% für 2013 und 2014). Die anhaltende Staatsschuldenkrise sowie die hohe Verschuldung im Privatsektor in den europäischen Peripheriestaaten werden hierfür als Ursachen gesehen. Es wird erwartet, dass die EZB auch weiterhin stabilisierend in die Märkte eingreifen und in Abhängigkeit von der weiteren wirtschaftlichen Entwicklung im Euroraum im 2. Quartal 2013 einen weiteren Zinsschritt vornehmen wird, dem ein voraussichtlich letzter Zinsschritt nach unten im Verlauf des zweiten Halbjahrs folgen könnte. Die Bank sieht es als wahrscheinlich an, dass Südeuropa bzw. Irland nicht schnell auf einen nachhaltigen gemeinsamen Fiskalpfad kommen werden. Falls die Kernländer in der Zukunft nicht mehr bereit sein sollten im größeren Ausmaß die Peripherieländer zu unterstützen, könnte es zu einer Reihe von Schuldenumstrukturierungen (wahrscheinlich durch längere Laufzeiten und Zinsermäßigungen) kommen, jedoch wohl nicht vor 2015.</p> <p>Für den Bereich Optionsscheine und Zertifikate erwartet der Geschäftsbereich weiterhin starken Wettbewerb unter den führenden Emissionshäusern. Es werden weitere regulatorische Anforderungen erwartet, die fristgerecht in den Geschäftsbetrieb integriert werden müssen.</p> <p>Auf Grund der Prognosen der einzelnen Geschäftsbereiche und eines restriktiven Kostenmanagements rechnet die Bank für die Geschäftsjahre 2013 und 2014 weiterhin mit einem positiven Gesamtergebnis.</p>
B.5	Ist der Emittent Teil einer Gruppe, Beschreibung der Gruppe und Stellung des Emittenten innerhalb dieser Gruppe.	<p>Der Emittent gehört zum deutschen Teilkonzern der Citigroup. Die Geschäftsführung des als Aktiengesellschaft firmierenden Emittenten erfolgt durch den Vorstand. Der Emittent wird zu 100% von der deutschen Holdinggesellschaft, der Citigroup Global Markets Finance Corporation & Co. beschränkt haftende KG mit Sitz in Frankfurt am Main, gehalten.</p> <p>Die Citigroup Global Markets Finance Corporation & Co. beschränkt haftende KG ist außerdem Stiller Gesellschafter des Emittenten mit einer Kapitaleinlage in Höhe von Euro 122.710.051,49 per 30. November 2012. Persönlich haftender Gesellschafter der Citigroup Global Markets Finance Corporation & Co. beschränkt haftende KG ist die Citigroup Global Markets Finance LLC (USA). Alleiniger Kommanditist ist die Citi Overseas Investment Bahamas Inc.</p> <p>Sämtliche Aktien der Citigroup Global Markets Finance LLC werden von der Citi Overseas Investment Bahamas Inc. gehalten, deren Alleinaktionär die Citibank Overseas Investment Corporation (USA) ist. Diese Gesellschaft wiederum wird zu 100% von der Citibank, N.A. (USA) gehalten; die Citibank, N.A. (USA) ist eine 100%ige Tochtergesellschaft der Citicorp (USA), die wiederum eine 100%ige Tochtergesellschaft der Citigroup, Inc. (USA) ist.</p>

B.9	Liegen Gewinnprognosen oder -schätzungen vor, ist der entsprechende Wert anzugeben.	Nicht anwendbar; der Emittent hat keine Gewinnprognose oder -schätzung in den Basisprospekt aufgenommen.																																				
B.10	Art etwaiger Beschränkungen im Bestätigungsvermerk zu den historischen Finanzinformationen.	Die Jahresabschlüsse des Emittenten für die Geschäftsjahre vom 1. Dezember 2011 bis zum 30. November 2012 und vom 1. Dezember 2010 bis zum 30. November 2011 wurden vom Abschlussprüfer des Emittenten geprüft und mit dem uneingeschränkten Bestätigungsvermerk versehen.

Handelsposition des Emittenten, die nach dem von den historischen Finanzinformationen abgedeckten Zeitraum eingetreten sind.	Das bilanzielle Eigenkapital setzt sich zum Bilanzstichtag wie folgt zusammen:		
		30.11.2012 in Mio. Euro (geprüft)	Vorjahr (30.11.2011) in Mio. Euro (geprüft)
	Gezeichnetes Kapital		
	Aktienkapital	210,6	210,6
	Stille Einlage	122,7	122,7
	Kapitalrücklage	195,8	193,8
	Gesetzliche Rücklage	33,0	33,0
	Andere Gewinnrücklagen	27,9	27,9
	Darüber hinaus wurde im Zuge der Einführung des BilMoG gem. § 340g HGB ein Sonderposten (Fonds für allgemeine Bankrisiken) in Höhe von EUR 9,4 Mio. (im Vorjahr EUR 6,6 Mio.) gebildet.		
	Die bankaufsichtsrechtlichen Eigenmittel gemäß BIZ setzten sich aus Kernkapital und Ergänzungskapital (nachrangige Verbindlichkeiten) nach Feststellung wie folgt zusammen:		
	30.11.2012 in Mio. Euro	Vorjahr (30.11.2011) in Mio. Euro	
Bilanzielles Eigenkapital	590,0	588,0	
Abzüglich Immaterielle Vermögensgegenstände	0	-1,2	
Kernkapital	599,3	594,3	
Ergänzungskapital	0,0	0,0	
Eigenmittel	599,3	594,3	
Kapitalquoten			
Kernkapitalquote in %	33,6	29,3	
Gesamtkapitalquote in %	33,6	29,3	
Trotz der Schuldenkrise im Euroraum und den damit verbundenen Schwankungen an den internationalen Kapitalmärkten hat die Citigroup Global Markets Deutschland AG im abgelaufenen Geschäftsjahr erneut ein positives Ergebnis erwirtschaftet.			
Der Emittent erklärt, dass es keine wesentlichen negativen Veränderungen in den Aussichten des Emittenten seit dem Stichtag des letzten geprüften Jahresabschlusses am 30. November 2012 gegeben hat.			
Weiterhin erklärt der Emittent, dass seit dem Stichtag des letzten geprüften Jahresabschlusses am 30. November 2012 keine wesentlichen Veränderungen bei der Finanzlage oder Handelsposition eingetreten sind.			

B.13	Beschreibung aller Ereignisse aus der jüngsten Zeit der Geschäftstätigkeit des Emittenten, die für die Bewertung seiner Zahlungsfähigkeit in hohem Maße relevant sind.	Nicht anwendbar; es gibt keine Ereignisse aus der jüngsten Zeit der Geschäftstätigkeit des Emittenten, die für die Bewertung ihrer Zahlungsfähigkeit in hohem Maße relevant sind. Allerdings erwägt die Citigroup derzeit Maßnahmen zur Verbesserung ihrer Organisationsstruktur. In diesem Zusammenhang könnte es zur Übertragung aller Anteile am Emittenten an die und anschließend zur Verschmelzung des Emittenten auf die Citigroup International plc. kommen, die dadurch alle Rechte und Pflichten des Emittenten übernehmen würde. Citigroup International plc. würde infolge der Verschmelzung die Rolle des Emittenten übernehmen.
B.14	B.5 sowie: Ist der Emittent von anderen Unternehmen der Gruppe abhängig, ist dies klar anzugeben.	Die Citigroup Global Markets Finance Corporation als deutsche Holdinggesellschaft hält 100% der Aktien des Emittenten. Gemäß § 17 Abs. 2 des Aktiengesetzes wird von einem in Mehrheitsbesitz stehenden Unternehmen vermutet, dass es von dem an ihm mit Mehrheit beteiligten Unternehmen abhängig ist.
B.15	Beschreibung der Haupttätigkeiten des Emittenten.	Der Emittent betreibt das Corporate & Investment Banking-Geschäft und bietet Unternehmen, Regierungen und institutionellen Investoren umfassende Finanzkonzepte in den Bereichen Investment Banking, Fixed Income, Foreign Exchange, Equities und Derivatives, sowie Global Transaction Services; daneben ist er ein bedeutender Emittent von Optionsscheinen und Zertifikaten, deren Endinvestoren insbesondere Privatkunden sind. Seit Ende 2012 zählt der Emittent auch die Citi Private Bank - Family Office Coverage Germany und das Covered Bond Research zu seinen Geschäftsbereichen.
B.16	Soweit dem Emittenten bekannt, ob an ihm unmittelbare oder mittelbare Beteiligungen oder Beherrschungsverhältnisse bestehen, wer diese Beteiligungen hält bzw. diese Beherrschung ausübt und welcher Art die Beherrschung ist.	Neben der beschriebenen Einbindung des Emittenten in den Konzern der Citigroup Inc. besteht ein Beherrschungs- und Ergebnisabführungsvertrag mit der direkten Muttergesellschaft des Emittenten. Danach hat der Emittent die Leitung seines Unternehmens seiner direkten Muttergesellschaft unterstellt. Die direkte Muttergesellschaft ist demgemäß berechtigt, dem Emittenten Weisungen zu erteilen. Ferner ist der Emittent nach dem Vertrag verpflichtet, seinen gesamten Gewinn an seine direkte Muttergesellschaft abzuführen. Im Gegenzug ist die direkte Muttergesellschaft verpflichtet, jeden während der Vertragsdauer entstehenden Jahresfehlbetrag des Emittenten nach näherer Bestimmung des § 302 Abs. 1 und 3 AktG auszugleichen.
Abschnitt C – Wertpapiere		
C.1	Beschreibung von Art und Gattung der angebotenen und/oder zum Handel zuzulassenden Wertpapiere, einschließlich jeder Wertpapierkennung.	Art/Form der Optionsscheine Optionsscheine sind derivative Finanzinstrumente, die ein Optionsrecht beinhalten und daher viele Merkmale mit Optionen gemein haben können. Eines der wesentlichen Merkmale von Optionsscheinen ist der so genannte Hebeleffekt: Eine Veränderung des Preises des Basiswerts kann eine überproportionale Veränderung des Preises der Optionsscheine zur Folge haben. Gleichzeitig sind mit Optionsscheinen aber auch überproportionale Verlustrisiken verbunden. Der Hebeleffekt des Optionsscheins wirkt sich in

	<p>beide Richtungen aus – also nicht nur zum Vorteil des Anlegers bei einer günstigen, sondern insbesondere auch zum Nachteil des Anlegers bei einer ungünstigen Entwicklung der wertbestimmenden Faktoren. Der in Bezug auf einen Optionsschein bei Ausübung oder vorzeitiger Beendigung fällige Betrag hängt vom Wert des Basiswerts zum entsprechenden Zeitpunkt ab.</p> <p><i>[Werden die Optionsscheine durch einen Inhaber-Sammeloptionsschein verbrieft, einfügen:</i></p> <p>[Jede Serie der] [Die] Optionsscheine [wird] [werden] durch einen Inhaber-Sammeloptionsschein verbrieft, der bei der Zentralen Wertpapiersammelbank hinterlegt ist. Effektive Optionsscheine werden während der gesamten Laufzeit nicht ausgegeben.]</p> <p><i>[Sofern Nederlands Centraal Instituut voor Giraal Effectenverkeer B.V. als Zentrale Wertpapiersammelbank angegeben ist und die Optionsscheine in dematerialisierter Form geführt werden, einfügen:</i></p> <p>Die Optionsscheine werden in Übereinstimmung mit niederländischem Recht in dematerialisierter Form als Inhaberpapiere im System für die buchmäßige Erfassung von Wertpapieren der Zentralen Wertpapiersammelbank geführt. Es erfolgt in Bezug auf die Optionsscheine keine Ausgabe von Globalurkunden oder effektiven Wertpapieren.]</p> <p><i>[Sofern Euroclear France S.A. als Zentrale Wertpapiersammelbank angegeben ist und die Optionsscheine in dematerialisierter Form geführt werden, einfügen:</i></p> <p>Die Optionsscheine werden in dematerialisierter Form als Inhaberpapiere (<i>au porteur</i>) in den Büchern der Zentralen Wertpapiersammelbank geführt und von dieser den Konten der Kontoinhaber gutgeschrieben. Im Hinblick auf die Optionsscheine wird kein physischer Eigentumsnachweis (einschließlich <i>Certificats représentatifs</i> im Sinne von Artikel R.211-7 des französischen Währungs- und Finanzgesetzes (<i>Code monétaire et financier</i>) erbracht.]</p> <p><i>[Sofern Central de Valores Mobiliários als Zentrale Wertpapiersammelbank angegeben ist und die Optionsscheine in dematerialisierter Form geführt werden, einfügen:</i></p> <p>Die Optionsscheine werden in Übereinstimmung mit portugiesischem Recht ausschließlich in dematerialisierter Form (<i>forma escritural</i>) ausgegeben und buchmäßig (<i>registos em conta</i>) erfasst sowie über das durch Interbolsa verwaltete CVM zentral verwahrt. Im Hinblick auf die Optionsscheine können weitere Änderungen der Allgemeinen Bedingungen vorgenommen werden. Es erfolgt in Bezug auf die Optionsscheine keine Ausgabe von Globalurkunden oder effektiven Wertpapieren.]</p> <p><i>[Sofern Euroclear Sweden AB als Zentrale Wertpapiersammelbank angegeben ist und die Optionsscheine in dematerialisierter Form geführt werden, einfügen:</i></p> <p>Das Clearing der Optionsscheine erfolgt durch Euroclear Sweden AB (vormals VPC AB) und die Ausgabe der Wertpapiere in registrierter Form</p>
--	--

		<p>gemäß dem schwedischen Gesetz zur buchmäßigen Erfassung von Finanzinstrumenten (SFS 1998:1479). Die Optionsscheine werden in unverbriefter Form ausgegeben und buchmäßig erfasst. Es erfolgt in Bezug auf die Optionsscheine keine Ausgabe von Globalurkunden oder effektiven Wertpapieren.]</p> <p><i>[Sofern Euroclear Finland Ltd. als Zentrale Wertpapiersammelbank angegeben ist und die Optionsscheine in dematerialisierter Form geführt werden, einfügen:</i></p> <p>Die Ausgabe der Optionsscheine erfolgt im finnischen System für die buchmäßige Erfassung von Wertpapieren, das von Euroclear Finland Ltd. verwaltet wird. Es erfolgt in Bezug auf die Optionsscheine keine Ausgabe von Globalurkunden oder effektiven Wertpapieren.]</p> <p>Wertpapierkennung</p> <p>ISIN: [●]</p> <p>[WKN: [●]]</p> <p><i>[andere Kennung einfügen: ●]</i></p>
C.2	Währung der Wertpapieremission.	[Für die jeweilige Serie von Optionsscheinen ●] <i>[Währung einfügen: ●]</i>
C.5	Beschreibung aller etwaigen Beschränkungen für die freie Übertragbarkeit der Wertpapiere.	Jeder Optionsschein [einer Serie von Optionsscheinen] ist nach dem jeweils anwendbaren Recht und gegebenenfalls den jeweiligen geltenden Vorschriften und Verfahren der Wertpapiersammelbank übertragbar, in deren Unterlagen die Übertragung vermerkt ist.
C.8	Beschreibung der mit den Wertpapieren verbundenen Rechte einschließlich der Rangordnung und der Beschränkungen dieser Rechte.	<p>Anwendbares Recht der Wertpapiere</p> <p>[Die jeweilige Serie von Optionsscheinen] [Die Optionsscheine] [unterliegt] [unterliegen] deutschem Recht. [Die Schaffung der Optionsscheine kann der für die Zentrale Wertpapiersammelbank geltenden Rechtsordnung unterliegen.]</p> <p>Mit den Optionsscheinen verbundene Rechte</p> <p>Jeder Optionsschein gewährt seinem Inhaber einen Anspruch auf den Zahlungsbetrag wie unter C.15 ausführlicher beschrieben.</p> <p>Status der Optionsscheine</p> <p>[Die jeweilige Serie von Optionsscheinen] [Die Optionsscheine] [begründet] [begründen] unmittelbare, unbesicherte und nicht nachrangige Verbindlichkeiten des Emittenten, die untereinander und mit allen sonstigen gegenwärtigen und künftigen unbesicherten und nicht nachrangigen Verbindlichkeiten des Emittenten gleichrangig sind, ausgenommen solche Verbindlichkeiten, denen auf Grund zwingender gesetzlicher Vorschriften Vorrang zukommt.</p> <p>Beschränkungen der Rechte</p>

		Der Emittent ist unter den in den Optionsscheinbedingungen festgelegten Voraussetzungen zur Kündigung der Optionsscheine und zu Anpassungen der Optionsscheinbedingungen berechtigt.
C.11	Es ist anzugeben, ob für die angebotenen Wertpapiere ein Antrag auf Zulassung zum Handel gestellt wurde oder werden soll, um sie an einem geregelten Markt oder anderen gleichwertigen Märkten zu platzieren, wobei die betreffenden Märkte zu nennen sind.	<p>[Es ist beantragt worden, die Optionsscheine [in den Handel] zum [geregelten] [Markt] [Freiverkehr] an der [Frankfurter] [und] [Stuttgarter] [●] Börse[, die [[kein] [ein] geregelter Markt][[keine] geregelten Märkte] im Sinne der Richtlinie 2004/39/EG [ist][sind],] [zuzulassen][einzubeziehen]. [Die Optionsscheine sind am [geregelten] [●] Markt der [●] Wertpapierbörse zugelassen, der/die [ein][kein] geregelter Markt im Sinne der Richtlinie 2004/39/EG ist/sind.]</p> <p>[Die Zulassung der Optionsscheine zu einem geregelten Markt an einer Börse wurde nicht beantragt.]</p>
C.15	Beschreibung, wie der Wert der Anlage durch den Wert des Basisinstruments/der Basisinstrumente beeinflusst wird, es sei denn, die Wertpapiere haben eine Mindeststückelung von 100.000 EUR.	<p>[Beschreibung der Call Optionsscheine mit europäischer Ausübungsart]</p> <p>Mit Call Optionsscheinen können Anleger überproportional (gehebelt) an der positiven Entwicklung des Basiswerts partizipieren.</p> <p>Im Gegenzug nehmen sie aber auch gehebelt an einer negativen Entwicklung des Basiswerts teil und tragen zudem das Risiko eines wertlosen Verfalls des Call Optionsscheins, wenn der Referenzpreis des Basiswerts auf oder unter den Basispreis fällt.</p> <p>Am Fälligkeitstag erhalten die Anleger als Auszahlungsbetrag die mit dem Bezugsverhältnis multiplizierte Differenz, um die der am Bewertungstag festgestellte Referenzpreis des Basiswerts den jeweiligen Basispreis überschreitet [umgerechnet in die Auszahlungswährung]. Liegt der Referenzpreis auf oder unter dem Basispreis, verfällt der Call Optionsschein wertlos.]</p> <p>[Beschreibung der Call Optionsscheine mit amerikanischer Ausübungsart]</p> <p>Mit Call Optionsscheinen können Anleger überproportional (gehebelt) an der positiven Entwicklung des Basiswerts partizipieren.</p> <p>Im Gegenzug nehmen sie aber auch gehebelt an einer negativen Entwicklung des Basiswerts teil und tragen zudem das Risiko eines wertlosen Verfalls des Call Optionsscheins, wenn der Referenzpreis des Basiswerts auf oder unter den Basispreis fällt.</p> <p>Nach wirksamer Ausübung der Optionsscheine durch einen Anleger innerhalb der Ausübungsfrist erhält der Anleger als Auszahlungsbetrag am Zahltag, in der Regel innerhalb von fünf (5) Bankarbeitstagen, am Sitz des Emittenten sowie am Ort der Zentralen Wertpapiersammelbank, die mit dem Bezugsverhältnis multiplizierte Differenz, um die der am Bewertungstag festgestellte Referenzpreis des Basiswerts den jeweiligen Basispreis überschreitet [umgerechnet in die Auszahlungswährung]. Abschnitt D – Risiken		
D.2	Zentrale Angaben zu den zentralen Risiken, die dem Emittenten eigen sind.	<p>Risiko der ausbleibenden oder eingeschränkten Preisstellung durch den Emittenten</p> <p>Sollte der Emittent seine freiwillige Absicht, Ankaufs- und Verkaufspreise</p>

	<p>zu stellen, einschränken oder ganz aufgeben, besteht die Gefahr, sofern niemand sonst Kurse für die Optionsscheine stellt, dass Anleger die Endfälligkeit der Optionsscheine abwarten oder, sofern eine vorzeitige Ausübung möglich ist, das Optionsrecht ausüben müssen.</p> <p>Liquiditätsrisiko trotz Beherrschungs- und Ergebnisabführungsvertrag</p> <p>Der Emittent könnte trotz des Beherrschungs- und Ergebnisabführungsvertrags seine Verpflichtungen aus den Wertpapieren auch dann nicht erfüllen, wenn im Falle eines Bilanzverlustes des Emittenten die direkte Muttergesellschaft zwar diesen Verlust übernehmen müsste, sie aber aufgrund eigener Liquiditätsschwierigkeiten oder Überschuldung nicht in der Lage oder willens ist, diese vertragliche Verpflichtung zu erfüllen.</p> <p>Vermittlung von Geschäften für andere Konzerngesellschaften und Arbeitsteilung im Konzern der Citigroup</p> <p>Die überwiegende Mehrheit der Provisionserträge des Emittenten sind Erträge aus dem Transfer-Pricing aus Vermittlungsgeschäften mit verbundenen Unternehmen. Die aus dem Leistungsaustausch mit den einzelnen Konzerngesellschaften entstehenden Kosten des Emittenten werden im Rahmen bestehender Verträge durch Verrechnungspreise (Transfer Pricing) erstattet. Hierbei werden die Kosten und Erträge, insbesondere Provisionserträge für die im Rahmen der Sales-Aktivitäten von der Bank in beratender Funktion betreuten Transaktionen im Aktienhandel, Anleihe-Emissionsgeschäft und Corporate Finance sowie Verkauf von strukturierten Produkten, Corporate Derivatives, Devisenmanagement-Produkten sowie Global Relationship Banking ermittelt und auf die beteiligten Leistungserbringer aufgeteilt. Hierbei besteht in allen Bereichen eine enge Zusammenarbeit im Wesentlichen mit der Citigroup Global Markets Limited, London sowie der Citibank, N.A., London.</p> <p>Sollte im Konzern der Citigroup eine neue Aufteilung der betreffenden Aufgaben auf andere Unternehmen des Konzerns entschieden werden, könnte der Emittent eine wesentliche Ertragsquelle verlieren.</p> <p>Risiken im Kreditgeschäft</p> <p>Das Kreditportfolio des Emittenten ist überwiegend von internationalen Kunden mit "investment grade" Bonität der Industrie- und Finanzdienstleistungsbranche geprägt. Kreditausfälle konnten aufgrund dieser Geschäftspolitik in den vergangenen Jahren vermieden werden. Das Kreditportfolio konzentriert sich wesentlich auf eine überschaubare Anzahl von Kreditnehmereinheiten. Sollten einzelne, wichtige Kreditnehmer des Emittenten ihren Verpflichtungen nicht nachkommen, ist daher grundsätzlich eine erhebliche Erhöhung der Risikovorsorge denkbar bzw. Kreditausfälle möglich.</p> <p>Zinsänderungsrisiko</p> <p>Die Beurteilung und Steuerung des Zinsänderungsrisikos des Emittenten</p>
--	---

	<p>erfolgt im Bereich Risk-Treasury. Zinsänderungsrisiken des Emittenten können im mittel- und langfristigen Bereich in Wertpapierpositionen des Liquiditätsbestandes entstehen, falls diese nicht durch Absicherungsgeschäfte in Form von Zinstauschvereinbarungen abgesichert wurden. Gleiches gilt für mittel- und langfristige Kredite, die der Emittent gewährt. Bei einer nicht zeitnahen und unsensitiven Zinsüberwachung und der sich daraus ergebenden Gefahr, Zinsrisiken nicht frühzeitig gegenzusteuern, kann sich ein wesentliches Zinsänderungsrisiko ergeben.</p> <p>Operationelles Risiko</p> <p>Der Emittent hat mehrere für die ordnungsmäßige Führung und Steuerung seiner Geschäfte und der daraus erwachsenden Risiken wesentliche Bereiche an andere Unternehmen innerhalb und außerhalb des Citigroup-Konzerns ausgelagert. Sollten die Unternehmen, an die diese Bereiche ausgelagert wurden, ihren vertraglichen Verpflichtungen nicht oder nicht fristgerecht nachkommen, kann auch die Fähigkeit des Emittenten zur fristgemäßen Erfüllung seiner Verpflichtungen unter den von ihm emittierten Wertpapieren beeinträchtigt werden.</p> <p>Steuerliche Risiken</p> <p>Die dem Emittenten erteilten Steuerbescheide stehen regelmäßig unter dem Vorbehalt der Nachprüfung durch eine steuerliche Außenprüfung oder der Entscheidung einzelner Fragestellungen durch einschlägige Gerichte. Dies ist ein übliches Verfahren, bei dem im Rahmen einer Steuerprüfung oder nach einer allgemeinen Entscheidung durch ein Finanzgericht noch Jahre nach dem Steuerbescheid eine Steuernachforderung durch die Finanzbehörden erhoben werden kann.</p> <p>Allgemeine Betriebsrisiken</p> <ul style="list-style-type: none"> • Abwicklungsrisiko <p>Das Risiko der fehlerhaften Bearbeitung von Geschäftsvorfällen, bzw. der Ausführung von Transaktionen, die der Intention und Erwartung der Leitungsebene des Emittenten widersprechen.</p> • Informationsrisiko <p>Das Risiko, dass auf Informationen, die innerhalb oder außerhalb des Geschäftssitzes des Emittenten erstellt, erhalten, übermittelt oder gespeichert wurden, nicht mehr zugegriffen werden kann. Weiterhin können diese Informationen von schlechter Qualität sein, falsch gehandhabt oder unberechtigt angeeignet worden sein. Dem Informationsrisiko werden ebenfalls Risiken zugeordnet, die aus Systemen resultieren und zur Informationsverarbeitung genutzt werden.</p> • Reputationsrisiko <p>Das Risiko des Emittenten, das sich aus einer Schädigung der Kundenbeziehungen durch mangelhafte Serviceleistungen bzw. fehlerhafter Ausführung von Geschäftsvorfällen ergibt. Des Weiteren</p>
--	--

		<p>das Risiko, Geschäftsbeziehungen mit Kontrahenten einzugehen, deren Geschäftspraktiken nicht den Standards oder der Geschäftsethik des Emittenten entsprechen.</p> <ul style="list-style-type: none"> • Personalrisiko <p>Der Emittent hat einen hohen Bedarf an qualifiziert ausgebildeten Fach- und Führungskräften. Hier besteht das Risiko einer hohen Fluktuation, bzw. das Risiko, nicht genügend qualifiziertes Personal an den Emittenten binden zu können, darüber hinaus aber auch das Risiko, dass Mitarbeiter des Emittenten bewusst oder fahrlässig gegen gesetzte Regeln oder die Geschäftsethik des Hauses verstoßen.</p> <ul style="list-style-type: none"> • Rechtsrisiken und aufsichtsrechtliche Risiken <p>Unter Rechtsrisiken versteht der Emittent alle aus vertraglichen Vereinbarungen sowie aus rechtlichen Rahmenbedingungen resultierenden Risiken. Aufsichtsrechtliche Risiken ergeben sich aus den für den Emittenten bestehenden gesetzlichen Rahmenbedingungen.</p> <ul style="list-style-type: none"> • Betrugsrisiken <p>Hierbei handelt es sich sowohl um interne- wie externe Betrugsrisiken wie Bestechung, Insiderhandel, den Diebstahl von Daten.</p>
D.6	<p>Zentrale Angaben zu den zentralen Risiken, die den Wertpapieren eigen sind. Diese müssen einen Risikohinweis darauf enthalten, dass der Anleger seinen Kapitaleinsatz ganz oder teilweise verlieren könnte, sowie gegebenenfalls einen Hinweis darauf, dass die Haftung des Anlegers nicht auf den Wert seiner Anlage beschränkt ist, sowie eine Beschreibung der Umstände, unter denen es zu einer zusätzlichen Haftung kommen kann und welche finanziellen Folgen dies voraussichtlich nach sich zieht.</p>	<p><u>Allgemeine Risikofaktoren von Optionsscheinen</u></p> <p>Risiko eines Totalverlusts</p> <p>Optionsscheine sind besonders risikoreiche Instrumente der Kapitalanlage. Bei ihnen ist das Risiko des Verlustes, bis hin zum Totalverlust, des eingesetzten Kapitals zuzüglich der eingesetzten Transaktionskosten und gegebenenfalls Kreditkosten besonders hoch.</p> <p>Ausfallrisiko des Emittenten der Optionsscheine</p> <p>Sofern der Emittent insolvent werden sollte, können Anleger einen Verlust bis hin zum Totalverlust erleiden. Die Optionsscheine sind als Inhaberpapiere nicht vom Schutzbereich der Einlagensicherung umfasst.</p> <p>Risiko aufgrund von überproportionalen Schwankungen der Preise von Optionsscheinen (Hebeleffekt)</p> <p>Eines der wesentlichen Merkmale von Optionsscheinen ist der so genannte Hebeleffekt: Eine Veränderung des Preises des Basiswerts kann eine überproportionale Veränderung des Preises der Optionsscheine zur Folge haben. Gleichzeitig sind mit Optionsscheinen aber auch überproportionale Verlustrisiken verbunden.</p> <p>Risiko im Fall eines fehlenden oder nicht funktionierenden Sekundärmarkts in den Optionsscheinen bzw. der eingeschränkten Verfügbarkeit des elektronischen Handelssystems des Emittenten</p> <p>Anleger sollten nicht darauf vertrauen, dass sie während der Laufzeit des</p>

	<p>Optionsscheins zu einer bestimmten Zeit oder einem bestimmten Preis veräußern können. Vielmehr sollten Anleger davon ausgehen, dass eine Preisfindung an der Börse nur innerhalb der Spanne von Ankaufts- und Verkaufskursen des Emittenten, sofern vorhanden, realisiert werden kann und dass ihre Börsenorder direkt oder indirekt gegen den Emittenten ausgeführt wird.</p> <p>Risiko im Zusammenhang mit der Einstellung des Sekundärmarkts unmittelbar vor Endfälligkeit</p> <p>Der Emittent bzw. die Börse stellen den Handel mit den Optionsscheinen kurz vor deren Bewertungstag ein. Der Referenzpreis des Basiswertes am Bewertungstag und/oder der anwendbare Wechselkurs, die beide für die Bestimmung des Auszahlungsbetrages der Optionsscheine maßgeblich sind, können sich allerdings zwischen dem letzten Börsenhandelstag und dem Fälligkeitstag noch ändern, was zu Ungunsten des Anlegers sein kann. Es besteht ein besonderes Risiko, dass eine Barriere erstmalig kurz vor der Feststellung des Referenzpreises am Bewertungstag erreicht, unterschritten oder überschritten wird, nachdem der Sekundärhandel bereits beendet ist.</p> <p>Währungsrisiko bezüglich des inneren Werts der Optionsscheine</p> <p>Das Anlageergebnis unterliegt einem Währungsrisiko, wenn der zugrunde liegende Basiswert der Optionsscheine in einer anderen Währung ausgedrückt wird als der Währung, in der der Auszahlungsbetrag ausbezahlt wird (Auszahlungswährung).</p> <p>Risiko im Zusammenhang mit Marktstörungen</p> <p>Sollte es bei der Ausübung zu Marktstörungen in Bezug auf den Basiswert kommen, ist der Emittent berechtigt, den Bewertungstag für den Referenzpreis der Ausübung zu verschieben. Hieraus kann Anlegern ein zusätzliches Risiko erwachsen, sofern der Basiswert sich während der zeitlichen Verzögerung negativ entwickeln sollte oder gegebenenfalls der Wechselkurs zur Umrechnung des Inneren Werts in die Auszahlungswährung in eine für den Anleger ungünstige Richtung entwickelt.</p> <p><u>Produktbezogene Risikofaktoren</u></p> <p>[Risiko im Zusammenhang mit dem Zeitwertverlust von Optionsscheinen in Abhängigkeit von deren Restlaufzeit]</p> <p>Der Preis von Optionsscheinen wird aufgrund von zwei Preiskomponenten (Innerer Wert und Zeitwert) ermittelt. Der Innere Wert von Optionsscheinen während ihrer Laufzeit entspricht dem mit dem Bezugsverhältnis multiplizierten Differenzbetrag (falls positiv) [zwischen dem Wert des Basiswertes und dem Basispreis (Call Optionsscheine)] [bzw.] [zwischen dem Basispreis und dem Wert des Basiswertes (Put Optionsscheine)]. Die Höhe des Zeitwerts hingegen wird wesentlich von der Restlaufzeit des Optionsscheins und der vom Emittenten erwarteten Häufigkeit und Intensität von Kursschwankungen des Basiswertes während der Restlaufzeit</p>
--	---

	<p>des Optionsscheins (implizite Volatilität) bestimmt.]</p> <p>[Risiken im Zusammenhang mit sonstigen wertbestimmenden Faktoren, wie Zinssätze am Geldmarkt, erwartete Dividenden und die Höhe der Refinanzierungskosten des Emittenten</p> <p>Zu den weiteren wertbestimmenden Faktoren auf den Preis der Optionsscheine gehören u.a. die Zinssätze am Geldmarkt bezogen auf die Restlaufzeit, erwartete Einnahmen aus Absicherungsgeschäften des Emittenten im oder bezogen auf den Basiswert und die Höhe der Refinanzierungskosten des Emittenten für das Eingehen der entsprechenden Absicherungsgeschäfte.</p> <p>Selbst wenn also der Kurs des Basiswerts im Falle eines Call Optionsscheins steigt bzw. im Falle eines Put Optionsscheins fällt, kann eine Wertminderung des Optionsscheins aufgrund der sonstigen wertbestimmenden Faktoren eintreten. Angesichts der begrenzten Laufzeit des Optionsscheins kann nicht darauf vertraut werden, dass sich der Preis des Optionsscheins rechtzeitig wieder erholen wird. Je kürzer die Restlaufzeit, desto größer ist das Risiko.]</p> <p>[Risiko von Optionsscheinen mit Währungsabsicherung (Quanto Optionsscheine)</p> <p>[Der Preis von Optionsscheinen mit Währungsabsicherung (Quanto-Optionsscheine) kann vor Ausübung oder Verfall der Optionsscheine bei ansonsten unveränderten wertbildenden Faktoren auf Wechselkursschwankungen reagieren.]</p> <p>[Bei Open End Optionsscheinen mit Währungsabsicherung (Quanto-Optionsscheine), wird der Auszahlungs- bzw. Kündigungsbetrag zunächst ohne Berücksichtigung von Wechselkursrisiken aufgrund des bei Ausgabe festgelegten Quanto-Umrechnungskurses berechnet, jedoch in einem zweiten Schritt um die seit Begebung beim Emittenten aufgelaufenen Nettokosten der Quanto-Währungsabsicherung vermindert bzw. im Falle von Nettoerträgen erhöht.]]</p> <p>[Risiko im Zusammenhang mit Absicherungsgeschäften in dem Basiswert bei Optionsscheinen mit Knock-Out</p> <p>Bei Optionsscheinen mit Knock-Out kann nicht ausgeschlossen werden, dass der Aufbau oder die Auflösung von Absicherungspositionen durch den Emittenten die Preisentwicklung des Basiswerts der Optionsscheine so weit verstärkt, dass hierdurch gerade ein Knock-Out Ereignis ausgelöst wird und Optionsrechte entsprechend vorzeitig wertlos verfallen.]</p> <p>[Risiko durch Eintritt eines Knock-Out Ereignisses außerhalb der Handelszeiten im Sekundärmarkt</p> <p>Anleger sind grundsätzlich dem Risiko ausgesetzt, dass ein Knock-Out Ereignis auch außerhalb der Zeiten eintritt, an dem die Optionsscheine üblicherweise gehandelt werden. Dieses Risiko besteht insbesondere dann, wenn die Handelszeiten, an denen die Optionsscheine gehandelt werden, von den Handelszeiten abweichen, an denen der Basiswert üblicherweise</p>
--	--

		<p>gehandelt wird.]</p> <p><i>[Im Fall von Turbo Optionsscheinen, bei denen die Knock-Out Barriere dem Basispreis entspricht, gilt zusätzlich der folgende Risikofaktor:</i></p> <p>Risiko eines vorzeitigen Totalverlusts durch den Eintritt eines Knock-Out Ereignisses</p> <p>Bei [Turbo][Speeder] [Bull] [bzw.] [Bear] Optionsscheinen endet die Laufzeit mit dem Knock-Out Zeitpunkt vorzeitig und die Turbo Optionsrechte verfallen wertlos, falls der in den Optionsscheinbedingungen definierte Kurs des Basiswerts [innerhalb eines in den Optionsscheinbedingungen definierten Beobachtungszeitraums] [oder] [zu einem in den Optionsscheinbedingungen bestimmten Beobachtungszeitpunkt] der Knock-Out Barriere des [Turbo][Speeder] Optionsscheins [entspricht oder diese unterschreitet (Bull)] [bzw.] [dieser entspricht oder diese überschreitet (Bear)]. Bei Eintritt eines Knock-Out Ereignisses erleiden Anleger einen Totalverlust ihres eingesetzten Kapitals.]</p> <p><i>[Im Fall von Turbo Optionsscheinen, bei denen die Basispreise jeweils nicht der Knock-Out Barriere entsprechen und das Risiko von Preissprüngen im Basiswert nicht direkt vom Optionsscheininhaber getragen wird (Turbo Stopp-Loss ohne direktes Gap-Risiko), gilt zusätzlich der folgende Risikofaktor:</i></p> <p>Risiko eines vorzeitigen Totalverlusts durch den Eintritt eines Knock-Out Ereignisses</p> <p>Bei [Turbo][Speeder] [Bull] [bzw.] [Bear] Optionsscheinen endet die Laufzeit der Turbo Optionsscheine mit dem Knock-Out Zeitpunkt vorzeitig und die Optionsrechte verfallen wertlos, falls der in den Optionsscheinbedingungen definierte Kurs des Basiswerts [innerhalb eines in den Optionsscheinbedingungen definierten Beobachtungszeitraums] [oder] [zu einem in den Optionsscheinbedingungen bestimmten Beobachtungszeitpunkt] der Knock-Out Barriere des [Turbo][Speeder] Optionsscheins [entspricht oder diese unterschreitet (Bull)] [bzw.] [entspricht oder diese überschreitet (Bear)]. Wenn der Anleger die Optionsscheine von einem Vertriebspartner erwirbt, kann der vom Anleger zu zahlende Kaufpreis Vertriebsentgelte enthalten, die vom Vertriebspartner anzugeben sind.][<i>Beschreibung der Kosten einfügen: ●</i>]

B. SECURITIES NOTE

I. RISK FACTORS OF WARRANTS

An investment in the Warrants is subject to certain risks. These may consist, among other things, of risks arising from the equities market, commodities market, bond market, foreign exchange market, interest rates, market volatility, economic and political risk factors, both individually and as a combination of these and other risk factors. The principal risk factors are presented briefly in the following. Potential purchasers should have experience with respect to transactions in instruments such as the Warrants or the respective underlying. Potential purchasers of the Warrants should understand the risks associated with an investment in the Warrants and thoroughly review the following points together with their legal, tax, financial and other advisers prior to making an investment decision: (i) the suitability of an investment in the Warrants in view of their own particular situation from a financial, tax or any other point of view, (ii) the information in the Tripartite Base Prospectus and in particular in this Securities Note and in the respective Final Terms (including all the risk factors contained therein with respect to the underlying) and (iii) the underlying. An investment in the Warrants should be made only after estimating the expected progression, occurrence and range of potential future movements in the price of the underlying, since the return on the respective investment depends, among other things, on fluctuations of that type. Since several risk factors may affect the value of the Warrants simultaneously, the effect of one individual risk factor cannot be predicted. In addition, several risk factors may act together in such a way that their combined effect on the Warrants can also not be predicted. No definitive statements can be made about the effects of a combination of risk factors on the value of the Warrants.

Potential purchasers of the Warrants should be clear that the Warrants may fall in value and the possibility of a total loss of the investment in the Warrants must also be taken into account. This risk exists irrespective of the financial strength of the Issuer. The shorter the remaining maturity of a Warrant is, the smaller the likelihood that any losses in value can be made up by the end of term. The characteristic option element incorporated in the Warrants results in an increasing loss of time value towards the end of the term of the Warrants. Potential purchasers must therefore be ready and able to absorb losses of the capital invested up to and including a total loss.

Potential purchasers are therefore expressly encouraged to familiarize themselves with the particular risk profile of the product type described in this Securities Note (indicated for the relevant Warrants in the Final Terms) and if necessary to obtain specialist advice.

1. General risk factors of Warrants

The general risk factors of Warrants described below apply to all Warrants included in this Securities Note. The references to Call or Put Warrants should therefore be understood in this section to refer also to Bull or Bear Warrants or to Long or Short Warrants.

Risk of total loss

Warrants represent particularly risky investment instruments. They entail a particularly high risk of losing the capital invested, up to and including a total loss, plus the transaction costs incurred

and any borrowing costs. The rights represented by the Warrants may expire or fall in value, because such securities only ever represent rights that are valid for a limited period.

Investors purchasing Warrants acquire the right to receive from the Issuer the payment of a monetary amount, equal to the intrinsic value of the Warrants on exercise or expiry (converted into the settlement currency, where applicable), subject to certain preconditions. This right is structured differently for Call and Put Warrants: While the level of the intrinsic value (as provided by the terms and conditions) depends in the case of Call Warrants on the amount by which the reference price of the underlying is higher than the strike, in the case of Put Warrants it depends on the amount by which the reference price of the underlying is lower than the strike; the intrinsic value is multiplied by the multiplier in each case. This is reflected in principle in the performance of the value of the Warrant during its term: A Call Warrant generally falls in value, leaving aside other factors that may affect the price, if the price of the underlying falls. Conversely, the value of a Put Warrant falls if the price of the underlying rises. A total loss is incurred if the Warrant expires worthless, i.e. if the price of the underlying on the exercise or expiry of the Warrants is lower than the strike in the case of a Call Warrant, or higher than the strike in the case of a Put Warrant. The total loss means that the option expires worthless, with the result that the warrant holder has no right to the payment of an intrinsic value on exercise.

A Warrant does not represent the right to interest payments or to dividend payments and so does not generate regular income. Therefore, possible declines in the value of the Warrant cannot be offset by other income from the Warrant.

Additional risks of loss due to transaction costs

In addition to the risk of total loss and whether or not such a loss occurs, there is also the possibility that any transaction costs charged by the custodian bank or the exchange used by investors to execute their buy or sell orders may affect the amount of the gain or loss. This may further increase the risk of incurring a total loss.

Additional risks of loss if loans are used

An increased risk arises if investors finance the purchase of Warrants with loans. In this event, if the market performs contrary to the investor's expectations, the investor will not only have to absorb any realized loss, but will also have to pay interest on the loan and repay the principal. Investors should therefore never assume that they will be able to meet the interest and principal payments on the loan out of profits earned on Warrants. Rather, they should carefully review their financial situation before purchasing the Warrants and taking out the loan to ensure that they would still be able to finance the interest payments and, should the case arise, repayment of principal at short notice in the eventuality that losses are incurred instead of the expected profits.

Risk of default by the Issuer of the Warrants

The Warrants represent general, contractual and unsecured obligations of the Issuer that rank *pari passu* with each other and with all other unsecured and unsubordinated obligations of the Issuer. If the Issuer were to become insolvent, investors could suffer a loss up to and including a total loss, irrespective of any positive development of the other factors affecting value such as the underlying or the intensity of movements in the price (the "volatility") of the Warrants. As bearer securities, Warrants do not fall within the scope of the deposit protection arrangements.

Risk arising from disproportionate movements in the prices of Warrants (leverage effect)

One of the significant features of Warrants is the leverage effect: A change in the price of the underlying may result in a disproportionate change in the price of the Warrant. At the same time, Warrants also entail above-average risks of loss. This is because the leverage effect of the Warrant operates in both directions – not only to the investor's advantage in the event of the favorable performance of the factors determining the value, but also to the investor's disadvantage in the event of their unfavorable performance. When buying a Warrant, the investor should therefore take into account the fact that the risk of loss associated with a Warrant also increases along with the scale of the leverage effect.

Risk in the event of hedging transactions by the Issuer

In order to hedge its obligations arising from the Warrants, the Issuer enters into transactions on an ongoing basis in the underlying, in derivatives based on the underlying or other underlyings or in derivatives whose performance is closely correlated in the same direction to the price of the underlying or its volatility or which affect the price of the underlying. The purpose of such hedging transactions is generally to reinforce changes in the price of the underlying or its volatility, i.e. to use additional hedging positions to generate further increases in prices that are already rising or further declines in prices that are already falling. To the extent that such price movements in the underlying are reinforced, this also has a corresponding effect on the price of the Warrant and the outcome of exercising the option right.

The Issuer enters into hedging transactions on an ongoing basis, i.e. at any time. In particular, if one of the factors affecting the value changes, the Issuer will make appropriate adjustments to its counterpositions. The Issuer also adjusts its hedging positions in particular if it sells more Warrants (increasing its net position in that type of security) or repurchases Warrants (reducing its net position in that type of security). If the Warrants are exercised during their term, but in particular if the Warrants are exercised shortly before or at expiry, the Issuer will unwind the hedging transactions it has entered into. The exercise of the Warrants close to expiry, in particular, can lead to the whole hedging position being unwound in a short period of time. Depending on the number of Warrants to be exercised, the prevailing market conditions and liquidity in the respective underlying, the possibility cannot be ruled out that as a result there may be a negative effect on the reference price of the underlying on exercise and therefore also on the nature and level of the cash amount.

Risk of impossibility of conducting transactions to exclude or limit risk

Investors should not assume that they will be able to enter into transactions excluding or limiting the risks arising from the Warrants at all times during their term. It may not be possible to conduct such transactions or possible only at a price which results in a loss for the investor.

Risk of the absence or non-functioning of a secondary market in the Warrants

The Issuer intends to set bid and offered prices for the Warrants on a regular basis under normal market conditions. However, the Issuer does not accept any legal obligation to the warrant holders with respect to price-setting, neither to ensure that such prices are appropriate nor that they are actually generated. One of the greatest risks facing investors is that the Issuer limits or completely abandons its voluntary intention to set regular bid and offered prices for the Warrants. Investors should not assume that they will be able to sell a Warrant at a particular time or at a particular

price during its term. In such a situation, the only course open to warrant holders in the worst case, if no other party sets prices for the Warrants, would be to exercise the option rights (in the case of American type of exercise) with the loss of any time value or, in the case of European type of exercise, to wait until the valuation date with the attendant possibility of price rises or falls by that time.

The Issuer has voluntarily assumed an obligation, where applicable, with respect to certain stock exchanges to set bid and offered prices for certain order or securities volumes under acceptable market conditions. An obligation of this nature applies only with respect to the relevant stock exchange. Third parties, such as the warrant holders, cannot derive from this any obligation on the part of the Issuer to themselves. Furthermore, the obligation with respect to the stock exchange does not apply in exceptional circumstances such as disruptions of the Issuer's operations for technical reasons (e.g. disruption of telephone connections, technical breakdowns, power cuts) or special market situations (e.g. abnormal market movements in the underlying, special situations on the domestic market of the underlying or unusual factors affecting price-setting in the underlying security) or special market circumstances due to major disturbances of the economic and political situation (e.g. terrorist attacks, crash scenarios) or if the issue is temporarily sold out; in the latter case, only a buying price is required to be set and a selling price may not be quoted.

Investors should not assume that other market participants apart from the Issuer will set buying and selling prices for the Warrants. Liquidity in the Warrants is also not necessarily improved by listing the Warrants on a stock exchange. Investors should assume instead that pricing on the exchange can only take place within the spread of bid and offered prices quoted by the Issuer, if available, and that their buy or sell orders on the exchange will be executed with the Issuer as the direct or indirect counterparty.

Since the Warrants generally have a time value and early exercise is therefore not advisable (otherwise the time value is lost), the ability to sell the Warrants as far as possible at any time prior to expiry is of great importance for investors. By far the most significant factor in this context is the voluntary intention of the Issuer to quote bid and offered prices.

It is intended to list the Warrants on the stock exchanges specified in the respective Final Terms. Even once a stock exchange listing has been obtained, there can be no guarantee that it will be maintained permanently. If the Warrants are not traded on the relevant exchanges on a permanent basis, purchases and sales of such Warrants will become considerably more difficult. If no trading or only limited trading in the Warrants takes place, it will be more difficult for the investor to obtain a current valuation of the Warrants. This could have a further negative effect on the liquidity of the Warrants. Liquidity could also be reduced by offer and selling restrictions applying in particular countries. Transactions in Warrants that are not listed on a stock exchange may involve greater risks than trading in listed Warrants. Furthermore, the number of Warrants in issue declines as they are exercised and as a result liquidity may fall over time. In addition, the Issuer has the right, but not the obligation, to repurchase Warrants at any time in the open market, by a tender procedure or over-the-counter. Securities purchased in these ways may be held, resold or cancelled. If Warrants are held or cancelled by the Issuer, this may have a negative impact on the liquidity of the Warrants. A low level of liquidity in the market may in turn increase the volatility of warrant prices. If the secondary market for an issue of Warrants becomes illiquid, the

investor may be forced, in the absence of the ability to sell, to exercise the Warrants in order to realize their value.

Risk relating to the calculation of the warrant prices

In contrast to most other securities for which market prices are generally set by supply and demand, the prices of Warrants in the secondary market are calculated on the basis of theoretical pricing models. For this purpose, the bid and offered prices for the Warrants are determined by the Issuer depending, among other things, on the mathematical value of the Warrants, the costs of hedging and accepting risk and the expected return. The spread between the bid and offered prices is also impacted, among other things, by the liquidity of the hedging instruments used to hedge against risk.

Other factors which may impact pricing in the secondary market include any margin included in the initial issue price, which can either be reflected over the term of the Warrants in the prices set or at the end of the term when the cash amount is calculated.

Some factors affecting price may not be deducted from the price equally over the entire term in the course of price-setting, but may in some circumstances be deducted at an earlier point in time at the discretion of the Issuer. These may include any margin included in the initial issue price as well as any income paid or expected from an underlying or from the constituents of an underlying that – depending on the structure of the Warrants – is collected by the Issuer. Anticipated dividends from an underlying or the constituents of an underlying may, where appropriate, be deducted in advance of the ex-dividend date for the underlying or the constituents of the underlying on the basis of the income expected for the entire term or a specific period. If the estimated dividend used by the Issuer for the purposes of valuing the Warrants, which may change during the term of the Warrants, differs from the dividend generally expected by the market or the dividend actually paid, this may also impact pricing in the secondary market. The prices set by the Issuer may therefore differ from the mathematical value of the Warrants or from the expected economic price that would have been formed on the respective date in a liquid market in which prices are set by a number of market-makers acting independently of each other.

The pricing models used by the Issuer are only theoretical representations of the events that occur in reality. In particular, the Issuer may and must adjust its pricing accordingly in the event of significant divergences between real events and the assumptions incorporated in the model. Nevertheless, the respective model employed by the Issuer remains of great importance because the Issuer generally sets the buying and selling prices for securities it issues as the sole market participant.

Risk of the restricted availability of the Issuer's electronic trading system

For the purpose of setting buying and selling prices in trading on and off the exchange, the ability to trade in the Warrants using an electronic trading system is very important for the Issuer and the warrant holders due to the large number of transactions in derivative securities conducted by the Issuer in the normal course of events. If the availability of the electronic trading system used by the Issuer could not be guaranteed or not completely guaranteed, this would have a corresponding effect on the tradability of the Warrants.

Risk relating to the estimation of the price of the underlying if the Warrants are traded outside the trading hours of the underlying

If the Warrants are traded on the secondary market at times when the underlying is also being traded on its domestic market, the price of the underlying is incorporated into the calculation of the price of the Warrants as a known variable. In exceptional cases, however, the price of the underlying must be estimated if the related Warrants are traded at times when there is no trading on the domestic market of the underlying. In principle, this problem can arise for all Warrants irrespective of the times at which they are traded on an exchange, since the Issuer generally provides an off-exchange market for its Warrants, including at times when there is normally no trading in, for example, Central European shares or share indices on their domestic markets. The problem is particularly relevant, however, in the case of underlyings traded in time zones at a great distance from Central Europe, such as American or Japanese shares or share indices in those regions, as well as commodities or exchange rates which are generally traded around the clock. The same problem can also occur if secondary market trading in the Warrants is not possible due to a public holiday, while at the same time the underlying is being traded on its domestic market. If the Issuer estimates the price of the underlying in such circumstances, any such estimation even a few hours prior to the resumption of trading in the underlying on its domestic market may turn out to be accurate, too high or too low. The warrant prices set by the Issuer prior to the resumption of trading in the underlying on its domestic market may also prove to be too high or too low. To avoid this risk, investors should ensure that their buying and selling orders are only carried out at times when the underlying for their Warrants is being traded on its domestic market.

Risk in the event of low liquidity of the underlying

The lower the liquidity of the underlying or the greater the spread between bid and offered prices in the underlying or derivatives based on it, the higher the hedging costs of the Issuer of the Warrants tend to be. The Issuer will reflect hedging costs of this nature in its pricing for the Warrants and pass those costs on to the warrant holders in the buying and selling prices it quotes.

Risk relating to the size of the offer

The size of the offer specified in this Securities Note represents the maximum amount of securities offered, but does not indicate the volume of securities actually issued and deposited with the settlement system in each case. This depends on market conditions and may change during the term of the securities. Investors should therefore note that no conclusions can be drawn with respect to the liquidity of the securities in the secondary market on the basis of the size of offer indicated.

Risk relating to hedging transactions of purchasers of Warrants

Potential purchasers of Warrants who would like to hedge against market risks by buying the Warrants offered in conjunction with an investment in the underlying, should be aware of the difficulties associated with this course of action including, among other things, the possibility that the performance of the Warrants may not be in line with the development of the respective price of the underlying.

Currency risk with respect to the intrinsic value of the Warrants

The return on the investment is subject to currency risk during the period for which the Warrants are held, if the underlying on which the Warrants are based is expressed in a currency other than the currency in which the cash amount is paid out (settlement currency).

The risk of loss on the exercise or expiry of the Warrants, or in the event that they are sold during their term, is therefore dependent not only on changes in the price of the underlying, but also to a great extent on movements in the relevant currency markets. Negative developments on the respective currency markets, i.e. an increase in the value of the settlement currency against the currency in which the underlying is expressed, will increase the risk of loss because the value of the Warrants during their term or the amount of any cash amount receivable on exercise or expiry will be reduced accordingly.

Risk in the event of currency disruption events

If it is not possible for the Issuer to convert the reference currency of the particular underlying for the Warrants into the settlement currency and a currency disruption event therefore exists, the Issuer is entitled to terminate the Warrants and redeem them early at their market price. In the event of an early redemption at the market price, investors are exposed to a risk of loss if the fair market value at that time is lower than the price at which they purchased the Warrants.

The risk of a currency disruption event occurring applies particularly to Warrants whose underlying is based on financial instruments or the legal currency of emerging markets. This risk is primarily based on the fact that, in comparison with countries with larger and more liquid markets and stable political environments (e.g. countries of the European Union or the United States of America), there is a higher likelihood that sudden and unpredictable political or economic changes may occur, which could result in the imposition of restrictions on foreign investors such as, for example, the expropriation of assets, the nationalization of foreign bank deposits or the introduction of exchange controls.

Risk relating to a minimum exercise quantity

Option rights that can be exercised at any time (American type of exercise) may only be exercised for a specified minimum volume of Warrants. If the warrant holder has less than the minimum volume of Warrants, he cannot exercise his option right but must buy additional Warrants to make up the minimum volume required for exercise; the only alternative is to sell the Warrants. There is no minimum exercise quantity on automatic exercise or expiry or in the case of Warrants with a European type of exercise.

Risk of the unpredictability of the cash amount on exercise

In the event that the option rights are exercised, the proceeds of exercise cannot be predicted exactly, since the reference price of the underlying which, compared with the strike, forms the basis for settlement on exercise, is only determined when all the preconditions for exercise have been met. The longer the technical settlement for the exercise of the Warrants takes and the higher the volatility of the underlying, the greater the risk that the underlying will perform negatively or even expire worthless between the point at which a warrant holder decides to exercise his Warrants and the date on which the reference price on exercise is determined. Furthermore, an additional loss may arise during the same period as a result of an unfavorable movement in

exchange rates (see also the section above headed "Currency risk with respect to the intrinsic value of the Warrants").

Risk relating to market disruption events

In the event of market disruption events with respect to the underlying occurring at the time of exercise, the Issuer has the right to postpone the valuation date for the reference price on exercise. This may result in an additional risk for investors if the price of the underlying performs negatively during the period of delay or, where applicable, if the exchange rate for converting the intrinsic value into the settlement currency moves in an unfavourable direction for the investor.

Market disruption events are the suspension or significant restriction of trading in the underlying, its constituents or specified derivatives based on the underlying, in each case on specified organized markets.

The circumstances described above may temporarily or permanently restrict the ability to sell the Warrants, increase the cost of selling or introduce an additional price risk, especially if the price of the underlying performs negatively in such a situation.

Risk relating to political events or statutory prohibitions

If the Issuer or the relevant exercise agent, for example as a result of a moratorium imposed in connection with political events or of a statutory prohibition, is not in a position in fact or in law to fulfill its obligations arising from the Warrants in a legally permitted manner in Frankfurt am Main or at the location of the relevant exercise agent, respectively, the due date for those obligations is postponed to the date on which it is once again possible in fact and in law for the Issuer or the relevant exercise agent to fulfill its obligations in Frankfurt am Main or at the location of the paying agent, respectively. No rights are due to the warrant holders against the assets of the Issuer or the exercise agent located in Frankfurt am Main or elsewhere as a result of such a postponement of the due date.

If one of the events described above affects only the exercise agent but not the Issuer, the Issuer will, at the request of the warrant holder, fulfill its obligations arising from the Warrants in Frankfurt am Main instead of at the location of the exercise agent.

Risk of a material change in the warrant price due to an adjustment or the replacement of the underlying

If the underlying is replaced by a different underlying, for example in the event of a takeover or merger of a public corporation by or with another listed public corporation or the termination of the stock exchange listing of the old underlying or the termination of a share index with the subsequent replacement of the terminated index by another share index, the implied volatility of the new underlying estimated by the Issuer may be lower or higher than the volatility of the old underlying. A jump in volatility of this nature will have a negative effect on the warrant price if the implied volatility of the new underlying is lower than that of the old underlying. In addition, a less favorable outlook for the price of the new underlying caused by the economic change in the underlying may have a negative effect on the price of Call Warrants while an improved outlook for the price of the new underlying may have a negative effect on the value of Put Warrants.

If it is not possible to make an adjustment to the underlying to reflect the changes that have occurred, the Warrants may expire worthless or be redeemed early at their current fair market

value. Investors are also exposed to the risk of loss in the event of early redemption at market value, if the fair market value of the Warrants at the relevant time is lower than the purchase price paid. Investors then no longer have the possibility of recovering the loss, at least not with that security.

Reinvestment risk in the event of ordinary or extraordinary termination of the Warrants by the Issuer

In the event of extraordinary termination or, as is possible in the case of Open End Turbo Warrants and Mini Future Warrants, of ordinary termination by the Issuer, the investor bears the reinvestment risk with respect to the termination amount. This means that the investor may only be able to reinvest any termination amount paid by the Issuer in the event of termination on less favourable market terms than were available when the Warrant was purchased.

Corrections, changes, or amendments to the Terms and Conditions may be detrimental to the warrant holders

Investors should note that the Issuer has the right in certain cases specified in more detail in the terms and conditions to correct, change, or amend provisions in the terms and conditions, and the correction, change, or amendment of a provision in the terms and conditions may, if applicable, be detrimental for the investor compared to the originally certified provision, i.e. that information or provisions may be affected by the correction, change, or amendment, which are part of the factors determining the price of the Warrants.

If due to the correction, change, or amendment of the provision the content or scope of the Issuer's performance obligations is changed in an unforeseeable and detrimental manner for the investor, the investor has the right to terminate the Warrants within a period specified in more detail in the terms and conditions. The investor does not have a termination right, if the correction, change, or amendment was foreseeable or is not disadvantageous for it.

If a correction, change, or amendment is out of the question, the Issuer has the right to terminate the Warrants without undue delay, if the preconditions for a contestation in the sense of Section 119 *et seq.* of the German Civil Code (BGB) are fulfilled vis-à-vis the warrant holders. Individual warrant holders are also entitled to a termination right under these conditions. The termination Amount to be paid in the case of a termination generally corresponds to the market price of a Warrant and the terms and conditions contain detailed rules for its determination. In order to reduce the effects of any price fluctuations immediately prior to the termination date on the determination of the termination amount, the market price generally corresponds to the arithmetic mean of the spot prices (*Kassakurse*), which were published at the securities exchange where the Warrants are listed on a certain number of banking days immediately preceding the termination date. Calculating the average is disadvantageous for the warrant holder, if the spot price on the banking day prior to the termination date is higher than the arithmetic mean. The investor may furthermore demand from the Issuer, subject to the conditions specified in the terms and conditions, the difference between the purchase price paid by the investor when acquiring the Warrants and a lower market price in addition, to the extent that this is documented by the warrant holder. Investors should furthermore note that they bear the reinvestment risk in the case of a termination.

Risk of the deduction of US withholding tax

Pursuant to sections 1471 to 1474 of the US Internal Revenue Code as amended together with the regulations issued under those sections (Foreign Account Tax Compliance Act, "FATCA"), the Issuer could be required in certain circumstances to pay US withholding tax of 30% on all or part of payments with respect to capital or interest on the securities that are treated as pass-thru payments to foreign banks, unless the foreign bank as the recipient of the payments complies with the applicable FATCA reporting requirements. At the date of this Securities Note, it is expected that such a withholding tax will only apply to payments on or after after 1 January 2017.

If, in connection with the FATCA withholding tax, an amount were required to be deducted or withheld from payments of interest or capital or other payments on the securities as the result of non-compliance with FATCA, neither the Issuer nor any paying agent or any other person would be required under the terms and conditions of the Warrants to compensate investors for the deduction or withholding of such an amount by making additional payments.

2. Product specific risk factors

The product specific risk factors below apply to the Warrants only where this is indicated in the respective Final Terms. The following sections distinguish between different types of Warrant. The individual risk factors are optional and it is possible that individual risk factors will be combined for different types of Warrant.

2.1. Specific risk factors of classic (plain vanilla) Call or Put Warrants (Product No. 1)

Risk relating to the loss of time value of Warrants depending on the remaining term

The price of Warrants is calculated on the basis of two components of price (intrinsic value and time value). The intrinsic value of Warrants during their term is equal to the difference (if positive), multiplied by the multiplier, between the value of the underlying and the strike (Call Warrants) or between the strike and the value of the underlying (Put Warrants). The amount of the time value, on the other hand, is essentially determined on the basis of the remaining term of the Warrant and the expected frequency and intensity of the fluctuations in the price of the underlying expected by the Issuer during the remaining term of the Warrant (implied volatility). To the extent that the remaining term of a Warrant decreases, the probability of positive price movements in the underlying also decreases, with the result that the value of the Warrant falls, assuming that the factors affecting the value remain otherwise unchanged. Provided that all other factors remain unchanged, the time value declines, slowly at first and then at an ever increasing rate, as the remaining term of the Warrant becomes shorter. The loss of time value accelerates towards the end of the term of the Warrants, since the likelihood of the intrinsic value on exercise or expiry being positive decreases rapidly as the remaining term becomes ever shorter. At the end of the term the time value is by definition zero, since the cash amount paid on exercise or expiry is equal to the intrinsic value of the Warrants.

Risks relating to other factors affecting value such as money market interest rates, expected dividends and the Issuer's refinancing costs

In addition to the price of the underlying and its implied volatility as well as the remaining term of the Warrants, other factors affecting value are also reflected in the price of the Warrants. These include, among others, interest rates on the money market for the period of the remaining term, expected income from the Issuer's hedging transactions in or based on the underlying (such as dividend income in the case of shares) and the level of the Issuer's refinancing costs for entering into the relevant hedging transactions.

Even if the price of the underlying rises in the case of a Call Warrant or falls in the case of a Put Warrant, the value of the Warrant may decline as a result of the other factors affecting value.

Given the limited term of the Warrant, there is no guarantee that the price of the Warrant will recover in sufficient time. The shorter the remaining term, the greater the risk.

Risk of Warrants with currency hedging (Quanto Warrants)

In the case of Warrants with currency hedging (Quanto Warrants), the rate at which the intrinsic value expressed in the currency of the underlying is converted into the settlement currency on exercise or expiry is specified in advance in the terms and conditions. However, the price of Warrants with Quanto currency hedging may also respond to exchange rate movements prior to the exercise or expiry of the Warrants, even if the factors affecting their value remain otherwise unchanged. The effect can be seen if warrant holders wish to sell the Warrants on the secondary market, because the financial value of the Quanto hedging is subject to fluctuations during the term of the Warrants and is reflected in the calculation of warrant prices. As a result, a Warrant with Quanto hedging frequently becomes more expensive and in the event that the Warrant is sold during its term, the investor may be exposed to a corresponding exchange rate risk. If a Warrant has Quanto hedging, therefore, investors must assume that they will also pay for any costs of the Quanto hedging.

A different procedure applies for open end Warrants with no defined final maturity. In this case, the cash or termination amount payable on exercise by the warrant holder or termination by the Issuer is initially calculated on the basis of the Quanto rate of conversion specified at issue, without taking into account exchange rate risks. In a second step, however, the amount is reduced by the net costs of the Quanto currency hedging incurred by the Issuer since the date of issue, or increased in the event of net income. The Issuer calculates the relevant net costs or net income in its reasonable discretion, taking account of the rates of interest for the reference currency and the settlement currency at which the currency hedging has been arranged, the volatility of the underlying or of the exchange rate between the reference currency and the settlement currency, and the correlation between the price of the underlying and the development of the exchange rate, and gives notice of the Quanto net amount calculated in this manner in accordance with the terms and conditions. The frequency with which the Quanto net amount is calculated is specified in the terms and conditions. This is normally each day, but may be specified to be any period up to the maximum of the recurring period for the right to exercise the Warrants (for example, monthly). For the purpose of price-setting by the Issuer in the secondary market, the net amounts for the Quanto hedging are included on the basis of the exact number of days.

2.2. Specific risk factors of Turbo Bull or Bear Warrants with knock-out (Product No. 2)

Risk relating to hedging transactions in the underlying in the case of Warrants with knock-out

In the case of Warrants with a knock-out feature, the possibility cannot be excluded that the Issuer's activities in setting up or unwinding hedging positions may reinforce movements in the price of the underlying for the Warrants to such an extent that a knock-out event is triggered and the option rights therefore expire early with no value. The closer the price of the underlying approaches to a knock-out barrier and the higher the volatility of the underlying, the greater the risk of a knock-out event occurring as a result of these factors.

Risk from the occurrence of a knock-out event outside the trading hours in the secondary market

In the case of Warrants with a knock-out feature, investors in principle face the risk that a knock-out event may also occur outside the times when the Warrants are normally traded. This risk is especially relevant if the trading hours during which the Warrants are traded (by the Issuer or on a securities exchange on which the Warrants are listed) differ from the trading hours during which trading in the underlying normally takes place (the trading hours for the underlying normally correspond to the observation hours during which the knock-out barrier is observed).

The problem relates in particular to underlyings traded in time zones at a great distance from Central Europe, such as American or Japanese shares or share indices in those regions, as well as commodities or exchange rates which are generally traded around the clock. The same problem can occur if secondary market trading in the Warrants is not possible due to a public holiday, while at the same time the underlying is being traded on its domestic market.

In this connection, particular attention should be paid to the risk of a limited or non-existent secondary market in the Warrants. Please refer also to the section headed "Risk of the absence or non-functioning of a secondary market in the Warrants" under "1. General risk factors of Warrants" above.

If the prices of the Warrants move beyond the stop-loss limit during a period when the regular trading hours for the Warrants and the regular trading hours for the underlying are not the same, the setting of a stop-loss limit, beyond which the Warrants should be sold, will not necessarily help the investor to avoid the risk described here.

2.2.1. Turbo Warrants for which the knock-out barrier is equal to the strike

Risk of total loss prior to maturity if a knock-out event occurs

In the case of Turbo Bull or Bear Warrants with knock-out for which the knock-out barrier is equal to the strike, the term of the Turbo Warrants ends early at the knock-out time and the Turbo option rights expire worthless, in the event that the price of the underlying defined in the terms and conditions is equal to or lower than (bull) or is equal to or higher than (bear) the knock-out barrier of the Turbo Warrant within an observation period defined in the terms and conditions or on an observation date defined in the terms and conditions during the observation hours also defined in the terms and conditions or at an observation time specified in the terms and conditions. These consequences apply even if a market disruption event has led to the occurrence

of the knock-out conditions or even if the knock-out conditions are only met for a short period and on a single occasion after the issue date. Due to the risk of a knock-out event occurring, Turbo Warrants are particularly risky securities. **If a knock-out event occurs, investors will suffer a total loss of their capital invested.**

Price risk in connection with rising implied volatility

In the case of Turbo Bull or Bear Warrants with knock-out for which the knock-out barrier is equal to the strike, the price of the Warrants during their term is influenced by other factors affecting value in addition to the price of the underlying (please refer also to "2.1. Specific risk factors of classic (plain vanilla) Call or Put Warrants"), including in particular the implied volatility of the underlying. The influence of the implied volatility of the underlying on the price of the Warrants in the secondary market, however, is subject to the following special considerations.

If the price of the underlying is close to the knock-out barrier, there is an increased risk that the Warrant will be knocked out and therefore expire early with no value. If the price of the underlying is close to the knock-out barrier and the implied volatility rises – while all other factors affecting the pricing of the Warrants, in particular the price of the underlying, remain unchanged – then the price of the knock-out Turbo Warrant will fall, because there is an increased likelihood that the Warrant will be knocked out and therefore expire worthless. On the other hand, if the implied volatility falls, then the price of the Turbo Warrant will rise, since the probability of an early knock-out is reduced.

From the point of view of the investor, therefore, an increase in the implied volatility of the underlying represents a price risk if the price of the underlying is close to the knock-out barrier. The closer the knock-out barrier of the Warrant is to the current price of the underlying for the Turbo Warrant, the greater the proportion of the warrant price represented by the implied volatility and therefore the greater its sensitivity to fluctuations in volatility. The further the knock-out barrier of the Warrant is from the current price of the underlying for the Turbo Warrant, the lower the proportion of the warrant price represented by the implied volatility, and therefore the lower its sensitivity to fluctuations in volatility, until it becomes negligible or zero.

Compared with Call or Put Warrants without knock-out barriers ("standard warrants"), therefore, the price of Turbo Warrants responds in exactly the opposite way to changes in volatility. While the prices of standard warrants rise (fall) with rising (falling) volatility, the prices of Turbo Warrants with knock-out fall (rise) with rising (falling) volatility, but only do so if the price of the underlying is close to the knock-out barrier.

Risk of jumps in the price of the underlying (gap risk)

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, that could trigger a knock-out event is known as gap risk. If, for example, an index opens 2.5 per cent above or below the previous day's close and if a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer relating to the adjustment of the hedging transactions entered into for the Warrants sold. The Issuer can normally hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the

resulting loss is borne by the Issuer since it may no longer be possible to unwind the hedging transactions if the price of the underlying has already jumped beyond the knock-out barrier or in an area between the strike and the knock-out barrier. In the case of these Turbo Warrants, therefore, the warrant holder bears no direct gap risk. However, the gap risks for all Turbo product variants are normally estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the prices set in the secondary market. For these Turbo Warrants one can therefore say that the warrant holders bear the gap risk indirectly. It may prove to be the case in hindsight that the estimates of the gap risks by the Issuer were too high or too low.

2.2.2. Turbo Warrants for which the respective strike is not equal to the knock-out barrier and the risk of jumps in the price of the underlying is not borne directly by the warrant holder (Turbo stop-loss without direct gap risk)

Risk of total loss prior to maturity if a knock-out event occurs

In the case of Turbo Bull or Bear Warrants with knock-out for which the respective strike is not equal to the knock-out barrier and the gap risk is not borne directly by the warrant holder (Turbo stop-loss without direct gap risk), the term of the Turbo Warrants ends early at the knock-out time and the Turbo option rights expire worthless, in the event that the price of the underlying defined in the terms and conditions is equal to or lower than (bull) or is equal to or higher than (bear) the knock-out barrier of the Turbo Warrant within an observation period defined in the terms and conditions or on an observation date defined in the terms and conditions during the observation hours also defined in the terms and conditions or at an observation time specified in the terms and conditions. These consequences apply even if a market disruption event has led to the occurrence of the knock-out conditions or even if the knock-out conditions are only met for a short period and on a single occasion after the issue date. Due to the risk of a knock-out event occurring, Turbo Warrants are particularly risky securities.

If a knock-out event occurs, investors will suffer a loss equal to the difference between their capital invested (plus transaction costs) and the stop-loss cash amount payable by the Issuer on the occurrence of the knock-out event. The stop-loss cash amount payable in the event of a knock-out is equal to the intrinsic value of the Warrant at the time of the knock-out, i.e. the difference, multiplied in each case by the multiplier and converted where applicable into the settlement currency, between the knock-out barrier and the strike (bull) or the strike and the knock-out barrier (bear) (stop-loss cash amount).

Price risk in connection with rising implied volatility

In the case of Turbo Bull or Bear Warrants with knock-out for which the respective strike is not equal to the knock-out barrier and the gap risk is not borne directly by the warrant holder (Turbo stop-loss without direct gap risk), the price of the Turbo Warrants during their term is influenced by other factors affecting value in addition to the price of the underlying (please refer also to "2.1. Specific risk factors of classic (plain vanilla) call or Put Warrants"), including in particular the implied volatility of the underlying. The influence of the implied volatility of the underlying on the price of the Warrants in the secondary market, however, is subject to the following special considerations.

If the strike and the knock-out barrier of the Turbo Warrant are close to each other and if the price of the underlying is close to the knock-out barrier, there is an increased risk that the Warrant will be knocked out and therefore expire early with no value.- If the price of the underlying is close to the knock-out barrier and the implied volatility rises – while all other factors affecting the pricing of the Warrants, in particular the price of the underlying, remain unchanged – then the price of the knock-out Turbo Warrant will fall, because there is an increased likelihood that the Warrant will be knocked out and therefore expire worthless. On the other hand, if the implied volatility falls, then the price of the Turbo Warrant will rise, since the probability of an early knock-out is reduced.

From the point of view of the investor, therefore, an increase in the implied volatility of the underlying represents a price risk if the price of the underlying is close to the knock-out barrier. The closer the knock-out barrier of the Warrant is to the current price of the underlying for the Turbo Warrant, the greater the proportion of the warrant price represented by the implied volatility and therefore the greater its sensitivity to fluctuations in volatility. The further the knock-out barrier of the Warrant is from the current price of the underlying for the Turbo Warrant, the lower the proportion of the warrant price represented by the implied volatility, and therefore the lower its sensitivity to fluctuations in volatility, until it becomes negligible or zero.

Compared with Call or Put Warrants without knock-out barriers ("standard warrants"), therefore, the price of Turbo Warrants responds in exactly the opposite way to changes in volatility. While the prices of standard warrants rise (fall) with rising (falling) volatility, the prices of Turbo Warrants with knock-out fall (rise) with rising (falling) volatility, but only do so if the price of the underlying is close to the knock-out barrier.

Risk of jumps in the price of the underlying (gap risk)

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, that could trigger a knock-out event is known as gap risk. If, for example, an index opens 2.5 per cent above or below the previous day's close and if a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer relating to the adjustment of the hedging transactions entered into for the Warrants sold. The Issuer can normally hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the Issuer since it may no longer be possible to unwind the hedging transactions if the price of the underlying has already jumped beyond the knock-out barrier or in an area between the strike and the knock-out barrier. In the case of these Turbo Warrants, therefore, the warrant holder bears no direct gap risk. However, the gap risks for all Turbo product variants are normally estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the prices set in the secondary market. For these Turbo Warrants one can therefore say that the warrant holders bear the gap risk indirectly. It may prove to be the case in hindsight that the estimates of the gap risks by the Issuer were too high or too low.

2.2.3. *Turbo Warrants for which the respective strike is not equal to the knock-out barrier and the risk of a total loss due to jumps in the price of the underlying (gap risk) is borne directly by the warrant holder (Turbo stop-loss with gap risk)*

Risk of total loss prior to maturity if a knock-out event occurs

In the case of Turbo Bull or Bear Warrants with knock-out for which the respective strike is not equal to the knock-out barrier and the risk of a total loss due to jumps in the price of the underlying (gap risk) is borne directly by the warrant holder (Turbo stop-loss with gap risk), the term of the Turbo Warrants ends early at the knock-out time and the Turbo option rights expire worthless, in the event that the price of the underlying defined in the terms and conditions is equal to or lower than (bull) or is equal to or higher than (bear) the knock-out barrier of the Turbo Warrant within an observation period defined in the terms and conditions or on an observation date defined in the terms and conditions during the observation hours also defined in the terms and conditions or at an observation time specified in the terms and conditions. These consequences apply even if a market disruption event has led to the occurrence of the knock-out conditions or even if the knock-out conditions are only met for a short period and on a single occasion after the issue date. Due to the risk of a knock-out event occurring, Turbo Warrants are particularly risky securities.

If a knock-out event occurs, investors will suffer a loss equal to the difference between the capital invested (plus transaction costs) and the stop-loss cash amount payable by the Issuer on the occurrence of the knock-out event. The stop-loss cash amount payable in the event of a knock-out is equal to the difference, multiplied in each case by the multiplier and converted where applicable into the settlement currency, between the hedge price of the underlying calculated by the Issuer and the strike of the Warrant (Bull) or the strike and the hedge price (Bear). The hedge price of the underlying is a price determined by the Issuer in its reasonable discretion within a period defined in the terms and conditions as the level of the underlying in line with the market, calculated taking into account the computed proceeds from the hedging positions entered into for the Warrants in each case at the relevant time following the occurrence of a knock-out event. Since this hedge price of the underlying calculated by the Issuer may also be considerably lower than (bull) or higher than (bear) the knock-out barrier, the warrant holder bears the gap risk. The greater the difference is between the strike and the knock-out barrier, the greater is the maximum amount that the warrant holder can lose if a sufficiently large gap risk materializes. **In the most unfavorable case, the stop-loss cash amount may be equal to zero and the warrant holder will suffer a total loss of the capital invested.**

Price risk in connection with rising implied volatility

In the case of Turbo Warrants (Turbo Bull or Bear Warrants with knock-out, Open End Turbo Warrants with knock-out) for which the respective strike is not equal to the knock-out barrier and the risk of a total loss due to jumps in the price of the underlying (gap risk) is borne directly by the warrant holder (Turbo stop-loss with gap risk), the price of the Turbo Warrants during their term is influenced by other factors affecting value in addition to the price of the underlying (please refer also to "2.1. Specific risk factors of classic (*plain vanilla*) Call or Put Warrants") including in particular the implied volatility of the underlying. The influence of the implied volatility of the underlying on the price of the Warrants in the secondary market, however, is subject to the following special considerations.

If the strike and the knock-out barrier of the Turbo Warrant are close to each other and if the price of the underlying is close to the knock-out barrier, there is an increased risk that the Warrant will be knocked out and therefore expire early with no value. If the price of the underlying is close to the knock-out barrier and the implied volatility rises – while all other factors affecting the pricing of the Warrants, in particular the price of the underlying, remain unchanged – then the price of the knock-out Turbo Warrant will fall, because there is an increased likelihood that the Warrant will be knocked out and therefore expire worthless. On the other hand, if the implied volatility falls, then the price of the Turbo Warrant will rise, since the probability of an early knock-out is reduced.

From the point of view of the investor, therefore, an increase in the implied volatility of the underlying represents a price risk if the price of the underlying is close to the knock-out barrier. The closer the knock-out barrier of the Warrant is to the current price of the underlying for the Turbo Warrant, the greater the proportion of the warrant price represented by the implied volatility and therefore the greater its sensitivity to fluctuations in volatility. The further the knock-out barrier of the Warrant is from the current price of the underlying for the Turbo Warrant, the lower the proportion of the warrant price represented by the implied volatility, and therefore the lower its sensitivity to fluctuations in volatility, until it becomes negligible or zero.

Compared with Call or Put Warrants without knock-out barriers ("standard warrants"), therefore, the price of Turbo Warrants responds in exactly the opposite way to changes in volatility. While the prices of standard warrants rise (fall) with rising (falling) volatility, the prices of Turbo Warrants with knock-out fall (rise) with rising (falling) volatility, but only do so if the price of the underlying is close to the knock-out barrier.

Risk of total loss due to jumps in the price of the underlying (gap risk)

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, that could trigger a knock-out event is known as gap risk. If, for example, an index opens 2.5 per cent above or below the previous day's close and if a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer relating to the adjustment of the hedging transactions entered into for the Warrants sold. The Issuer can normally hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the investor up to the level of the strike (direct gap risk), and reverts to the Issuer above the strike since it may no longer be possible to unwind the hedging transactions if the price of the underlying has already jumped beyond the knock-out barrier or in an area between the strike and the knock-out barrier. The gap risks are normally estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the prices set in the secondary market. It may prove to be the case in hindsight that the estimates of the gap risks by the Issuer were too high or too low.

2.3. Specific risks of Open End Turbo Warrants with knock-out (Product No. 3 and/or Product No. 4)

Risk of exercise of the Warrants and Issuer's right of termination

In the case of Open End Turbo Warrants with knock-out, there is a risk that the term may be ended unexpectedly. The term of Open End Turbo Warrants is not defined in advance. The term of the Warrants ends either with the effective exercise of the Warrants in accordance with the respective terms and conditions (in each case only with respect to the Warrants exercised effectively), or with a termination of all the Warrants by the Issuer, or on the occurrence of a knock-out event or an early redemption of the Warrants, if the terms and conditions provide for early redemption of the Warrants. The Warrants may be exercised by the warrant holders with effect as of particular exercise dates defined in the terms and conditions. The warrant holders' exercise right is subject to certain conditions of exercise defined in detail in the terms and conditions. For the purposes of calculating the relevant cash amount, the respective exercise date as of which the Warrants are effectively exercised is deemed to be the valuation date.

The Issuer has the right to terminate all of the Warrants in a series in accordance with the terms and conditions. The warrant holders are given notice of any such termination of the Warrants in advance in accordance with the terms and conditions. For the purposes of calculating the relevant cash amount, the date on which the termination becomes effective is deemed to be the valuation date. In the light of the Issuer's termination right and the possibility of a knock-out event, investors should not assume that they will be able to exercise the Warrants with effect as of a particular exercise date.

Risk of total loss due to a knock-out event and risk from the Issuer unwinding its hedging position

If the Warrants are Open End Turbo warrants with knock-out without stop-loss, the term of the Warrants ends early at the knock-out time and the option rights expire worthless, in the event that the price of the underlying defined in the terms and conditions is equal to or lower than (bull) or is equal to or higher than (bear) the knock-out barrier of the Open End Turbo Warrant within an observation period defined in the terms and conditions or on an observation date defined in the terms and conditions during the observation hours also defined in the terms and conditions or at an observation time specified in the terms and conditions. These consequences apply even if a market disruption event has led to the occurrence of the knock-out conditions or even if the knock-out conditions are only met for a short period and on a single occasion after the issue date. Due to the risk of a knock-out event occurring, Open End Turbo Warrants are particularly risky securities.

In the case of Open End Turbo Warrants with knock-out and with stop-loss, if a knock-out event occurs, investors will suffer a loss equal to the difference between the capital invested (plus transaction costs) and the stop-loss cash amount payable by the Issuer on the occurrence of the knock-out event. The stop-loss cash amount payable in the event of a knock-out is equal to the difference, multiplied in each case by the multiplier and converted where applicable into the settlement currency, between the hedge price of the underlying calculated by the Issuer and the strike of the Warrant (Bull) or the strike and the hedge price (Bear). The hedge price of the underlying is a price determined by the Issuer in its reasonable discretion within a period defined in the terms and conditions as the level of the underlying in line with the market, calculated taking

into account the computed proceeds from the hedging positions entered into for the Warrants in each case at the relevant time following the occurrence of a knock-out event. Since this hedge price of the underlying calculated by the Issuer may also be considerably lower than (bull) or higher than (bear) the knock-out barrier, the warrant holder bears this risk arising from the unwinding of the Issuer's hedging position. The greater the difference is between the strike and the knock-out barrier, the greater is the maximum amount that the warrant holder can lose if a sufficiently large gap risk materializes. **In the most unfavorable case, the stop-loss cash amount may be equal to zero and the warrant holder will suffer a total loss of the capital invested.**

Additional risks relating to hedging transactions in the underlying for Warrants with knock-out

In the case of Warrants with a knock-out feature, the possibility cannot be excluded that the Issuer's activities in setting up or unwinding hedging positions may reinforce movements in the price of the underlying for the Warrants to such an extent that a knock-out event is triggered and the option rights therefore expire early with no value. **The closer the price of the underlying approaches to a knock-out barrier and the higher the volatility of the underlying, the greater the risk of a knock-out event occurring as a result of these factors.**

Price risk in connection with rising implied volatility for Turbo stop-loss Warrants with gap risk

Turbo stop-loss Warrants with gap risk (see also "2.2.3. Turbo Warrants for which the respective strike is not equal to the knock-out barrier and the risk of a total loss due to jumps in the price of the underlying (gap risk) is borne directly by the warrant holder (Turbo stop-loss with gap risk)") are normally structured in such a way that the strike and the knock-out barrier are sufficiently distant from each other that, from the point of view of the Issuer, the potential gap risk is expected to be transferred largely to the warrant holder. In such cases, the volatility does not play a part in the pricing of the Warrants.

If, however, the strike and the knock-out barrier are close to each other in exceptional cases and if the price of the underlying in such cases moves towards the knock-out barrier and approaches it, then the increased risk of an early knock-out event becomes a separate quantifiable component of the option price for the first time. The unit of measurement for quantifying this component of the option price is the range of movement in the price of the underlying expected by the Issuer, expressed in percentage points per year for a particular level of probability and incorporated in the option price ("implied volatility"). If the conditions set out in the first sentence are met and if the implied volatility rises – while all other factors affecting pricing, in particular the price of the underlying, remain unchanged – then the price of the knock-out Turbo Warrant will fall, because there is an increase in the likelihood that the Warrant will be knocked out and that only a small stop-loss cash amount will be paid out prior to maturity as a result of the proximity between the strike and the knock-out barrier. On the other hand, if the implied volatility falls, then the price of the Turbo Warrant will rise, since the probability of an early knock-out is reduced.

From the point of view of the investor, therefore, an increase in the implied volatility of the underlying represents a price risk if the price of the underlying, the strike and the knock-out barrier in each case are close to each other. The closer these three factors are to each other, the greater the proportion of the Warrant price represented by the implied volatility and therefore the

greater its sensitivity to fluctuations in volatility. If the movement of the underlying means that the three factors are no longer so close, the proportion of the warrant price represented by the implied volatility, and therefore its sensitivity to fluctuations in volatility, will decline correspondingly until it becomes negligible or zero.

Risk relating to adjustments of the strike and of the knock-out barrier

In the case of Open End Turbo Bull or Bear Warrants with knock-out, the strike and the knock-out barrier of the Warrants are subject to ongoing adjustment in accordance with the terms and conditions. In order to reflect the financing costs incurred by the Issuer in connection with the hedging transactions entered into for the Warrants, the strike of the Warrants is adjusted on a daily basis by an adjustment amount, calculated for a particular financing level adjustment period on the basis of the respective current strike on a particular adjustment date, the adjustment rate applicable for the relevant financing level adjustment period and using a specified day count convention. For this purpose, the adjustment rate is made up of the rate of interest applying at the relevant time for deposits in the currency of the underlying and a percentage rate, determined by the Issuer in its reasonable discretion, known as the interest rate correction factor. When exercising its reasonable discretion to determine this factor, the Issuer may always take into account, but is not restricted to, the particular market circumstances prevailing in a specific financing level adjustment period, especially particular factors relating to the underlying (e.g. in the case of shares that, if the relevant market circumstances apply, are subject to significant movements in interest rates during a financing level adjustment period, as determined by the Issuer) in connection with entering into or unwinding the required hedging transactions for the Warrants. **Investors should therefore note that the adjustment rate for adjusting the features of the Warrants specified by the Issuer using its reasonable discretion when determining the interest rate correction factor may differ significantly in certain financing level adjustment periods, if the prevailing market conditions so require, from the respective adjustment rate specified for the first financing level adjustment period in Table 1 of the annex to the Issue Specific Conditions in the Final Terms.** The calculation factors that are relevant for changing the strike by the adjustment amount are specified in more detail in the respective terms and conditions. This daily adjustment of the strike significantly increases the risk of a market situation occurring in which the price of the underlying, the strike and the knock-out barrier are close to each other (see also the information above relating to the risks arising from a market situation of this nature). Such an adjustment of the strike will – subject to the influence of other factors affecting the price – result in an increase (Bull) or decrease (Bear) in the intrinsic value of an Open End Turbo Warrant.

In addition, the relevant knock-out barrier for the respective following financing level adjustment period is adjusted by the Issuer in its reasonable discretion on an adjustment date pursuant to the terms and conditions of the Warrants. Depending on the market conditions prevailing on an adjustment date, such an adjustment may result (i) in a significant increase in the risk of a market situation occurring in which the price of the underlying, the strike and the knock-out barrier are close to each other (see also the information above relating to the risks arising from a market situation of this nature) and (ii) an increase in the gap risk to which the warrant holder is exposed, in the event that the distance between the respective current strike and the adjusted knock-out barrier increases. **Investors should therefore not assume that the knock-out barrier will**

always remain at roughly the same distance from the strike during the term of the Warrants.

If the underlying consists of shares or price indices, the Issuer will also calculate a dividend adjustment amount which is deducted from the strike and from the knock-out barrier on the dates on which dividends are paid in respect of the relevant shares or index constituents and the relevant shares or index constituents are traded ex-dividend on their domestic stock exchanges. In the case of bull Open End Turbo Warrants with knock-out (e.g. Mini Future Long Warrants), this dividend adjustment amount is calculated by the Issuer on the basis of the net dividend. The latter is the amount that a holder of the share or index constituent forming the underlying of the Warrants, who is liable to tax in the Federal Republic of Germany, would receive after deduction of any taxes or other costs or levies incurred in the event of the payment of a dividend on that share or index constituent. In the case of bear Open End Turbo Warrants with knock-out (e.g. Mini Future Short Warrants), on the other hand, the calculation of the dividend adjustment amount is based on the gross dividend, i.e. without taking into account taxes or other costs or levies required to be deducted. The same also applies in this connection for the price of the share or index constituent forming the underlying for the Warrants, which also always reflects the level of the gross dividend. **Investors should therefore note in particular**, in addition to the fact that an adjustment in the event of dividend adjustments – subject to the effect of other factors influencing the price – may generally increase (bull) or decrease (bear) the intrinsic value of an Open End Turbo Warrant, **that because the dividend adjustment amount in the case of Open End Turbo Bull Warrants with knock-out is based on the net dividend, their Warrants will fall in value, since the strike and the knock-out barrier are reduced by the net dividend while the price of the underlying is reduced by the gross dividend (and therefore by different amounts) and, in addition, that a knock-out event may occur solely as the result of a dividend adjustment made in accordance with the terms and conditions.**

2.4. Specific risks of Capped Call or Capped Put Warrants (Product No. 5)

Risk of the limitation of the cash amount

In the case of capped Warrants, the cash amount which may be payable by the Issuer at maturity is limited by a cap defined in the terms and conditions. This means that investors will not participate in the intrinsic value of the Warrants at maturity to the extent that the intrinsic value of the Warrants at maturity goes above the cap of the Warrants.

2.5. Specific risks of Digital Warrants (Product No. 6)

Risk of total loss if the condition for payment of the cash amount does not occur

In the case of Digital Warrants, the level of the cash amount that may be payable by the Issuer is specified in the terms and conditions. The actual payment of the cash amount is dependent on whether the reference price of the underlying is higher (Call Warrants) or lower (Put Warrants) than the strike on the valuation date. If this relevant condition for the payment of the cash amount does not occur, the Warrants will expire worthless and the investor will suffer a total loss of the capital invested.

2.6. Specific risks of Straddle Warrants (Product No. 7)

Risk of loss up to and including a total loss if the price of the underlying on exercise or expiry is close to or equal to the strike

Straddle Warrants represent a combination of a call option and a put option each with the same strike and the same term. The level of the intrinsic value (in accordance with the terms and conditions) in the case of Straddle Warrants therefore depends on the amount by which the reference price of the underlying is higher or lower than the strike, multiplied by the multiplier in each case. A Straddle Warrant therefore generally falls in value during its term, i.e. disregarding other factors affecting the price, if the price of the underlying is close to or equal to the strike of the Warrant. The investor will suffer a total loss at maturity if the Warrant expires worthless, i.e. if the price of the underlying on exercise or expiry of the Warrants is exactly equal to the strike.

2.7. Specific risks of Barrier Warrants (Up-and-Out Call or Down-and-Out Put Warrants) (Product No. 8)

Risk of total loss prior to maturity if a knock-out event occurs

In the case of Up-and-Out Call or Down-and-Out Put Warrants, the term of the Barrier Warrants ends early at the knock-out time and the barrier option rights expire worthless, in the event that the price of the underlying defined in the terms and conditions is equal to or higher than (Up-and-Out Call) or is equal to or lower than (Down-and-Out Put) the knock-out barrier of the Barrier Warrant within an observation period defined in the terms and conditions or on an observation date defined in the terms and conditions during the observation hours also defined in the terms and conditions or at an observation time specified in the terms and conditions. These consequences apply even if a market disruption event has led to the occurrence of the knock-out conditions or even if the knock-out conditions are only met for a short period and on a single occasion after the issue date. Due to the risk of a knock-out event occurring, Barrier Warrants are particularly risky securities. **If a knock-out event occurs, investors will suffer a total loss of their capital invested.**

Price risk in connection with rising implied volatility

In the case of Up-and-Out Call or Down-and-Out Put Warrants, the price of the Warrants during their term is influenced by other factors affecting value in addition to the price of the underlying (please refer also to "2.1. Specific risk factors of classic (plain vanilla) call or Put Warrants"), including in particular the implied volatility of the underlying. The influence of the implied volatility of the underlying on the price of the Warrants in the secondary market, however, is subject to the following special considerations.

If the price of the underlying is close to the knock-out barrier, there is an increased risk that the Warrant will be knocked out and therefore expire early with no value. If the price of the underlying is close to the knock-out barrier and the implied volatility rises – while all other factors affecting the pricing of the Warrants, in particular the price of the underlying, remain unchanged – then the price of the Barrier Warrant will fall, because there is an increased likelihood that the Warrant will be knocked out and therefore expire worthless. On the other hand, if the implied

volatility falls, then the price of the Barrier Warrant will rise, since the probability of an early knock-out is reduced.

From the point of view of the investor, therefore, an increase in the implied volatility of the underlying represents a price risk if the price of the underlying is close to the knock-out barrier. The closer the knock-out barrier of the Warrant is to the current price of the underlying for the Barrier Warrant, the greater the proportion of the warrant price represented by the implied volatility and therefore the greater its sensitivity to fluctuations in volatility. The further the knock-out barrier of the Warrant is from the current price of the underlying for the Barrier Warrant, the lower the proportion of the warrant price represented by the implied volatility, and therefore the lower its sensitivity to fluctuations in volatility, until it becomes negligible or zero.

Compared with call or Put Warrants without knock-out barriers ("standard warrants"), therefore, the price of Barrier Warrants responds in exactly the opposite way to changes in volatility. While the prices of standard warrants rise (fall) with rising (falling) volatility, the prices of Barrier Warrants fall (rise) with rising (falling) volatility, but only do so if the price of the underlying is close to the knock-out barrier.

Risk of jumps in the price of the underlying (gap risk)

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, that could trigger a knock-out event is known as gap risk. If, for example, an index opens 2.5 per cent above or below the previous day's close and if a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer relating to the adjustment of the hedging transactions entered into for the Warrants sold. The Issuer can normally hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the Issuer since it may no longer be possible to unwind the hedging transactions if the price of the underlying has already jumped beyond the knock-out barrier or in an area between the strike and the knock-out barrier. In the case of these Warrants, therefore, the warrant holder bears no direct gap risk. However, the gap risks for all Barrier Warrants are normally estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the prices set in the secondary market. For these Warrants one can therefore say that the warrant holders bear the gap risk indirectly. It may prove to be the case in hindsight that the estimates of the gap risks by the Issuer were too high or too low.

3. Underlying specific risk factors

Risk in connection with indices as the underlying

In the case of Warrants based on indices, the level of the cash amount is dependent on the performance of the index. Risks attaching to the index therefore also represent risks attaching to the Warrants. The performance of the index depends in turn on the individual index constituents of which the respective index is composed. During the Warrants' term, however, their market value may also diverge from the performance of the index or the index constituents since, for example, the correlations, volatilities, level of interest rates and, e.g. in the case of performance

indices, also the re-investment of dividends relating to the index constituents, in addition to other factors, may affect the price performance of the Warrants.

Where the DAX[®] (Performance Index) / X-DAX[®] forms the underlying for Warrants with a knock-out feature, investors should note that the relevant price of the underlying for determining the knock-out event includes both the prices of the DAX[®] (Performance Index) and also the prices of the X-DAX[®]. The period of time during which a knock-out event may occur is therefore longer than in the case of Warrants with a knock-out feature linked only to the DAX[®] (Performance Index). It should also be noted that, due to its event-driven method of calculation, the likelihood of sudden price movements and therefore the risk of a knock-out event occurring is higher in the case of the X-DAX[®].

Risk in connection with exchange rates as the underlying

Exchange rates express the relationship between the value of a particular currency and that of another currency. In international foreign exchange trading, in which one particular currency is always traded against another, the currency being traded is known as the base currency, while the currency in which the price for the base currency is quoted is known as the quote currency. The most important currencies traded on the international foreign exchange markets are the US dollar (USD), the euro (EUR), Japanese yen (JPY), Swiss francs (CHF) and the British pound sterling (GBP). As an example, therefore, an exchange rate of "EUR/USD 1.2575" means that 1.2575 US dollars must be paid for the purchase of one euro. A rise in this rate of exchange therefore indicates that the euro has risen against the US dollar. On the other hand, a rate of exchange of "USD/EUR 0.8245" shows that 0.8245 euros must be paid for the purchase of one US dollar. A rise in this rate of exchange therefore means that the US dollar has risen against the euro.

Exchange rates are subject to an extremely wide range of influencing factors. Examples which it is relevant to mention here include supply and demand for currencies on the international foreign exchange markets, the rate of inflation in the particular country, differences in interest rates compared with other countries, the assessment of the performance of the respective economy, the global political situation, the convertibility of one currency into another, the security of a monetary investment in the respective currency and measures taken by governments and central banks (e.g. exchange controls and restrictions). In addition to these factors which are still capable of being assessed, there may be other factors for which an assessment is practically impossible, e.g. factors of a psychological nature such as crises of confidence in the political leadership of a country or other matters of a speculative nature. These factors of a psychological nature can also have a significant influence on the value of the relevant currency.

Reference values for the underlying may be drawn from a wide variety of sources. On the one hand, these may be exchange rates derived from the interbank market, since the majority of international foreign exchange trading takes place between major banks. These rates are published on the pages of recognized financial information services (such as Reuters or Bloomberg). On the other hand, certain official exchange rates determined by central banks (such as the European Central Bank) may also be used as reference values. The reference values for particular Warrants are specified in the respective terms and conditions.

Risk in connection with commodities as the underlying

Raw materials and commodities are generally divided into three main categories: mineral commodities (such as oil, gas, aluminum and copper), agricultural products (such as wheat and corn) and precious metals (such as gold and silver). The majority of trading in raw materials and commodities takes place on specialized exchanges or directly between market participants (interbank trading) on a global basis in the form of OTC (over-the-counter, off-market) transactions using contracts that are for the most part standardized.

The price risks attaching to raw materials and commodities are frequently complex. The prices are subject to greater fluctuations (volatility) than in the case of other investment classes. In particular, commodities markets are less liquid than bond, currency and equity markets. Changes in supply and demand therefore have a more dramatic effect on prices and volatility, which means that investments in commodities are more complex and subject to greater risks.

The factors affecting the prices of commodities are numerous and complicated. As an illustration, some of the typical factors reflected in commodity prices are listed below.

a) Supply and demand

The planning and management required for the provision of commodities take up a great deal of time. As a result, there is limited room for maneuver in the supply of commodities and it is not always possible to adjust production rapidly to meet changes in demand. Demand for commodities may also vary between different regions. The transport costs for commodities in regions where they are needed also have an effect on prices. The cyclical behavior of some commodities, such as agricultural products that are produced at particular times of the year, can also result in substantial fluctuations in price.

b) Direct investment costs

Direct investments in commodities entail costs for storage, insurance and taxes. Furthermore, no interest or dividend payments are made for an investment in commodities. The total return on commodities is influenced by these factors.

c) Liquidity

Not all commodities markets are liquid and able to react quickly and to the extent required in response to changes in supply and demand. Since there is only a small number of participants in the commodities markets, a significant amount of speculative activity can have negative consequences and give rise to distortions in prices.

d) Weather and natural disasters

Unfavorable weather conditions can affect the supply of certain commodities for a whole year. The resulting severe restriction of supply can lead to significant and unpredictable movements in prices. The prices of agricultural products can also be affected by the spread of diseases and outbreaks of epidemics.

e) Political risks

It is frequently the case that commodities are produced in emerging countries to satisfy demand in industrial countries. The political and economic situation in emerging countries, however, is generally far less stable than in the industrial nations. Investors have a much higher exposure to

the risk of rapid political changes and economic setbacks. Political crises may undermine investor confidence which in turn may be reflected in commodity prices. Military confrontations or conflicts may alter the balance of supply and demand for particular commodities. In addition, it is possible that industrial nations may impose an embargo on the export and import of commodities and services. This may be reflected directly or indirectly in the prices of commodities. Moreover, many commodity producers have joined forces in organizations or cartels with the aim of regulating supply and so affecting prices.

f) Taxation

Changes in tax rates and customs duties may have the effect of decreasing or increasing the profitability of commodities producers. To the extent that these costs are passed on to buyers, changes of this nature will affect the prices of the relevant commodities.

Risk in connection with futures contracts as the underlying

a) General

Futures contracts are standardized forward transactions linked to financial instruments (such as shares, indices, interest rates or currencies), known as financial futures, or to commodities (such as precious metals, wheat or sugar), known as commodity futures.

A futures contract represents a contractual obligation to buy or sell a certain quantity of the respective subject of the contract at a predetermined date and at an agreed price. Futures contracts are traded on futures exchanges and are standardized for this purpose with respect to the contract size, the nature and quality of the subject of the contract and, if applicable, the place and date of delivery.

In general, there is a close correlation between the development of the price of an underlying on the cash market and on the corresponding futures market. However, futures contracts with the same underlying are traded in principle at a premium or discount to the cash price for the underlying. This difference between the cash price and the futures price, referred to in futures exchange terminology as the "basis", is the result firstly of the inclusion of costs normally incurred in cash transactions (storage, delivery, insurance etc.) and of income normally associated with cash transactions (interest, dividends etc.), and secondly of the different valuation of general market factors by the cash market and by the futures market. Moreover, the liquidity of the cash market and the corresponding futures market may be significantly different, depending on the underlying.

Since the Warrants are linked to the quoted price of the underlying futures contracts specified in Table 2 of the annex to the Issue Specific Conditions in the Final Terms, knowledge of the method of operation of forward transactions and of the factors affecting their valuation is necessary to enable an accurate assessment to be made of the risks associated with the purchase of these Warrants, in addition to knowledge about the market for the underlying on which the respective futures contract is based. If the underlying on which the futures contract is based is a commodity, the risk factors described for commodities must also be taken into account.

b) Rollover

Since futures contracts as the underlying for the Warrants have a specific expiry date in each case, in the case of open end Warrants or if a specifically defined valuation date for the Warrants falls

after the expiry date of the futures contract, the underlying is replaced by the Issuer in each case at a time specified in the terms and conditions by a futures contract which, except for an expiry date that is further in the future, has the same contract specifications as the original underlying futures contract ("**Rollover**").

For this purpose, on a rollover date defined in the terms and conditions, the Issuer will unwind the positions it has entered into by means of the relevant hedging transactions relating to the existing futures contract whose expiry date is coming up, and establish corresponding positions relating to a futures contract with identical features, but a longer maturity.

Once a rollover has been completed, the features of the Warrants (strike, knock-out barrier) are adjusted in accordance with a schedule defined in more detail in the terms and conditions.

4. Risk of conflicts of interest

The Issuer, its affiliated companies (if any) or other companies belonging to Citigroup, Inc. or affiliated to it generally act as the calculation agent for the Warrants. This activity can lead to conflicts of interest since the responsibilities of the calculation agent include making certain determinations and decisions which could have a negative effect on the price of the Warrants or the level of the cash amount.

The Issuer, its affiliated companies (if any) or other companies belonging to Citigroup, Inc. or affiliated to it may engage in trading transactions in the underlying, other instruments linked to it, or derivatives, stock exchange options or stock exchange forward contracts, or may issue other securities and derivatives based on the underlying. The companies may also be involved in the acquisition of new shares or other securities of the underlying or, in the case of stock indices, of individual companies included in the index, or act as financial advisers to the entities referred to or work with them in the commercial banking business. The companies are required to fulfill their obligations arising in this connection irrespective of the consequences resulting for the warrant holders and, where necessary, to take actions they consider necessary or appropriate in order to protect themselves or safeguard their interests arising from these business relationships. The activities referred to above could lead to conflicts of interest and have a negative effect on the price of the underlying or securities linked to it such as the Warrants.

If the Issuer, companies affiliated to it or third parties appointed by it perform the function of index calculation agent and index sponsor with respect to indices forming the underlying for Warrants issued under this Base Prospectus and are therefore able to influence the value and the composition of the index, conflicts of interest between their function as issuer of the Warrants and their function as index calculation agent and index sponsor cannot be ruled out. In this connection, the Issuer or companies affiliated to it or third parties appointed by it will take actions and implement measures which they consider to be necessary or appropriate to safeguard their interests, but which could potentially have a negative effect on the value of the Warrants.

The Issuer, its affiliated companies (if any) or other companies belonging to Citigroup, Inc. or affiliated to it may issue additional derivative securities based on the respective underlying or constituents of the underlying, including securities whose features are the same as or similar to those of the Warrants. The introduction of such products that compete with the Warrants may impact the price of the underlying or the constituents of the underlying and thus also the price of

the Warrants. The Issuer, its affiliated companies (if any) or other companies belonging to Citigroup, Inc. or affiliated to it may receive non-public information relating to the underlying or the constituents of the underlying, but are under no obligation to pass on such information to the warrant holders. Furthermore, companies belonging to Citigroup, Inc. or affiliated to it may publish research reports relating to the underlying or constituents of the underlying. These types of activities may entail certain conflicts of interest and affect the price of the Warrants.

If the Issuer allows sales commissions in respect of the Warrants, investors should note that conflicts of interest to the disadvantage of the investor may arise from the payment of sales commissions to distributors, such that distributors may recommend Warrants yielding a higher fee because of the sales commission incentive. Investors should therefore always seek advice from their bank, financial advisor or other advisors about the existence of possible conflicts of interest before purchasing Warrants.

II. DESCRIPTION OF THE WARRANTS

The description of the Warrants contains a description of the features of the Warrants which are regulated in legally binding terms in the terms and conditions. In particular, the terms and conditions include definitions of the terms used in the description of the Warrants. It should be noted with regard to the warrant holders' option right that the terms and conditions alone are binding.

1. General information about the Warrants

Type, category and ISIN

Warrants are derivative financial instruments which may include an option right and which, therefore, may have many characteristics in common with options. One of the significant features of Warrants is the leverage effect: A change in the price of the underlying may result in a disproportionate change in the price of the Warrant. The leverage effect of the Warrant operates in both directions – not only to the investor's advantage in the event of the favorable performance of the factors determining the value, but also to the investor's disadvantage in the event of their unfavorable performance. The payment due under a Warrant on exercise or early termination depends on the value of the underlying at the relevant time.

The ISIN of the Warrants are specified in Table 1 of the annex to the Issue Specific Conditions in the Final Terms to this Tripartite Base Prospectus.

Factors affecting the value of the Warrants

The factors affecting the warrant prices and the most important aspects of them have already been presented under "I. Risk factors of Warrants" to which reference is hereby made.

Applicable law

In case the Warrants are represented by a global bearer warrant the form and content of the Warrants, as well as all rights and obligations arising from the matters regulated in the Conditions, shall be governed in every respect by the laws of the Federal Republic of Germany.

In case Nederlands Centraal Instituut voor Giraal Effectenverkeer B.V. ("**Euroclear Netherlands**") is specified as Central Securities Depository and the Warrants are issued in dematerialized form the Warrants shall be governed by the laws of the Federal Republic of Germany, except for No. 1 (1) and (2) of the General Conditions that are governed by Dutch law.

In case Euroclear France S.A. ("**Euroclear France**") is specified as Central Securities Depository and the Warrants are issued in dematerialized form the Warrants shall be governed by the laws of the Federal Republic of Germany, except for No. 1 (1) and (2) of the General Conditions that are governed by French law.

In case Central de Valores Mobiliários ("**CVM**") is specified as Central Securities Depository and the Warrants are issued in dematerialized form the Warrants shall be governed by the laws of the Federal Republic of Germany, except for No. 1 (1) and (2) of the General Conditions that are governed by Portuguese law.

In case Euroclear Sweden AB ("**Euroclear Sweden**") is specified as Central Securities Depository and the Warrants are issued in dematerialized form the Warrants shall be governed by the laws of the Federal Republic of Germany, except for No. 1 (1) and (2) of the General Conditions that are governed by Swedish law.

In case Euroclear Finland Ltd. ("**Euroclear Finland**") is specified as Central Securities Depository and the Warrants are issued in dematerialized form the Warrants shall be governed by the laws of the Federal Republic of Germany, except for No. 1 (1) and (2) of the General Conditions that are governed by Finnish law.

The central securities depository, the additional securities depositories and the form of the Warrants are specified in No. 2 (3) of the Issue Specific Conditions in the Final Terms of the relevant security.

Form

In case the Warrants are represented by a global bearer warrant each series of Warrants issued by the Issuer shall be represented by a global bearer Warrant (referred to in the following as "**Global Bearer Warrant**"), which shall be deposited with the central securities depository. Definitive Warrants will not be issued during the entire term. Warrant holders shall have no right to the delivery of definitive securities.

In case Nederlands Centraal Instituut voor Giraal Effectenverkeer B.V. is specified as central securities depository and the Warrants are issued in dematerialized form the Warrants will be issued in dematerialized bearer form and registered in the book-entry system of the central securities depository in accordance with Dutch law. No global security and no definitive securities will be issued in respect of the Warrants.

In case Euroclear France S.A. is specified as central securities depository and the Warrants are issued in dematerialized form pursuant the Warrants will be issued in dematerialized bearer form (*au porteur*) and inscribed in the books of the central securities depository which shall credit the accounts of the account holders. No physical document of title will be issued in respect of the Warrants.

In case Central de Valores Mobiláros ("**CVM**") is specified as central securities depository and the Warrants are issued in dematerialized form the Warrants will be dematerialized (*forma escritural*) and represented by book entries (*registros em conta*) only and centralised through the CVM managed by Interbolsa in accordance with Portugese law. No global security and no definitive securities will be issue in respect of the Warrants.

In case Euroclear Sweden AB is specified as central securities depository and the Warrants are issued in dematerialized the Warrants will be cleared through Euroclear Sweden AB (formerly known as VPC AB) and issued in registered form in accordance with the Swedish Financial Instruments Account Act (SFS 1998:1479). The Warrants will be issued in uncertificated book-entry form. No global security and no definitive securities will be issued in respect of the Warrants.

In case Euroclear Finland Ltd. is specified as central securities depository and the Warrants are issued in dematerialized form the Warrants will be issued in the Finnish book-entry securities

system maintained by Euroclear Finland Ltd. No global security and no definitive securities will be issued in respect of the Warrants.

The central securities depository, the additional securities depositories and the form of the Warrants are specified in No. 2 (3) of the Issue Specific Conditions in the Final Terms of the relevant security. The respective addresses can also be found there.

Currency of the securities issue

The Warrants are being offered for purchase in the currency specified in No. 2 (3) of the Issue Specific Conditions in the Final Terms for the relevant security, subject to confirmation. Any on-market or off-market trading in the Warrants will also take place in the above-mentioned currency. In the event of automatic exercise on expiry, any payment of an intrinsic value will also be made, where applicable, after conversion into the settlement currency specified in the Final Terms. The settlement currency is in each case the currency of the issue.

Classification and ranking of the securities

The classification and ranking of the Warrants is governed by No. 1 of the General Conditions.

Description of the rights, procedures for exercise, consequences of market disruption events

The terms of the respective option right are contained in No. 1 and No. 2 of the Issue Specific Conditions in the Final Terms for the relevant security.

For all types of Warrants, the exercise of the Warrants is governed by No. 3 of the Issue Specific Conditions in the Final Terms for the relevant security.

For all types of Warrants, the consequences of market disruption events are set out in the respective No. 7 of the Issue Specific Conditions in the Final Terms for the relevant security.

Resolution forming the basis for new issues

The preparation of the Securities Note and of the Tripartite Base Prospectus as well as the issue of Warrants in that context have been authorized in the proper manner by the relevant bodies of Citigroup Global Markets Deutschland AG, Frankfurt am Main. The preparation of the Securities Note and of the Tripartite Base Prospectus of Citigroup Global Markets Deutschland AG, Frankfurt am Main forms part of the ordinary course of business, with the result that no separate resolution of the Executive Board is required.

All necessary consents or authorizations in connection with the issue of and fulfillment of the obligations associated with the Warrants will be issued by Citigroup Global Markets Deutschland AG, Frankfurt am Main.

Listing and trading

An application may be made for the Warrants to be admitted to trading on one or more stock exchanges or multilateral trading systems or markets, including the Frankfurt stock exchange and/or the Stuttgart stock exchange. Warrants that are not admitted to trading or listed on any market may also be issued.

The applicable Final Terms specify whether the respective Warrants have been admitted to trading or listed and, where relevant, specify the relevant stock exchanges and/or multilateral

trading systems and/or markets. The Final Terms also contain information about any public offer that may be associated with the issue of the Warrants.

In the event that the Warrants are admitted to trading and/or listed, the relevant Final Terms will specify the minimum trading volume, where applicable.

Offer method, offeror and issue date of the Warrants

The Final Terms provide information on the details of offer methods, offerors and issue dates that have been specified for the Warrants:

The Warrants will be offered over-the-counter on a continuous basis in one or several series that may have different features and/or the Warrants will be offered during a subscription period in one or several series that may have different features at a fixed price plus an issuing premium. The Issuer may expressly reserve the right to close the subscription period early and to scale subscriptions received or to make partial allocations or non-allocations. The subscriber will not receive a separate notification of their allocation other than the record in their securities account. When the respective subscription period has ended, the Warrants will be sold over-the-counter.

The offeror of the Warrants will be specified in the Final Terms.

The Warrants will be offered initially either at the start of over-the-counter selling or at the beginning of the subscription period.

Restrictions on the free transferability of the securities

The selling restrictions set out in Section "VI. Selling restrictions" must be observed when the Warrants are purchased, transferred or exercised.

Exercise date, valuation date

The date on which the exercise of the Warrants becomes effective (the "**Exercise Date**") is governed by No. 2 (3) of the Issue Specific Conditions in conjunction with Table 1 of the annex to the Issue Specific Conditions as completed by the respective Final Terms.

In the case of Warrants with a limited term, the valuation date of the Warrants is specified in Table 1 of the annex to the Issue Specific Conditions in the Final Terms to this Tripartite Base Prospectus and No. 2 of the Issue Specific Conditions as completed by the respective Final Terms.

In the case of open end Warrants, the respective Exercise Date as of which the effective exercise of Warrants takes effect is deemed to be the valuation date.

Cash amount, reference price on exercise, reference rate for currency conversion

Details of the cash amount that may be payable on exercise of the Warrants and the applicable reference price on exercise and reference rate for currency conversion (unless the intrinsic value is already expressed in the currency of the cash amount) are contained in No. 2 of the Issue Specific Conditions as completed by the respective Final Terms.

Stop-loss cash amount, stop-loss intrinsic value, stop-loss exchange rate, stop-loss payment date

In the case of Turbo Warrants for which the respective strike is not equal to the knock-out barrier details of the stop-loss cash amount that may be payable on the occurrence of a knock-out event and the applicable calculation of the stop-loss intrinsic value, the stop-loss exchange rate (unless

the intrinsic value is already expressed in the currency of the cash amount) and the stop-loss payment date are contained in No. 2a of the Issue Specific Conditions as completed by the respective Final Terms.

Regular income from the securities

The Warrants do not represent an entitlement to regular income such as interest or dividend payments.

Instead, the Warrants represent only an exercise right which investors can exercise with effect only as of the valuation date (European exercise) or at any time (American exercise). Please refer also to the information provided above under "Description of the rights, procedures for exercise, consequences of market disruption events".

Alternatively, the investor may sell the Warrants, but this is not governed by the terms and conditions; in particular, the Issuer has no obligation to the investor arising from the Warrants to repurchase the Warrants. Please refer also, particularly with regard to the method of calculation, to "Risk of the absence or non-functioning of a secondary market in the Warrants" in Section "I. Risk factors of Warrants".

Issue price, price calculation and costs and taxes on purchase

The initial issue price is specified in the relevant Final Terms.

Both the initial issue price and the bid and offered prices quoted by the Issuer during the term of the Warrants are calculated using theoretical pricing models. In this context, the bid and offered prices for the Warrants are determined on the basis, among other things, of the mathematical value of the Warrants, the costs of hedging and accepting risk and the expected return. Please see also the information provided under "Risk relating to the calculation of the Warrant prices" and "4. Risk of conflicts of interest", both in Section "I. Risk factors of Warrants".

Details of the nature and amount of specific costs or taxes and payments of sales commissions in connection with the purchase of the Warrants are set out, where applicable, in the relevant Final Terms.

Interests of natural and legal persons involved in the issue

Natural and legal persons appointed by the Issuer may be involved in the issue and the offer of the Warrants, e.g. as advisers, sales partners or market-makers, who may be pursuing their own interests which are opposed to the interests of the investors. This Securities Note contains a description of the potential conflicts of interest known to the Issuer at the date of the Securities Note under "4. Risk of conflicts of interest" in Section "I. Risk factors of Warrants". The Final Terms may also include a description of additional interests of third parties – including conflicts of interest – that are of material significance for the issue/offer.

Reasons for the offer

The reasons for the offer are making profit and/or hedging certain risks and the net proceeds from the issuance of Warrants presented in this Tripartite Base Prospectus will be used by the Issuer for its general business purposes.

Country-specific information and other selling information

The relevant Final Terms contain information with respect to any paying agents and central securities depositories as well as selling restrictions in the country in which the offer of the Warrants is made.

2. Explanation of the mechanism of the Warrants

Product No. 1: Description of classic (plain vanilla) Call or Put Warrants

Description of Call Warrants with European type of exercise

Call Warrants enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Call Warrant may expire worthless if the reference price of the underlying reaches or falls below the strike.

On the maturity date, the cash amount received by the investors is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike (converted into the settlement currency, where applicable). If the reference price is equal to or lower than the strike, the Call Warrant expires worthless.

Investors do not receive any regular income such as interest during the term of the Warrant. In addition, investors are not entitled to any rights with respect to or arising from the underlying (such as voting rights or dividends).

Description of Call Warrants with American type of exercise

Call Warrants enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Call Warrant may expire worthless if the reference price of the underlying reaches or falls below the strike.

Following effective exercise of the Warrants by an investor within the exercise period, the cash amount received by the investor on the payment date specified in the terms and conditions, generally within five (5) banking days at the head office of the Issuer and at the location of the central securities depository, is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike (converted into the settlement currency, where applicable). If the reference price is equal to or lower than the strike, the Call Warrant expires worthless.

Investors do not receive any regular income such as interest during the term of the Warrant. In addition, investors are not entitled to any rights with respect to or arising from the underlying (such as voting rights or dividends).

Description of Put Warrants with European type of exercise

Put Warrants enable investors to participate on a disproportionate (leveraged) basis in the negative performance of the underlying.

In return, however, they also participate on a leveraged basis in any positive performance of the underlying and in addition bear the risk that the Put Warrant may expire worthless if the reference price of the underlying reaches or exceeds the strike.

On the maturity date, the cash amount received by the investors is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is lower than the respective strike (converted into the settlement currency, where applicable). If the reference price is equal to or higher than the strike, the Put Warrant expires worthless.

Investors do not receive any regular income such as interest during the term of the Warrant. In addition, investors are not entitled to any rights with respect to or arising from the underlying (such as voting rights or dividends).

Description of Put Warrants with American type of exercise

Put Warrants enable investors to participate on a disproportionate (leveraged) basis in the negative performance of the underlying.

In return, however, they also participate on a leveraged basis in any positive performance of the underlying and in addition bear the risk that the Put Warrant may expire worthless if the reference price of the underlying reaches or exceeds the strike.

Following effective exercise of the Warrants by an investor within the exercise period, the cash amount received by the investor on the payment date specified in the terms and conditions, generally within five (5) banking days at the head office of the Issuer and at the location of the central securities depositary, is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is lower than the respective strike (converted into the settlement currency, where applicable). If the reference price is equal to or higher than the strike, the Put Warrant expires worthless.

Investors do not receive any regular income such as interest during the term of the Warrant. In addition, investors are not entitled to any rights with respect to or arising from the underlying (such as voting rights or dividends).

Product No. 2: Description of Turbo Bull or Turbo Bear Warrants with knock-out

Description of Turbo Bull Warrants with knock-out

Turbo Bull Warrants with knock-out enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Turbo Bull Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period or an observation date within the observation hours or at a particular observation time.

On the maturity date, the cash amount received by the investors is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike (converted into the settlement currency, where applicable).

If the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period or an observation date within the observation hours or at a particular observation time (knock-out time), the Turbo Bull Warrant with knock-out expires worthless.

Investors do not receive any regular income such as interest during the term of the Warrant. In addition, investors are not entitled to any rights with respect to or arising from the underlying (such as voting rights or dividends).

Description of Turbo Bear Warrants with knock-out

Turbo Bear Warrants with knock-out enable investors to participate on a disproportionate (leveraged) basis in the negative performance of the underlying.

In return, however, they also participate on a leveraged basis in any positive performance of the underlying and in addition bear the risk that the Turbo Bear Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or exceeds the knock-out barrier at any time during the observation period or an observation date within the observation hours or at a particular observation time.

On the maturity date, the cash amount received by the investors is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is lower than the respective strike (converted into the settlement currency, where applicable).

If the observation price of the underlying reaches or exceeds the knock-out barrier at any time during the observation period or an observation date within the observation hours or at a particular observation time (knock-out time), the Turbo Bear Warrant with knock-out expires worthless.

Investors do not receive any regular income such as interest during the term of the Warrant. In addition, investors are not entitled to any rights with respect to or arising from the underlying (such as voting rights or dividends).

Product No. 3: Description of Open End Turbo Warrants with knock-out

Description of Open End Turbo Bull Warrants with knock-out

Open End Turbo Warrants with knock-out enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Open End Turbo Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period or an observation date within the observation hours or at a particular observation time.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike (converted into the settlement currency, where applicable).

If the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period or an observation date within the observation hours or at a particular

observation time (knock-out time), the Open End Turbo Warrant with knock-out expires worthless.

Investors do not receive any regular income such as interest during the term of the Warrant. In addition, investors are not entitled to any rights with respect to or arising from the underlying (such as voting rights or dividends).

Description of Open End Turbo Bear Warrants with knock-out

Open End Turbo Warrants with knock-out enable investors to participate on a disproportionate (leveraged) basis in the negative performance of the underlying.

In return, however, they also participate on a leveraged basis in any positive performance of the underlying and in addition bear the risk that the Open End Turbo Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or exceeds the knock-out barrier at any time during the observation period or an observation date within the observation hours or at a particular observation time.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is lower than the respective strike (converted into the settlement currency, where applicable).

If the observation price of the underlying reaches or exceeds the knock-out barrier at any time during the observation period or an observation date within the observation hours or at a particular observation time (knock-out time), the Open End Turbo Warrant with knock-out expires worthless.

Investors do not receive any regular income such as interest during the term of the Warrant. In addition, investors are not entitled to any rights with respect to or arising from the underlying (such as voting rights or dividends).

Product No. 4: Description of Mini Future Warrants

Description of Mini Future Long Warrants

Mini Future Long Warrants with knock-out enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Mini Future Long Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period or an observation date within the observation hours or at a particular observation time.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike (converted into the settlement currency, where applicable).

If the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period or an observation date within the observation hours or at a particular observation time (knock-out time), the investor receives the stop-loss cash amount which is equal to the difference, multiplied by the multiplier, by which the hedge price is higher than the strike, provided that this amount is positive (converted into the settlement currency, where applicable). The hedge price is a price determined by the Issuer in its reasonable discretion within 120 minutes following the occurrence of the knock-out time as the level of the underlying in line with the market, calculated taking into account the computed proceeds from unwinding the corresponding hedging transactions. For this purpose, the hedge price is at least equal to the lowest price of the underlying determined within 120 minutes following the occurrence of the knock-out time. If the stop-loss cash amount is zero or negative, the Mini Future Long Warrant with knock-out expires worthless.

Investors do not receive any regular income such as interest during the term of the Warrant. In addition, investors are not entitled to any rights with respect to or arising from the underlying (such as voting rights or dividends).

Description of Mini Future Short Warrants

Mini Future Short Warrants with knock-out enable investors to participate on a disproportionate (leveraged) basis in the negative performance of the underlying.

In return, however, they also participate on a leveraged basis in any positive performance of the underlying and in addition bear the risk that the Mini Future Short Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or exceeds the knock-out barrier at any time during the observation period or an observation date within the observation hours or at a particular observation time.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is lower than the respective strike (converted into the settlement currency, where applicable).

If the observation price of the underlying reaches or exceeds the knock-out barrier at any time during the observation period or an observation date within the observation hours or at a particular observation time (knock-out time), the investor receives the stop-loss cash amount which is equal to the difference, multiplied by the multiplier, by which the hedge price is lower than the strike, provided that this amount is positive (converted into the settlement currency, where applicable). The hedge price is a price determined by the Issuer in its reasonable discretion within 120 minutes following the occurrence of the knock-out time as the level of the underlying in line with the market, calculated taking into account the computed proceeds from unwinding the corresponding hedging transactions. For this purpose, the hedge price is at least equal to the highest price of the underlying determined within 120 minutes following the occurrence of the knock-out time. If the stop-loss cash amount is zero or negative, the Mini Future Short Warrant with knock-out expires worthless.

Investors do not receive any regular income such as interest during the term of the Warrant. In addition, investors are not entitled to any rights with respect to or arising from the underlying (such as voting rights or dividends).

Product No. 5: Description of Capped Call or Capped Put Warrants

Description of Capped Call Warrants with European type of exercise

Capped Call Warrants enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying; the investor's participation in price gains of the underlying is limited by the cap.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Capped Call Warrant may expire worthless if the reference price of the underlying reaches or falls below the strike.

The cash amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike, but subject to a maximum of the difference, multiplied by the multiplier, between the cap and the strike (converted into the settlement currency, where applicable). If the reference price is equal to or lower than the strike, the Call Warrant expires worthless.

Investors do not receive any regular income such as interest during the term of the Warrant. In addition, investors are not entitled to any rights with respect to or arising from the underlying (such as voting rights or dividends).

Description of Capped Put Warrants with European type of exercise

Capped Put Warrants enable investors to participate on a disproportionate (leveraged) basis in the negative performance of the underlying; the investor's participation in price losses of the underlying is limited by the cap.

In return, however, they also participate on a leveraged basis in any positive performance of the underlying and in addition bear the risk that the Capped Put Warrant may expire worthless if the reference price of the underlying reaches or exceeds the strike.

The cash amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is lower than the respective strike, but subject to a maximum of the difference, multiplied by the multiplier, between the strike and the cap (converted into the settlement currency, where applicable). If the reference price is equal to or higher than the strike, the Put Warrant expires worthless.

Investors do not receive any regular income such as interest during the term of the Warrant. In addition, investors are not entitled to any rights with respect to or arising from the underlying (such as voting rights or dividends).

Product No. 6: Description of Straddle Warrants

Description of Straddle Warrants with European type of exercise

Straddle Warrants enable investors to participate on a disproportionate (leveraged) basis in the positive and negative performance of the underlying.

In return they bear the risk that the Straddle Warrant may expire worthless if the reference price of the underlying is equal to the strike.

The cash amount received by the investors on the maturity date is the absolute difference, multiplied by the multiplier, between the reference price of the underlying determined on the valuation date and the respective strike (converted into the settlement currency, where applicable). If the reference price is equal to the strike, the Straddle Warrant expires worthless.

Investors do not receive any regular income such as interest during the term of the Warrant. In addition, investors are not entitled to any rights with respect to or arising from the underlying (such as voting rights or dividends).

Product No. 7: Description of Digital Call or Digital Put Warrants

Description of Digital Call Warrants with European type of exercise

Digital Call Warrants enable investors, depending on the performance of the underlying, to obtain a specified cash amount equal to the digital target amount specified in the Final Terms multiplied by the multiplier.

In return they bear the risk that the Digital Call Warrant may expire worthless if the reference price of the underlying on the valuation date falls below the strike.

The cash amount received by investors on the maturity date is the digital target amount multiplied by the multiplier (converted into the settlement currency, where applicable). If the reference price on the valuation date is equal to or lower than the strike, the Digital Call Warrant expires worthless.

Investors do not receive any regular income such as interest during the term of the Warrant. In addition, investors are not entitled to any rights with respect to or arising from the underlying (such as voting rights or dividends).

Description of Digital Put Warrants with European type of exercise

Digital Put Warrants enable investors, depending on the performance of the underlying, to obtain a specified cash amount equal to the digital target amount specified in the Final Terms multiplied by the multiplier.

In return they bear the risk that the Put Warrant may expire worthless if the reference price of the underlying on the valuation date exceeds the strike.

The cash amount received by investors on the maturity date is the digital target amount multiplied by the multiplier (converted into the settlement currency, where applicable). If the reference price on the valuation date is equal to or higher than the strike, the Digital Put Warrant expires worthless.

Investors do not receive any regular income such as interest during the term of the Warrant. In addition, investors are not entitled to any rights with respect to or arising from the underlying (such as voting rights or dividends).

Product No. 8: Description of Barrier Warrants (Up-and-Out Call or Down-and-Out Put Warrants)

Description of Up-and-Out Call Warrants with European type of exercise

Up-and-Out Call Warrants enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Up-and-Out Call Warrant may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or exceeds the knock-out barrier at any time during the observation period or an observation date within the observation hours or at a particular observation time.

On the maturity date, the cash amount received by the investors is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike (converted into the settlement currency, where applicable).

If the observation price of the underlying reaches or exceeds the knock-out barrier at any time during the observation period or an observation date within the observation hours or at a particular observation time (knock-out time), the Up-and-Out Call Warrant expires worthless.

Investors do not receive any regular income such as interest during the term of the Warrant. In addition, investors are not entitled to any rights with respect to or arising from the underlying (such as voting rights or dividends).

Description of Up-and-Out Call Warrants with American type of exercise

Up-and-Out Call Warrants enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Up-and-Out Call Warrant may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or exceeds the knock-out barrier at any time during the observation period or an observation date within the observation hours or at a particular observation time.

Following effective exercise of the Warrants by an investor within the exercise period or at the latest on the maturity date, the cash amount received by the investor on the payment date specified in the terms and conditions, generally within five (5) banking days at the head office of the Issuer and at the location of the central securities depository, is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike (converted into the settlement currency, where applicable). If the observation price of the underlying reaches or exceeds the knock-out barrier at any time during the observation period or an observation date within the observation hours or at a particular observation time (knock-out time), or if the reference price is equal to or lower than the strike, the Up-and-Out Call Warrant expires worthless.

Investors do not receive any regular income such as interest during the term of the Warrant. In addition, investors are not entitled to any rights with respect to or arising from the underlying (such as voting rights or dividends).

Description of Down-and-Out Put Warrants with European type of exercise

Down-and-Out Put Warrants enable investors to participate on a disproportionate (leveraged) basis in the negative performance of the underlying.

In return, however, they also participate on a leveraged basis in any positive performance of the underlying and in addition bear the risk that the Down-and-Out Put Warrant may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period or an observation date within the observation hours or at a particular observation time.

On the maturity date, the cash amount received by the investors is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is lower than the respective strike (converted into the settlement currency, where applicable).

If the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period or an observation date within the observation hours or at a particular observation time (knock-out time), the Down-and-Out Put Warrant expires worthless.

Investors do not receive any regular income such as interest during the term of the Warrant. In addition, investors are not entitled to any rights with respect to or arising from the underlying (such as voting rights or dividends).

Description of Down-and-Out Put Warrants with American type of exercise

Down-and-Out Put Warrants enable investors to participate on a disproportionate (leveraged) basis in the negative performance of the underlying.

In return, however, they also participate on a leveraged basis in any positive performance of the underlying and in addition bear the risk that the Down-and-Out Put Warrant may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period or an observation date within the observation hours or at a particular observation time.

Following effective exercise of the Warrants by an investor within the exercise period or at the latest on the maturity date, the cash amount received by the investor on the payment date specified in the terms and conditions, generally within five (5) banking days at the head office of the Issuer and at the location of the central securities depository, is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is lower than the respective strike (converted into the settlement currency, where applicable). If the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period or an observation date within the observation hours or at a particular observation time (knock-out time), or if the reference price is equal to or higher than the strike, the Down-and-Out Put Warrant expires worthless.

Investors do not receive any regular income such as interest during the term of the Warrant. In addition, investors are not entitled to any rights with respect to or arising from the underlying (such as voting rights or dividends).

III. TERMS AND CONDITIONS

*The Terms and Conditions consist of the following parts (referred to together as the "**Terms and Conditions**"):*

- (a) the Issue Specific Conditions as set out under III.1 (the "**Issue Specific Conditions**"), which comprise*
 - (i) Part A. Product Specific Conditions; and*
 - (ii) Part B. Underlying Specific Conditions; together with*
- (b) the General Conditions as set out under III.2 (the "**General Conditions**").*

*The respective Final Terms will (i) replicate the applicable optional Issue Specific Conditions and (ii) contain new issue specific information in connection with these applicable Issue Specific Conditions. New information shall be included in the Final Terms solely in compliance with the requirements for Category B and Category C information items in Annex XX of the Prospectus Regulation. With respect to each individual series of Warrants, the Issue Specific Conditions, in the form in which they are replicated in the Final Terms, and the General Conditions shall contain the Terms and Conditions applicable to the respective series of Warrants (the "**Conditions**"). The Issue Specific Conditions, in the form in which they are replicated in the Final Terms, must be read together with the General Conditions.*

The Issue Specific Conditions, in the form in which they are replicated in the Final Terms, and the General Conditions shall be appended to each global note representing the respective series of Warrants.

1. Issue Specific Conditions

Part A. Product Specific Conditions

[in the case of classic (plain vanilla) Call or Put Warrants (Product No. 1), insert:

No. 1 Option Right

Citigroup Global Markets Deutschland AG, Frankfurt am Main (the "**Issuer**") hereby grants the holder (each a "**Warrant Holder**") of Call or Put Warrants (the "**Warrants**"), based on the Underlying as specified in detail in each case in **Table 1** and **Table 2** of the Annex to the Issue Specific Conditions, the right (the "**Option Right**") to require the Issuer to pay the Cash Amount (No. 2 (1) of the Issue Specific Conditions) or the Termination Amount (No. 2 of the General Conditions) in accordance with these Terms and Conditions.

No. 2 Cash Amount; Definitions

- (1) The "**Cash Amount**" for each Warrant, subject to the early redemption of the Warrants by the Issuer (No. 2 of the General Conditions), shall be the Intrinsic Value of a Warrant, if the latter is already expressed in the Settlement Currency, or the Intrinsic Value of a Warrant converted into the Settlement Currency using the Reference Rate for Currency Conversion.
- (2) The "**Intrinsic Value**" of a Warrant shall be the difference, expressed in the Reference Currency and multiplied by the Multiplier, by which the Reference Price of the Underlying determined on the Valuation Date is higher than (Call Warrants) or lower than (Put Warrants) the respective Strike.
- (3) The following definitions shall apply in these Terms and Conditions:

No. 3

Exercise of the Option Rights

I. Applicable in the case of Warrants with a European Type of Exercise (as indicated for the relevant series of Warrants in Table 1 of the Annex to the Issue Specific Conditions):

- (1) The Option Right may be exercised by the Warrant Holder only with effect as of the Valuation Date for the respective Warrant. If the Cash Amount results in a positive value, the Option Right attaching to the respective Warrant shall be deemed to be exercised on the Valuation Date without further preconditions and without the submission of an explicit Exercise Notice (referred to in the following as "**Automatic Exercise**").
- (2) The Issuer will transfer any positive Cash Amount to the Central Securities Depository on the Maturity Date for the credit of the Warrant Holders registered with the Central Securities Depository at the close of business on the preceding Banking Day at the head office of the Central Securities Depository. Upon the transfer of the Cash Amount to the Central Securities

Depository, the Issuer shall be released from its payment obligations to the extent of the amount paid.

- (3) The Central Securities Depository has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer of the Cash Amount or of the fair market value is not possible within three months after the Maturity Date ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the [Frankfurt am Main][●] Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.
- (4) All taxes or other levies that may be incurred in connection with the payment of the Cash Amount or of the fair market value shall be borne by the Warrant Holders.
- (5) If the Valuation Date falls between the date on which the Issuer determines that there are grounds for making an Adjustment in accordance with No. 6 of the Issue Specific Conditions and the date on which the Issuer has given notice of the Adjustments (referred to in the following as the "**Adjustment Period**"), the Valuation Date shall be the [first][●] Banking Day common to the head office of the Issuer and to the location of the Central Securities Depository following the date on which the Issuer has given notice of the Adjustments for the Valuation Date. The calculation of the Cash Amount in accordance with No. 2 of the Issue Specific Conditions shall be based on the relevant Reference Price of the Underlying on the Valuation Date together with the Adjustments made by the Issuer.
- (6) The Cash Amount and the fair market value shall be paid in the Settlement Currency without a requirement for the Issuer to give notice of any kind.
- (7) A declaration shall be deemed to have been made automatically that the person entitled to the rights arising from the Warrants is not a US person (as defined in Regulation S pursuant to the United States Securities Act of 1933) and that that person has agreed with the Issuer and, if the latter is not also the seller, with the seller of these Warrants (a) not to offer, sell, resell or deliver the Warrants acquired at any time directly or indirectly in the United States or to or for the account of or for the benefit of US persons, (b) not to purchase Warrants for the account of or for the benefit of US persons and (c) not to offer, sell, resell or deliver Warrants (acquired in any other manner) directly or indirectly in the United States or to or for the account of or for the benefit of US persons.

II. Applicable in the case of Warrants with an American Type of Exercise (as indicated for the respective series of Warrants in Table 1 of the Annex to the Issue Specific Conditions):

- (1) For the exercise of the Warrants to be effective, the holder of the respective Warrant must comply with the preconditions set out below with respect to the relevant Exercise Agent within the Exercise Period for the respective Warrant. The Exercise Period for the Warrants shall begin in each case on the [second][●] Banking Day after the Issue Date and shall end in each case at 10.00 a.m. (local time at the location of the relevant Exercise Agent) on the Valuation Date or, if the Reference Price of the Underlying is usually determined before [11.00][●] [a.m.][p.m.] (local time at the location of the relevant Exercise Agent), the Exercise Period ends at 10.00 a.m. (local time at the location of the relevant Exercise Agent)

on the last Trading Day preceding the last Valuation Date. The provisions of paragraphs (2) to (4) of this No. 3 II shall also apply.

If the Option Rights are exercised via the Exercise Agent in [the **Federal Republic of Germany**][*insert relevant Offer State: ●*], the Warrant Holder must submit to [Citigroup Global Markets Deutschland AG][*●*] (the "**Exercise Agent**") at the following address:

[Citigroup Global Markets Deutschland AG
Attn. Stockevents
Frankfurter Welle
Reuterweg 16
D-60323 Frankfurt am Main
Federal Republic of Germany][*●*]

a properly completed ["**Frankfurt**"][*●*] Exercise Notice for the respective [WKN (German Securities Identification Number)][ISIN (International Securities Identification Number)] [*insert other identifier: ●*] using the form available from the Issuer (referred to in the following as "**Exercise Notice**") and must have transferred the Warrants which it is intended to exercise

- to the Issuer crediting its account [No. 7098 at Clearstream Frankfurt or its account No. 67098 at Clearstream Luxembourg][*●*][or
- to Euroclear; and the Issuer must have received confirmation from Euroclear that the Warrants were booked to an account at Euroclear for the benefit of the Warrant Holder and that Euroclear has arranged for the Warrants to be transferred irrevocably to one of the Issuer's two accounts referred to above].

The Exercise Notice must specify:

- the [WKN (German Securities Identification Number)][ISIN (International Securities Identification Number)] [*insert other identifier: ●*] of the Warrant series and the number of Warrants intended to be exercised and
- the account of the Warrant Holder with a bank in [the Federal Republic of Germany][*●*] into which the Cash Amount is to be paid. If the Exercise Notice does not specify an account or specifies an account outside [the Federal Republic of Germany][*●*], a check for the Cash Amount will be sent to the Warrant Holder at his risk by normal post to the address given in the Exercise Notice within [five (5)][*●*] Banking Days in [Frankfurt am Main] [and] [*●*] following the Valuation Date.
- Confirmation must also be given that the person entitled to the rights arising from the Warrants is not a US person (as defined in Regulation S pursuant to the United States Securities Act of 1933) and that that person has agreed with the Issuer and, if the latter is not also the seller, with the seller of these Warrants (a) not to offer, sell, resell or deliver the Warrants acquired at any time directly or indirectly in the United States or to or for the account of or for the benefit of US persons, (b) not to purchase Warrants for the account of or for the benefit of US persons and (c) not to offer, sell, resell or deliver Warrants (acquired in any other manner) directly or indirectly in the United States or to or for the account of or for the benefit of US persons.

- (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within [five (5)][●] Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return any payments already made to the Warrant Holder without interest at his risk and expense; in this event the Exercise Notice shall not become effective.
- (3) Option Rights that have not been exercised effectively in accordance with paragraphs (1) and (2) shall be deemed, subject to early termination by means of extraordinary Termination pursuant to No. 2 of the General Conditions, to be exercised on the final day of the Exercise Period without further preconditions, if the Cash Amount is positive ("**Automatic Exercise**"). In the event of Automatic Exercise, the confirmation referred to in the last subparagraph of paragraph (1) shall be deemed to have been given automatically. In any other circumstances, all rights arising from the Warrants that have not been exercised effectively by then shall expire on that day and the Warrants shall become invalid.
- (4) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne by the Warrant Holder. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.
- (5) The Issuer will transfer any Cash Amount to the Central Securities Depository on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Central Securities Depository at the close of business on the preceding Banking Day at the head office of the Central Securities Depository. Upon the transfer of the Cash Amount to the Central Securities Depository, the Issuer shall be released from its payment obligations to the extent of the amount paid. The Central Securities Depository has given an undertaking to the Issuer to make a corresponding onward transfer.

No. 4
(not applicable)]

[in the case of Turbo Bull or Bear Warrants with Knock-Out (Product No. 2), insert:

No. 1
Option Right

Citigroup Global Markets Deutschland AG, Frankfurt am Main (the "**Issuer**") hereby grants the holder (each a "**Warrant Holder**") of [Turbo Bull or Bear][Limited Speeder Bull or Bear] Warrants with Knock-Out (the "**Warrants**"), based on the Underlying as specified in detail in each case in **Table 1** and **Table 2** of the Annex to the Issue Specific Conditions, the right (the "**Option Right**") to require the Issuer to pay the Cash Amount (No. 2 (1) of the Issue Specific Conditions) or the Termination Amount (No. 2 of the General Conditions) in accordance with these Terms and Conditions.

No. 2
Cash Amount; Definitions

- (1) The "**Cash Amount**" for each Warrant, subject to the occurrence of a Knock-Out Event (No. 2a of the Issue Specific Conditions) or the early redemption of the Warrants by the Issuer (No. 2 of the General Conditions), shall be the Intrinsic Value of a Warrant, if the latter is already expressed in the Settlement Currency, or the Intrinsic Value of a Warrant converted into the Settlement Currency using the Reference Rate for Currency Conversion.
- (2) The "**Intrinsic Value**" of a Warrant shall be the difference, expressed in the Reference Currency and multiplied by the Multiplier, by which the Reference Price of the Underlying determined on the Valuation Date is higher than (Bull Warrants) or lower than (Bear Warrants) the respective Strike.

No. 2a
Knock-Out

If the Observation Price of the Underlying (No. 5 (2) of the Issue Specific Conditions) expressed in the Reference Currency is equal to or falls below (Bull Warrants) or is equal to or exceeds (Bear Warrants) the Knock-Out Barrier of the Warrant specified in Table 1 of the Annex to the Issue Specific Conditions (the "**Knock-Out Event**") [[during the Observation Period][on [the][an] Observation Date] (No. 2 (3) of the Issue Specific Conditions) during the Observation Hours (No. 5 (2) of the Issue Specific Conditions) at any time][at the Observation Time (No. 2 (3) of the Issue Specific Conditions)] (referred to in the following as the "**Knock-Out Time**"), the term of the Warrants shall end early at the Knock-Out Time. In this event, the Cash Amount for each Warrant shall be equal to the Knock-Out Cash Amount (No. 2 (3) of the Issue Specific Conditions). The Issuer will give notice without delay in accordance with No. 4 of the General Conditions that the price of the Underlying has reached or fallen below (Bull Warrants) or reached or exceeded (Bear Warrants) the Knock-Out Barrier.

No. 3

Exercise of the Option Rights

I. Applicable in the case of Warrants with a European Type of Exercise (as indicated for the respective series of Warrants in Table 1 of the Annex to the Issue Specific Conditions):

- (1) The Option Right may be exercised by the Warrant Holder only with effect as of the Valuation Date for the respective Warrant.

If the Cash Amount results in a positive value, the Option Right attaching to the respective Warrant shall be deemed to be exercised on the Valuation Date without further preconditions and without the submission of an explicit Exercise Notice (referred to in the following as "**Automatic Exercise**").

- (2) The Issuer will transfer any positive Cash Amount to the Central Securities Depository on the Maturity Date for the credit of the Warrant Holders registered with the Central Securities Depository at the close of business on the preceding Banking Day at the head office of the Central Securities Depository. Upon the transfer of the Cash Amount to the Central Securities Depository, the Issuer shall be released from its payment obligations to the extent of the amount paid.
- (3) The Central Securities Depository has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer of the Cash Amount or of the fair market value is not possible within three months after the Maturity Date ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the [Frankfurt am Main][●] Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.
- (4) All taxes or other levies that may be incurred in connection with the payment of the Cash Amount or of the fair market value shall be borne by the Warrant Holders.
- (5) If the Valuation Date falls between the date on which the Issuer determines that there are grounds for making an Adjustment in accordance with No. 6 of the Issue Specific Conditions and the date on which the Issuer has given notice of the Adjustments (referred to in the following as the "**Adjustment Period**"), the Valuation Date shall be the [first][●] Banking Day common to the head office of the Issuer and to the location of the Central Securities Depository following the date on which the Issuer has given notice of the Adjustments for the Valuation Date. The calculation of the Cash Amount in accordance with No. 2 of the Issue Specific Conditions shall be based on the relevant Reference Price of the Underlying on the Valuation Date together with the Adjustments made by the Issuer.
- (6) The Cash Amount and the fair market value shall be paid in the Settlement Currency without a requirement for the Issuer to give notice of any kind.
- (7) A declaration shall be deemed to have been made automatically that the person entitled to the rights arising from the Warrants is not a US person (as defined in Regulation S pursuant to the United States Securities Act of 1933) and that that person has agreed with the Issuer and, if the latter is not also the seller, with the seller of these Warrants (a) not to offer, sell, resell

or deliver the Warrants acquired at any time directly or indirectly in the United States or to or for the account of or for the benefit of US persons, (b) not to purchase Warrants for the account of or for the benefit of US persons and (c) not to offer, sell, resell or deliver Warrants (acquired in any other manner) directly or indirectly in the United States or to or for the account of or for the benefit of US persons.

II. Applicable in the case of Warrants with an American Type of Exercise (as indicated for the respective series of Warrants in Table 1 of the Annex to the Issue Specific Conditions):

- (1) For the exercise of the Warrants to be effective, the holder of the respective Warrant must comply with the preconditions set out below with respect to the relevant Exercise Agent within the Exercise Period for the respective Warrant. The Exercise Period for the Warrants shall begin in each case on the [second][●] Banking Day after the Issue Date and shall end in each case at 10.00 a.m. (local time at the location of the relevant Exercise Agent) on the Valuation Date or, if the Reference Price of the Underlying is usually determined before [11.00][●] [a.m.][p.m.] (local time at the location of the relevant Exercise Agent), the Exercise Period ends at 10.00 a.m. (local time at the location of the relevant Exercise Agent) on the last Trading Day preceding the last Valuation Date. The provisions of paragraphs (2) to (4) of this No. 3 II shall also apply.

If the Option Rights are exercised via the Exercise Agent in [the **Federal Republic of Germany**][insert relevant Offer State: ●], the Warrant Holder must submit to [Citigroup Global Markets Deutschland AG][●] (the "**Exercise Agent**") at the following address:

[Citigroup Global Markets Deutschland AG
Attn. Stockevents
Frankfurter Welle
Reuterweg 16
D-60323 Frankfurt am Main
Federal Republic of Germany][●]

a properly completed ["**Frankfurt**"][●] Exercise Notice for the respective [WKN (German Securities Identification Number)][ISIN (International Securities Identification Number)] [insert other identifier: ●] using the form available from the Issuer (referred to in the following as "**Exercise Notice**") and must have transferred the Warrants which it is intended to exercise

- to the Issuer crediting its account [No. 7098 at Clearstream Frankfurt or its account No. 67098 at Clearstream Luxembourg][●][or
- to Euroclear; and the Issuer must have received confirmation from Euroclear that the Warrants were booked to an account at Euroclear for the benefit of the Warrant Holder and that Euroclear has arranged for the Warrants to be transferred irrevocably to one of the Issuer's two accounts referred to above].

The Exercise Notice must specify:

- the [WKN (German Securities Identification Number)][ISIN (International Securities Identification Number)] [insert other identifier: ●] of the Warrant series and the number of Warrants intended to be exercised and

- the account of the Warrant Holder with a bank in [the Federal Republic of Germany][●] into which the Cash Amount is to be paid. If the Exercise Notice does not specify an account or specifies an account outside [the Federal Republic of Germany][●], a check for the Cash Amount will be sent to the Warrant Holder at his risk by normal post to the address given in the Exercise Notice within [five (5)][●] Banking Days in [Frankfurt am Main] [and] [●] following the Valuation Date.
 - Confirmation must also be given that the person entitled to the rights arising from the Warrants is not a US person (as defined in Regulation S pursuant to the United States Securities Act of 1933) and that that person has agreed with the Issuer and, if the latter is not also the seller, with the seller of these Warrants (a) not to offer, sell, resell or deliver the Warrants acquired at any time directly or indirectly in the United States or to or for the account of or for the benefit of US persons, (b) not to purchase Warrants for the account of or for the benefit of US persons and (c) not to offer, sell, resell or deliver Warrants (acquired in any other manner) directly or indirectly in the United States or to or for the account of or for the benefit of US persons.
- (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within [five (5)][●] Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return any payments already made to the Warrant Holder without interest at his risk and expense; in this event the Exercise Notice shall not become effective.
- (3) Option Rights that have not been exercised effectively in accordance with paragraphs (1) and (2) shall be deemed, subject to early termination by means of extraordinary Termination pursuant to No. 2 of the General Conditions, to be exercised on the final day of the Exercise Period without further preconditions, if the Cash Amount is positive ("**Automatic Exercise**"). In the event of Automatic Exercise, the confirmation referred to in the last subparagraph of paragraph (1) shall be deemed to have been given automatically. In any other circumstances, all rights arising from the Warrants that have not been exercised effectively by then shall expire on that day and the Warrants shall become invalid.
- (4) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne by the Warrant Holder.

The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.

- (5) The Issuer will transfer any Cash Amount to the Central Securities Depository on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Central Securities Depository at the close of business on the preceding Banking Day at the head office of the Central Securities Depository. Upon the transfer of the Cash Amount to the Central Securities Depository, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Central Securities Depository has given an undertaking to the Issuer to make a corresponding onward transfer.

No. 4
(not applicable)

[in the case of Open End Turbo Warrants with Knock-Out (Product No. 3), insert:

No. 1
Option Right

Citigroup Global Markets Deutschland AG, Frankfurt am Main (the "**Issuer**") hereby grants the holder (each a "**Warrant Holder**") of [Open End Bull or Bear Turbo][BEST Speeder Bull or Bear] Warrants with Knock-Out (the "**Warrants**"), based on the Underlying as specified in detail in each case in **Table 1** and **Table 2** of the Annex to the Issue Specific Conditions, the right (the "**Option Right**") to require the Issuer to pay the Cash Amount (No. 2 (1) of the Issue Specific Conditions) or the Termination Amount (No. 2 of the General Conditions and/or No. 4 of the Issue Specific Conditions) in accordance with these Terms and Conditions.

No. 2
Cash Amount; Definitions

- (1) The "**Cash Amount**" for each Warrant, subject to the occurrence of a Knock-Out Event (No. 2a of the Issue Specific Conditions) or the early redemption or Termination of the Warrants by the Issuer (No. 2 of the General Conditions and/or No. 4 of the Issue Specific Conditions), shall be the Intrinsic Value of a Warrant, if the latter is already expressed in the Settlement Currency, or the Intrinsic Value of a Warrant converted into the Settlement Currency using the Reference Rate for Currency Conversion.
- (2) The "**Intrinsic Value**" of a Warrant shall be the difference, expressed in the Reference Currency and multiplied by the Multiplier, by which the Reference Price of the Underlying determined on the Valuation Date is higher than (Bull Warrants) or lower than (Bear Warrants) the respective Strike.
- (3) The following definitions shall apply in these Terms and Conditions:

No. 2a
Knock-Out

If the Observation Price of the Underlying (No. 5 (2) of the Issue Specific Conditions) expressed in the Reference Currency is equal to or falls below (Bull Warrants) or is equal to or exceeds (Bear Warrants) the Knock-Out Barrier (No. 2b (2) of the Issue Specific Conditions) of the Warrant (the "**Knock-Out Event**") [[during the Observation Period][on [the][an] Observation Date] (No. 2 (3) of the Issue Specific Conditions) during the Observation Hours (No. 5 (2) of the Issue Specific Conditions) at any time][at the Observation Time (No. 2 (3) of the Issue Specific Conditions)] (referred to in the following as the "**Knock-Out Time**"), the term of the Warrants shall end early at the Knock-Out Time.

In this event, the Cash Amount for each Warrant shall be equal to the Knock-Out Cash Amount (No. 2 (3) of the Issue Specific Conditions).

The Issuer will give notice without delay in accordance with No. 4 of the General Conditions that the price of the Underlying has reached or fallen below (Bull Warrants) or reached or exceeded (Bear Warrants) the Knock-Out Barrier.

No. 2b
Adjustment Amount

- (1) The respective "**Strike**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Strike shall be adjusted on each calendar day during a Financing Level Adjustment Period by the Adjustment Amount calculated by the Issuer for that relevant calendar day. The Adjustment Amount for the Warrants may vary. The "**Adjustment Amount**" of a series applying for each calendar day during the respective Financing Level Adjustment Period shall be equal to the result obtained by multiplying the Strike applying on the Adjustment Date falling in that Financing Level Adjustment Period by the Adjustment Rate applicable in that Financing Level Adjustment Period and converted to the amount for one calendar day using the actual/360 day count convention. The resulting Strike for each calendar day shall be rounded to three decimal places in accordance with normal commercial practice, but the calculation of the next following Strike in each case shall be based on the unrounded Strike for the preceding day. The calculations for the first Financing Level Adjustment Period shall be based on the Strike on the Issue Date.
- (2) The respective "**Knock-Out Barrier**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Knock-Out Barrier shall be determined by the Issuer on each calendar day in such a way that it corresponds to the respective Strike adjusted in accordance with the preceding paragraph.
- (3) In the event of dividend payments or other cash distributions equivalent to dividend payments in respect of the Underlying (applicable in the case of shares as the Underlying) or in respect of the shares on which the Underlying is based (applicable in the case of stock indices as the Underlying), the Strike applying in each case and, where relevant, the Knock-Out Barrier shall be adjusted in accordance with No. 2 (3) of the Issue Specific Conditions (Adjustment due to Dividend Payments).

[(4) The "**Quanto Net Amount**" shall correspond to the Initial Quanto Net Amount specified in Table 1 of the Annex to the Issue Specific Conditions (the "**Initial Quanto Net Amount**"). The Issuer shall be entitled to adjust the Quanto Net Amount with effect as of each [Banking Day][●], if in the reasonable discretion of the Issuer this is made necessary by a change in the costs or income accruing to the Issuer as a result of hedging currency risks, taking account of the rates of interest for the Reference Currency and the Settlement Currency at which the currency hedging has been arranged, the volatility of the Underlying or of the exchange rate between the Reference Currency and the Settlement Currency, and the correlation between the price of the Underlying and the development of the exchange rate. Notice of the Adjustment of the Quanto Net Amount and of the date on which the Adjustment becomes effective shall be given in accordance with No. 4 of the General Conditions. All references to the Quanto Net Amount contained in these Terms and Conditions shall be deemed to be references to the adjusted Quanto Net Amount from the date on which the Adjustment becomes effective.]

No. 3

Exercise of the Option Rights

(1) The Warrants may be exercised by the Warrant Holder only with effect as of an Exercise Date in accordance with No. 2 (3) of the Issue Specific Conditions. For the exercise of the Warrants to be effective, the holder of the respective Warrant must comply with the preconditions set out below with respect to the relevant Exercise Agent at the latest by 10.00 a.m. (local time at the location of the relevant Exercise Agent) on the Exercise Date. The provisions of paragraphs (2) to (4) of this No. 3 shall also apply.

If the Option Rights are exercised via the Exercise Agent in [the **Federal Republic of Germany**][*insert relevant Offer State: ●*], the Warrant Holder must submit to [Citigroup Global Markets Deutschland AG][●] (the "**Exercise Agent**") at the following address:

[Citigroup Global Markets Deutschland AG
Attn. Stockevents
Frankfurter Welle
Reuterweg 16
D-60323 Frankfurt am Main
Federal Republic of Germany][●]

a properly completed ["**Frankfurt**"][●] Exercise Notice for the respective [WKN (German Securities Identification Number)][ISIN (International Securities Identification Number)] [*insert other identifier: ●*] using the form available from the Issuer (referred to in the following as "**Exercise Notice**") and must have transferred the Warrants which it is intended to exercise

- to the Issuer crediting its account [No. 7098 at Clearstream Frankfurt or its account No. 67098 at Clearstream Luxembourg][●] or
- to Euroclear; and the Issuer must have received confirmation from Euroclear that the Warrants were booked to an account at Euroclear for the benefit of the Warrant

Holder and that Euroclear has arranged for the Warrants to be transferred irrevocably to one of the Issuer's two accounts referred to above].

The Exercise Notice must specify:

- the [WKN (German Securities Identification Number)][ISIN (International Securities Identification Number)] [*insert other identifier: ●*] of the Warrant series and the number of Warrants intended to be exercised and
 - the account of the Warrant Holder with a bank in [the Federal Republic of Germany][●] into which the Cash Amount is to be paid. If the Exercise Notice does not specify an account or specifies an account outside [the Federal Republic of Germany][●], a check for the Cash Amount will be sent to the Warrant Holder at his risk by normal post to the address given in the Exercise Notice within [five (5)][●] Banking Days in [Frankfurt am Main] [and] [●] following the Valuation Date.
 - Confirmation must also be given that the person entitled to the rights arising from the Warrants is not a US person (as defined in Regulation S pursuant to the United States Securities Act of 1933) and that that person has agreed with the Issuer and, if the latter is not also the seller, with the seller of these Warrants (a) not to offer, sell, resell or deliver the Warrants acquired at any time directly or indirectly in the United States or to or for the account of or for the benefit of US persons, (b) not to purchase Warrants for the account of or for the benefit of US persons and (c) not to offer, sell, resell or deliver Warrants (acquired in any other manner) directly or indirectly in the United States or to or for the account of or for the benefit of US persons.
- (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within [five (5)][●] Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return any payments already made to the Warrant Holder without interest at his risk and expense; in this event the Exercise Notice shall not become effective.
- (3) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne by the Warrant Holder. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.
- (4) The Issuer will transfer any Cash Amount to the Central Securities Depository on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Central Securities Depository at the close of business on the preceding Banking Day at the head office of the Central Securities Depository. Upon the transfer of the Cash Amount to the Central Securities Depository, the Issuer shall be released from its payment obligations to the extent of the amount paid. The Central Securities Depository has given an undertaking to the Issuer to make a corresponding onward transfer.

No. 4
Termination

- (1) The Issuer shall have the right to terminate all of the Warrants of a series during their term with a notice period of 4 weeks by giving notice in accordance with No. 4 of the General Conditions with effect as of the Termination Date specified in the notice (the "**Termination Date**"). Termination in accordance with this No. 4 may not be effected earlier than 3 months after the Issue Date. All Termination Notices issued pursuant to this No. 4 are irrevocable and must specify the Termination Date. The Termination shall become effective on the date specified in the announcement of the notice. For the purposes of calculating the Cash Amount in accordance with No. 2 of the Issue Specific Conditions, the date on which the Termination becomes effective shall be deemed to be the Valuation Date within the meaning of these Terms and Conditions.
- (2) In the event of Termination by the Issuer, No. 3 of the Issue Specific Conditions shall not apply. The Exercise Date within the meaning of No. 2 (3) of the Issue Specific Conditions shall in this case be the date on which the Termination becomes effective. The Payment Date shall be the Payment Date upon Termination in accordance with paragraph (3) of this No. 4.
- (3) In this event, the Issuer will transfer the Cash Amount for all of the Warrants affected by the Termination to the Central Securities Depository within [five (5)][●] Banking Days at the head office of the Issuer and at the location of the Central Securities Depository after the Termination Date for the credit of the Warrant Holders registered with the Central Securities Depository on the [second][●] day following the Termination Date (referred to in the following as "**Payment Date upon Termination**"). Upon the transfer of the Cash Amount to the Central Securities Depository, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Central Securities Depository has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer is not possible within three months after the Payment Date upon Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the [Frankfurt am Main][●] Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.]

[in the case of Mini Future Warrants (Product No. 4), insert:

No. 1
Option Right

Citigroup Global Markets Deutschland AG, Frankfurt am Main (the "**Issuer**") hereby grants the holder (each a "**Warrant Holder**") of [Mini Future][Open End Speeder Bull or Bear] Warrants (the "**Warrants**"), based on the Underlying as specified in detail in each case in **Table 1** and **Table 2** of the Annex to the Issue Specific Conditions, the right (the "**Option Right**") to require the Issuer to pay the Cash Amount (No. 2 (1) of the Issue Specific Conditions) or the Stop-Loss Cash Amount (No. 2a (2) of the Issue Specific Conditions) or the Termination Amount (No. 2 of the General Conditions and/or No. 4 of the Issue Specific Conditions) in accordance with these Terms and Conditions.

No. 2
Cash Amount; Definitions

- (1) The "**Cash Amount**" for each Warrant, subject to the occurrence of a Knock-Out Event (No. 2a (1) of the Issue Specific Conditions) or the early redemption or Termination of the Warrants by the Issuer (No. 2 of the General Conditions and/or No. 4 of the Issue Specific Conditions), shall be the Intrinsic Value of a Warrant, if the latter is already expressed in the Settlement Currency, or the Intrinsic Value of a Warrant converted into the Settlement Currency using the Reference Rate for Currency Conversion.
- (2) The "**Intrinsic Value**" of a Warrant shall be the difference, expressed in the Reference Currency and multiplied by the Multiplier, by which the Reference Price of the Underlying determined on the Valuation Date is higher than [(Mini Long)] [(Open End Speeder)] or lower than [(Mini Short)] [(Open End Speeder Bear)] the respective Strike.

No. 2a
Knock-Out

- (1) If the Observation Price of the Underlying (No. 5 (2) of the Issue Specific Conditions) expressed in the Reference Currency is equal to or falls below (Mini Long) or is equal to or exceeds (Mini Short) the Knock-Out Barrier (No. 2b (2) of the Issue Specific Conditions) of the Warrant (the "**Knock-Out Event**") [[during the Observation Period][on [the][an] Observation Date] (No. 2 (3) of the Issue Specific Conditions) during the Observation Hours (No. 5 (2) of the Issue Specific Conditions) at any time][at the Observation Time (No. 2 (3) of the Issue Specific Conditions)] (referred to in the following as the "**Knock-Out Time**"), the term of the Warrants shall end early at the Knock-Out Time. If the Stop-Loss Cash Amount in accordance with paragraph (2) of this No. 2a is positive, the Warrant Holder shall receive the Stop-Loss Cash Amount. The Issuer will give notice without delay in accordance with No. 4 of the General Conditions that the price of the Underlying has reached or fallen below (Mini Long) or reached or exceeded (Mini Short) the Knock-Out Barrier.
- (2) If the term of the Warrants ends early as a result of a Knock-Out Event, the Issuer shall pay any Stop-Loss Cash Amount to the Warrant Holders.

The "**Stop-Loss Cash Amount**" shall be either the Stop-Loss Intrinsic Value, if the latter is already expressed in the Settlement Currency, or the Stop-Loss Intrinsic Value converted into the Settlement Currency using the Stop-Loss Exchange Rate.

The "**Stop-Loss Intrinsic Value**" shall be the difference, expressed in the Reference Currency and multiplied by the Multiplier, by which the Hedge Price is higher than (Mini Long) or lower than (Mini Short) the Strike.

The "**Hedge Price**" shall be a price determined by the Issuer in its reasonable discretion within 120 minutes following the occurrence of the Knock-Out Time as the level of the Underlying in line with the market, calculated taking into account the computed proceeds from unwinding the corresponding hedging transactions. For this purpose, the Hedge Price shall be at least equal to the lowest (Mini Long) or highest (Mini Short) price of the Underlying determined within 120 minutes following the occurrence of the Knock-Out Time.

The "**Stop-Loss Exchange Rate**" shall be the exchange rate determined by the Issuer in its reasonable discretion within a maximum of 120 minutes following the occurrence of the Knock-Out Time in place of the Reference Rate for Currency Conversion.

In the event that the Knock-Out Time occurs less than 120 minutes before the end of the normal trading hours of the Underlying, the time available in accordance with the preceding paragraph for the determination of the Hedge Price shall be extended accordingly from the start of the next following exchange session.

If Market Disruption Events within the meaning of No. 7 of the Issue Specific Conditions occur during the time available to the Issuer for the determination of the Hedge Price and if the Issuer has not yet determined the Hedge Price when the Market Disruption Events occur, the time available for the determination of the Hedge Price shall be extended for the duration of the Market Disruption Events. The right of the Issuer to determine the Hedge Price or the

Stop-Loss Exchange Rate shall continue to apply during the existence of Market Disruption Events.

If the Market Disruption Events within the meaning of No. 7 of the Issue Specific Conditions continue to exist until the end of the fifth Banking Day in Frankfurt am Main, at the Auxiliary Location and at the location of the Relevant Exchange following the next Exercise Date for the Warrants and if the Issuer has not yet determined the Hedge Price, the Issuer shall determine the Hedge Price in its reasonable discretion taking into account the market conditions prevailing on that day.

The payment of any Stop-Loss Cash Amount shall be made in accordance with No. 3 (4) of the Issue Specific Conditions, with the proviso that the Stop-Loss Payment Date shall be no later than the fifth Banking Day in Frankfurt am Main and at the location of the Central Securities Depository following the determination of the Hedge Price.

No. 2b

Adjustment Amount

- (1) The respective "**Strike**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Strike shall be adjusted on each calendar day during a Financing Level Adjustment Period by the Adjustment Amount calculated by the Issuer for that relevant calendar day. The Adjustment Amount for Mini Long or Mini Short Warrants may vary. The "**Adjustment Amount**" of a series applying for each calendar day during the respective Financing Level Adjustment Period shall be equal to the result obtained by multiplying the Strike applying on the Adjustment Date falling in that Financing Level Adjustment Period by the Adjustment Rate applicable in that Financing Level Adjustment Period and converted to the amount for one calendar day using the actual/360 day count convention. The resulting Strike for each calendar day shall be rounded to three decimal places in accordance with normal commercial practice, but the calculation of the next following Strike in each case shall be based on the unrounded Strike for the preceding day. The calculations for the first Financing Level Adjustment Period shall be based on the Strike on the Issue Date.
- (2) The respective "**Knock-Out Barrier**" of a series for the first Financing Level Adjustment Period shall be equal to the value specified in Table 1 of the Annex to the Issue Specific Conditions. For each subsequent Financing Level Adjustment Period, the Knock-Out Barrier shall be determined by the Issuer in its reasonable discretion on the Adjustment Date falling in that Financing Level Adjustment Period, taking into account the market conditions prevailing in each case (in particular taking into account volatility).

In addition, the Issuer shall have the right, on days on which, in the determination of the Issuer, the Strike after Adjustment (in accordance with paragraph (1) of this No. 2b) would be equal to, fall below or exceed the Knock-Out Barrier respectively, to adjust the Knock-Out Barrier in its reasonable discretion at the same time as the Adjustment of the Strike, taking into account the market conditions prevailing in each case (in particular taking into account volatility).

- (3) In the event of dividend payments or other cash distributions equivalent to dividend payments in respect of the Underlying (applicable in the case of shares as the Underlying) or in respect of the shares on which the Underlying is based (applicable in the case of stock indices as the Underlying), the Strike applying in each case and, where relevant, the Knock-Out Barrier shall be adjusted in accordance with No. 2 (3) of the Issue Specific Conditions (Adjustment due to Dividend Payments).
- [(4) The "**Quanto Net Amount**" shall correspond to the Initial Quanto Net Amount specified in Table 1 of the Annex to the Issue Specific Conditions (the "**Initial Quanto Net Amount**"). The Issuer shall be entitled to adjust the Quanto Net Amount with effect as of each [Banking Day][●], if in the reasonable discretion of the Issuer this is made necessary by a change in the costs or income accruing to the Issuer as a result of hedging currency risks, taking account of the rates of interest for the Reference Currency and the Settlement Currency at which the currency hedging has been arranged, the volatility of the Underlying or of the exchange rate between the Reference Currency and the Settlement Currency, and the correlation between the price of the Underlying and the development of the exchange rate. Notice of the Adjustment of the Quanto Net Amount and of the date on which the Adjustment becomes effective shall be given in accordance with No. 4 of the General Conditions. All references to the Quanto Net Amount contained in these Terms and Conditions shall be deemed to be references to the adjusted Quanto Net Amount from the date on which the Adjustment becomes effective.]

No. 3

Exercise of the Option Rights

- (1) The Warrants may be exercised by the Warrant Holder only with effect as of an Exercise Date in accordance with No. 2 (3) of the Issue Specific Conditions. For the exercise of the Warrants to be effective, the holder of the respective Warrant must comply with the preconditions set out below with respect to the relevant Exercise Agent at the latest by 10.00 a.m. (local time at the location of the relevant Exercise Agent) on the Exercise Date. The provisions of paragraphs (2) to (4) of this No. 3 shall also apply.

If the Option Rights are exercised via the Exercise Agent in [the **Federal Republic of Germany**][*insert relevant Offer State: ●*], the Warrant Holder must submit to [Citigroup Global Markets Deutschland AG][●] (the "**Exercise Agent**") at the following address:

[Citigroup Global Markets Deutschland AG
Attn. Stockevents
Frankfurter Welle
Reuterweg 16
D-60323 Frankfurt am Main
Federal Republic of Germany][●]

a properly completed ["**Frankfurt**"][●] Exercise Notice for the respective [WKN (German Securities Identification Number)][ISIN (International Securities Identification Number)][*insert other identifier: ●*] using the form available from the Issuer (referred to in the

following as "**Exercise Notice**") and must have transferred the Warrants which it is intended to exercise

- to the Issuer crediting its account [No. 7098 at Clearstream Frankfurt or its account No. 67098 at Clearstream Luxembourg][●] or
- to Euroclear; and the Issuer must have received confirmation from Euroclear that the Warrants were booked to an account at Euroclear for the benefit of the Warrant Holder and that Euroclear has arranged for the Warrants to be transferred irrevocably to one of the Issuer's two accounts referred to above].

The Exercise Notice must specify:

- the [WKN (German Securities Identification Number)][ISIN (International Securities Identification Number)] [*insert other identifier*: ●] of the Warrant series and the number of Warrants intended to be exercised and
 - the account of the Warrant Holder with a bank in [the Federal Republic of Germany][●] into which the Cash Amount is to be paid. If the Exercise Notice does not specify an account or specifies an account outside [the Federal Republic of Germany][●], a check for the Cash Amount will be sent to the Warrant Holder at his risk by normal post to the address given in the Exercise Notice within [five (5)][●] Banking Days in [Frankfurt am Main] [and] [●] following the Valuation Date.
 - Confirmation must also be given that the person entitled to the rights arising from the Warrants is not a US person (as defined in Regulation S pursuant to the United States Securities Act of 1933) and that that person has agreed with the Issuer and, if the latter is not also the seller, with the seller of these Warrants (a) not to offer, sell, resell or deliver the Warrants acquired at any time directly or indirectly in the United States or to or for the account of or for the benefit of US persons, (b) not to purchase Warrants for the account of or for the benefit of US persons and (c) not to offer, sell, resell or deliver Warrants (acquired in any other manner) directly or indirectly in the United States or to or for the account of or for the benefit of US persons.
- (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within [five (5)][●] Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return any payments already made to the Warrant Holder without interest at his risk and expense; in this event the Exercise Notice shall not become effective.
- (3) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne by the Warrant Holder.

The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.

- (4) The Issuer will transfer any Cash Amount to the Central Securities Depository on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Central Securities Depository at the close of business on the preceding Banking Day at the head

office of the Central Securities Depository. Upon the transfer of the Cash Amount to the Central Securities Depository, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Central Securities Depository has given an undertaking to the Issuer to make a corresponding onward transfer.

No. 4 **Termination**

- (1) The Issuer shall have the right to terminate all of the Warrants of a series during their term with a notice period of 4 weeks by giving notice in accordance with No. 4 of the General Conditions with effect as of the Termination Date specified in the notice (the "**Termination Date**"). Termination in accordance with this No. 4 may not be effected earlier than 3 months after the Issue Date. All Termination Notices issued pursuant to this No. 4 are irrevocable and must specify the Termination Date. The Termination shall become effective on the date specified in the announcement of the notice. For the purposes of calculating the Cash Amount in accordance with No. 2 of the Issue Specific Conditions, the date on which the Termination becomes effective shall be deemed to be the Valuation Date within the meaning of these Terms and Conditions.
- (2) In the event of Termination by the Issuer, No. 3 of the Issue Specific Conditions shall not apply. The Exercise Date within the meaning of No. 2 (3) of the Issue Specific Conditions shall in this case be the date on which the Termination becomes effective. The Payment Date shall be the Payment Date upon Termination in accordance with paragraph (3) of this No. 4.
- (3) In this event, the Issuer will transfer the Cash Amount for all of the Warrants affected by the Termination to the Central Securities Depository within [five (5)][●] Banking Days at the head office of the Issuer and at the location of the Central Securities Depository after the Termination Date for the credit of the Warrant Holders registered with the Central Securities Depository on the [second][●] day following the Termination Date (referred to in the following as "**Payment Date upon Termination**"). Upon the transfer of the Cash Amount to the Central Securities Depository, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Central Securities Depository has given an undertaking to the Issuer to make a corresponding onward transfer.

In the event that the onward transfer is not possible within three months after the Payment Date upon Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the [Frankfurt am Main][●] Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.]

[in the case of Capped Call or Capped Put Warrants (Product No. 5), insert:

No. 1
Option Right

Citigroup Global Markets Deutschland AG, Frankfurt am Main (the "**Issuer**") hereby grants the holder (each a "**Warrant Holder**") of Capped Call or Capped Put Warrants (the "**Warrants**"), based on the Underlying as specified in detail in each case in **Table 1** and **Table 2** of the Annex to the Issue Specific Conditions, the right (the "**Option Right**") to require the Issuer to pay the Cash Amount (No. 2 (1) of the Issue Specific Conditions) or the Termination Amount (No. 2 of the General Conditions) in accordance with these Terms and Conditions.

No. 2
Cash Amount; Definitions

- (1) The "**Cash Amount**" for each Warrant, subject to the early redemption of the Warrants by the Issuer (No. 2 of the General Conditions), shall be the Intrinsic Value of a Warrant, if the latter is already expressed in the Settlement Currency, or the Intrinsic Value of a Warrant converted into the Settlement Currency using the Reference Rate for Currency Conversion. The "**Maximum Cash Amount**" shall be equal to the difference, multiplied by the Multiplier, between the Cap and the Strike (Call Warrants) or the Strike and the Cap (Put Warrants), if it is already expressed in the Settlement Currency, or the difference between the Cap and the Strike (Call Warrants) or the Strike and the Cap (Put Warrants) converted into the Settlement Currency using the Reference Rate for Currency Conversion.
- (2) The "**Intrinsic Value**" of a Warrant shall be the difference, expressed in the Reference Currency and multiplied by the Multiplier, by which the Reference Price of the Underlying determined on the Valuation Date is higher than (Call Warrants) or lower than (Put Warrants) the respective Strike.
- (3) The following definitions shall apply in these Terms and Conditions:

No. 3

Exercise of the Option Rights

- (1) The Option Right may be exercised by the Warrant Holder only with effect as of the Valuation Date for the respective Warrant. If the Cash Amount results in a positive value, the Option Right attaching to the respective Warrant shall be deemed to be exercised on the Valuation Date without further preconditions and without the submission of an explicit Exercise Notice (referred to in the following as "**Automatic Exercise**").
- (2) The Issuer will transfer any positive Cash Amount to the Central Securities Depository on the Maturity Date for the credit of the Warrant Holders registered with the Central Securities Depository at the close of business on the preceding Banking Day at the head office of the Central Securities Depository. Upon the transfer of the Cash Amount to the Central Securities Depository, the Issuer shall be released from its payment obligations to the extent of the amount paid.
- (3) The Central Securities Depository has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer of the Cash Amount or of the fair market value is not possible within three months after the Maturity Date ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the [Frankfurt am Main][●] Local Court for the Warrant Holders at their risk and expense with a

waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.

- (4) All taxes or other levies that may be incurred in connection with the payment of the Cash Amount or of the fair market value shall be borne by the Warrant Holders.
- (5) If the Valuation Date falls between the date on which the Issuer determines that there are grounds for making an Adjustment in accordance with No. 6 of the Issue Specific Conditions and the date on which the Issuer has given notice of the Adjustments (referred to in the following as the "**Adjustment Period**"), the Valuation Date shall be the [first][●] Banking Day common to the head office of the Issuer and to the location of the Central Securities Depository following the date on which the Issuer has given notice of the Adjustments for the Valuation Date. The calculation of the Cash Amount in accordance with No. 2 of the Issue Specific Conditions shall be based on the relevant Reference Price of the Underlying on the Valuation Date together with the Adjustments made by the Issuer.
- (6) The Cash Amount and the fair market value shall be paid in the Settlement Currency without a requirement for the Issuer to give notice of any kind.
- (7) A declaration shall be deemed to have been made automatically that the person entitled to the rights arising from the Warrants is not a US person (as defined in Regulation S pursuant to the United States Securities Act of 1933) and that that person has agreed with the Issuer and, if the latter is not also the seller, with the seller of these Warrants (a) not to offer, sell, resell or deliver the Warrants acquired at any time directly or indirectly in the United States or to or for the account of or for the benefit of US persons, (b) not to purchase Warrants for the account of or for the benefit of US persons and (c) not to offer, sell, resell or deliver Warrants (acquired in any other manner) directly or indirectly in the United States or to or for the account of or for the benefit of US persons.

No. 2a Knock-Out

If the Observation Price of the Underlying (No. 5 (2) of the Issue Specific Conditions) expressed in the Reference Currency is equal to or exceeds (Up-and-Out Call Warrants) or is equal to or falls below (Down-and-Out Put Warrants) the Knock-Out Barrier of the Warrant specified in Table 1 of the Annex to the Issue Specific Conditions (the "**Knock-Out Event**") [[during the Observation Period][on [the][an] Observation Date] (No. 2 (3) of the Issue Specific Conditions) during the Observation Hours (No. 5 (2) of the Issue Specific Conditions) at any time][at the Observation Time (No. 2 (3) of the Issue Specific Conditions)] (referred to in the following as the "**Knock-Out Time**"), the term of the Warrants shall end early at the Knock-Out Time. In this event, the Cash Amount for each Warrant shall be equal to the Knock-Out Cash Amount (No. 2 (3) of the Issue Specific Conditions) The Issuer will give notice without delay in accordance with No. 4 of the General Conditions that the price of the Underlying has reached or

exceeded (Up-and-Out Call Warrants) or reached or fallen below (Down-and-Out Put Warrants) the Knock-Out Barrier.

No. 3

Exercise of the Option Rights

I. Applicable in the case of Warrants with a European Type of Exercise (as indicated for the respective series of Warrants in Table 1 of the Annex to the Issue Specific Conditions):

- (1) The Option Right may be exercised by the Warrant Holder only with effect as of the Valuation Date for the respective Warrant. If the Cash Amount results in a positive value, the Option Right attaching to the respective Warrant shall be deemed to be exercised on the Valuation Date without further preconditions and without the submission of an explicit Exercise Notice (referred to in the following as "**Automatic Exercise**").
- (2) The Issuer will transfer any positive Cash Amount to the Central Securities Depository on the Maturity Date for the credit of the Warrant Holders registered with the Central Securities Depository at the close of business on the preceding Banking Day at the head office of the Central Securities Depository. Upon the transfer of the Cash Amount to the Central Securities Depository, the Issuer shall be released from its payment obligations to the extent of the amount paid.
- (3) The Central Securities Depository has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer of the Cash Amount or of the fair market value is not possible within three months after the Maturity Date ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the [Frankfurt am Main][●] Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.
- (4) All taxes or other levies that may be incurred in connection with the payment of the Cash Amount or of the fair market value shall be borne by the Warrant Holders.
- (5) If the Valuation Date falls between the date on which the Issuer determines that there are grounds for making an Adjustment in accordance with No. 6 of the Issue Specific Conditions and the date on which the Issuer has given notice of the Adjustments (referred to in the following as the "**Adjustment Period**"), the Valuation Date shall be the [first][●] Banking Day common to the head office of the Issuer and to the location of the Central Securities Depository following the date on which the Issuer has given notice of the Adjustments for the Valuation Date. The calculation of the Cash Amount in accordance with No. 2 of the Issue Specific Conditions shall be based on the relevant Reference Price of the Underlying on the Valuation Date together with the Adjustments made by the Issuer.
- (6) The Cash Amount and the fair market value shall be paid in the Settlement Currency without a requirement for the Issuer to give notice of any kind.
- (7) A declaration shall be deemed to have been made automatically that the person entitled to the rights arising from the Warrants is not a US person (as defined in Regulation S pursuant to the United States Securities Act of 1933) and that that person has agreed with the Issuer and,

if the latter is not also the seller, with the seller of these Warrants (a) not to offer, sell, resell or deliver the Warrants acquired at any time directly or indirectly in the United States or to or for the account of or for the benefit of US persons, (b) not to purchase Warrants for the account of or for the benefit of US persons and (c) not to offer, sell, resell or deliver Warrants (acquired in any other manner) directly or indirectly in the United States or to or for the account of or for the benefit of US persons.

II. Applicable in the case of Warrants with an American Type of Exercise (as indicated for the respective series of Warrants in Table 1 of the Annex to the Issue Specific Conditions):

- (1) For the exercise of the Warrants to be effective, the holder of the respective Warrant must comply with the preconditions set out below with respect to the relevant Exercise Agent within the Exercise Period for the respective Warrant. The Exercise Period for the Warrants shall begin in each case on the [second][●] Banking Day after the Issue Date and shall end in each case at 10.00 a.m. (local time at the location of the relevant Exercise Agent) on the Valuation Date or, if the Reference Price of the Underlying is usually determined before [11.00][●] [a.m.][p.m.] (local time at the location of the relevant Exercise Agent), the Exercise Period ends at 10.00 a.m. (local time at the location of the relevant Exercise Agent) on the last Trading Day preceding the last Valuation Date. The provisions of paragraphs (2) to (4) of this No. 3 II shall also apply.

If the Option Rights are exercised via the Exercise Agent in [the **Federal Republic of Germany**][*insert relevant Offer State: ●*], the Warrant Holder must submit to [Citigroup Global Markets Deutschland AG][●] (the "**Exercise Agent**") at the following address:

[Citigroup Global Markets Deutschland AG
Attn. Stockevents
Frankfurter Welle
Reuterweg 16
D-60323 Frankfurt am Main
Federal Republic of Germany][●]

a properly completed [**"Frankfurt"**][●] Exercise Notice for the respective [WKN (German Securities Identification Number)][ISIN (International Securities Identification Number)] [*insert other identifier: ●*] using the form available from the Issuer (referred to in the following as "**Exercise Notice**") and must have transferred the Warrants which it is intended to exercise

- to the Issuer crediting its account [No. 7098 at Clearstream Frankfurt or its account No. 67098 at Clearstream Luxembourg][●][or
- to Euroclear; and the Issuer must have received confirmation from Euroclear that the Warrants were booked to an account at Euroclear for the benefit of the Warrant Holder and that Euroclear has arranged for the Warrants to be transferred irrevocably to one of the Issuer's two accounts referred to above].

The Exercise Notice must specify:

- the [WKN (German Securities Identification Number)][ISIN (International Securities Identification Number)] [*insert other identifier*: ●] of the Warrant series and the number of Warrants intended to be exercised and
 - the account of the Warrant Holder with a bank in [the Federal Republic of Germany][●] into which the Cash Amount is to be paid. If the Exercise Notice does not specify an account or specifies an account outside [the Federal Republic of Germany][●], a check for the Cash Amount will be sent to the Warrant Holder at his risk by normal post to the address given in the Exercise Notice within [five (5)][●] Banking Days in [Frankfurt am Main] [and] [●] following the Valuation Date.
 - Confirmation must also be given that the person entitled to the rights arising from the Warrants is not a US person (as defined in Regulation S pursuant to the United States Securities Act of 1933) and that that person has agreed with the Issuer and, if the latter is not also the seller, with the seller of these Warrants (a) not to offer, sell, resell or deliver the Warrants acquired at any time directly or indirectly in the United States or to or for the account of or for the benefit of US persons, (b) not to purchase Warrants for the account of or for the benefit of US persons and (c) not to offer, sell, resell or deliver Warrants (acquired in any other manner) directly or indirectly in the United States or to or for the account of or for the benefit of US persons.
- (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within [five (5)][●] Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return any payments already made to the Warrant Holder without interest at his risk and expense; in this event the Exercise Notice shall not become effective.
- (3) Option Rights that have not been exercised effectively in accordance with paragraphs (1) and (2) shall be deemed, subject to early termination by means of extraordinary Termination pursuant to No. 2 of the General Conditions, to be exercised on the final day of the Exercise Period without further preconditions, if the Cash Amount is positive ("**Automatic Exercise**"). In the event of Automatic Exercise, the confirmation referred to in the last subparagraph of paragraph (1) shall be deemed to have been given automatically. In any other circumstances, all rights arising from the Warrants that have not been exercised effectively by then shall expire on that day and the Warrants shall become invalid.
- (4) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne by the Warrant Holder. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.
- (5) The Issuer will transfer any Cash Amount to the Central Securities Depository on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Central Securities Depository at the close of business on the preceding Banking Day at the head office of the Central Securities Depository. Upon the transfer of the Cash Amount to the

Central Securities Depository, the Issuer shall be released from its payment obligations to the extent of the amount paid. The Central Securities Depository has given an undertaking to the Issuer to make a corresponding onward transfer.

(not applicable)

Part B. Underlying Specific Conditions

[in the case of an index as the Underlying, insert:

No. 5

Underlying

- (1) The "**Underlying**" shall be the Index specified as the Underlying in Table 2 of the Annex to the Issue Specific Conditions.
- (2) The "**Reference Price**" of the Underlying shall correspond to [the price specified as the Reference Price of the Underlying in Table 1 of the Annex to the Issue Specific Conditions][the official closing price of the Index][, as calculated and published on Trading Days by the Relevant Index Calculator specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Relevant Index Calculator**")]. [The "**Observation Price**" of the Underlying shall correspond to the prices calculated and published for the Index on an ongoing basis by the Relevant Index Calculator on Trading Days[(excluding prices calculated on the basis of the midday auction or of another intraday auction)].][In the case of the DAX/X-DAX as the Underlying, the Observation Price of the Underlying [(the "**Observation Price**")]] shall correspond to the prices (i) of the DAX[®] Performance Index (ISIN DE0008469008) or (ii) of the X-DAX[®] (ISIN DE000A0C4CA0) calculated and published for the Underlying on an ongoing basis by the Relevant Index Calculator on Trading Days (excluding (a) prices calculated on the basis of the midday auction or of another intraday auction and (b) prices which in the opinion of the Issuer are not based on any exchange trading transactions actually carried out).] ["**Observation Hours**" shall be the Trading Hours.][In the case of the DAX/X-DAX as the Underlying, [Observation Hours]["**Observation Hours**"] shall be the hours during which the Relevant Index Calculator normally calculates and publishes prices for (i) the DAX[®] Performance Index (ISIN DE0008469008) or (ii) the X-DAX[®] (ISIN DE000A0C4CA0).] "**Trading Days**" shall be days on which the Index is normally calculated and published by the Relevant Index Calculator. "**Trading Hours**" shall be hours during which prices are normally calculated and published for the Index by the Relevant Index Calculator on Trading Days.]

No. 6

Adjustments

- (1) The Strike[, the Knock-Out Barrier] and/or the Multiplier as well as the other features of the Warrants that are relevant for the calculation of the Cash Amount shall be subject to adjustment in accordance with the provisions below (referred to in the following as "**Adjustments**").
- (2) Changes in the calculation of the Underlying (including corrections) or in the composition or weighting of the prices or securities on the basis of which the Underlying is calculated shall not result in an adjustment of the Option Right unless, in the reasonable discretion of the Issuer, as a result of a change (including a correction) the new relevant concept and the calculation of the Underlying are no longer comparable with the previous relevant concept or

the previous calculation of the Underlying. This shall apply in particular if a change of whatever nature results in a material change in the value of the Index even though the prices of the individual securities included in the Underlying and their weighting remain the same. The Option Right may also be adjusted in the event that the Underlying is discontinued and/or replaced by another Index. The Issuer shall adjust the Option Right in its reasonable discretion based on the most recently calculated price with the objective of preserving the financial value of the Warrants, and shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change. Notice shall be given of the adjusted Option Right and the date on which it first applies in accordance with No. 4 of the General Conditions.

- (3) If the Index is discontinued at any time and/or replaced by another Index, the Issuer in its reasonable discretion shall specify the other Index as the Underlying on which the Option Right will be based in future (the "**Successor Index**"), where necessary adjusting the Option Right in accordance with paragraph (4) of this No. 6. Notice shall be given of the Successor Index and the date on which it first applies in accordance with No. 4 of the General Conditions. All references in these Terms and Conditions to the Index shall then be deemed, insofar as the context allows, to be references to the Successor Index.
- (4) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying and including any subsequent correction by the Relevant Index Calculator of the Reference Price or another price of the Underlying that is relevant in accordance with the Terms and Conditions, shall entitle the Issuer to adjust the Option Right accordingly in its reasonable discretion. The Issuer shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change. Notice shall be given of the adjusted Option Right and the date on which it first applies in accordance with No. 4 of the General Conditions.
- (5) In the event that the Reference Price or other prices that are relevant for the Underlying in accordance with these Terms and Conditions are no longer calculated and published by the Relevant Index Calculator, but by another person, company or institution which the Issuer considers suitable in its reasonable discretion (the "**New Relevant Index Calculator**"), then the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published by the New Relevant Index Calculator. In addition, all references in these Terms and Conditions to the Relevant Index Calculator shall then be deemed, insofar as the context allows, to be references to the New Relevant Index Calculator. The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.
- (6) If in the reasonable discretion of the Issuer it is not possible, for any reason whatsoever, to adjust the Option Right or to specify a Successor Index, then the Issuer or an expert appointed by the Issuer will be responsible for the continued calculation and publication of the Underlying on the basis of the existing index concept and the most recent value determined for the index, subject to any Termination of the Warrants pursuant to No. 2 of the General Conditions. Notice shall be given of any continuation of this nature in accordance with No. 4 of the General Conditions.

No. 7

Market Disruption Events

(1) If a Market Disruption Event in accordance with paragraph (2) of this No. 7 exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. [The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice.] If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for [five (5)][●] consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.

(2) "**Market Disruption Event**" shall mean

- (i) the suspension or restriction of trading generally on the exchanges or markets on which the assets on which the Index is based are listed or traded; or
- (ii) the suspension or restriction of trading (including the lending market) in individual assets on which the Index is based on the respective exchanges or markets on which those assets are listed or traded, or in a futures or options contract based on the Index on a Futures Exchange on which futures or options contracts based on the Index are traded (the "**Futures Exchange**");
- (iii) the suspension or non-calculation of the Index as the result of a decision by the Relevant Index Calculator,

if that suspension, restriction or non-calculation occurs or exists in the last half-hour before the calculation of the closing price of the Index or of the assets on which the Index is based that would normally take place and is material, in the reasonable discretion of the Issuer, for the fulfillment of the obligations arising from the Warrants. A change in the Trading Days or Trading Hours on or during which trading takes place or the Index is calculated does not constitute a Market Disruption Event, provided that the change takes place as the result of a previously announced change in the trading regulations by the exchange or in the rules for calculating the Index by the Relevant Index Calculator.]

[in the case of shares or securities representing shares as the Underlying, insert:

No. 5
Underlying

- (1) The "**Underlying**" shall be the share or security representing shares specified as the Underlying in Table 2 of the Annex to the Issue Specific Conditions of the Company specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Company**").
- (2) The "**Reference Price**" of the Underlying shall correspond to [the price specified as the Reference Price of the Underlying in Table 1 of the Annex to the Issue Specific Conditions][the official closing price of the Underlying][, as calculated and published on Trading Days on the Relevant Exchange specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Relevant Exchange**")]. [The "**Observation Price**" of the Underlying shall correspond to the prices for the Underlying calculated and published on an ongoing basis on the Relevant Exchange on Trading Days.] ["**Observation Hours**" shall be the Trading Hours.] "**Trading Days**" shall be days on which the Underlying is normally traded on the Relevant Exchange. "**Trading Hours**" shall be hours during which the Underlying is normally traded on the Relevant Exchange on Trading Days.]

No. 6
Adjustments

- (1) If an Adjustment Event pursuant to paragraph (2) of this No. 6 occurs, the Issuer shall determine whether the relevant Adjustment Event has a diluting, concentrative or other effect on the computed value of the Underlying and, if such is the case, shall if necessary make a corresponding Adjustment to the affected features of the Warrants, which in its reasonable discretion is appropriate in order to take account of the diluting, concentrative or other effect and to leave the Warrant Holders as far as possible in the same position in financial terms as they were in before the Adjustment Event took effect. The Adjustments may relate, *inter alia*, to the Strike, the Multiplier and other relevant features, as well as to the replacement of the Underlying by a basket of shares or other assets or, in the event of a merger, by an adjusted number of shares of the absorbing or newly formed company and, where relevant, the specification of a different exchange as the Relevant Exchange and/or a different currency as the Reference Currency. The Issuer may (but is not obliged to) base the determination of this appropriate Adjustment on the adjustment made in response to the relevant Adjustment Event by a futures exchange, on which options or futures contracts on the Underlying are traded at the time of the Adjustment Event, in respect of options or futures contracts on the relevant share traded on that futures exchange.
- (2) An "**Adjustment Event**" shall be:
 - (a) the subdivision (stock split), combination (reverse stock split) or reclassification of the respective shares or the distribution of dividends in the form of bonus shares or stock dividends or a comparable issue;

- (b) the increase in the capital of the Company by means of the issue of new shares in return for capital contributions, with the grant of a direct or indirect subscription right to its shareholders (capital increase for capital contributions);
 - (c) the increase of the capital of the Company from its own financial resources (capital increase from corporate funds);
 - (d) the grant by the Company to its shareholders of the right to subscribe for bonds or other securities with option or conversion rights (issue of securities with option or conversion rights);
 - (e) the distribution of an extraordinary dividend;
 - (f) the spin-off of a division of the Company in such a way that a new, independent company is formed or the division is absorbed by a third company, with the grant to the shareholders of the Company of shares in either the new company or the absorbing company for no consideration;
 - (g) the permanent delisting of the Underlying on the Relevant Exchange as a result of a merger by absorption or new company formation or for another reason;
 - (h) other comparable events that could have a diluting, concentrative or other effect on the calculated value of the Underlying.
- (3) The rules described in the preceding paragraphs shall apply analogously to securities representing shares as the Underlying (such as ADRs, ADSs or GDRs).
- (4) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying, shall entitle the Issuer to adjust the Option Right accordingly in its reasonable discretion. The Issuer shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change.
- (5) In the event that the Underlying is permanently delisted on the Relevant Exchange but continues to be listed on another exchange or another market which the Issuer in its reasonable discretion considers to be suitable (the "**New Relevant Exchange**"), then, subject to extraordinary Termination of the Warrants by the Issuer pursuant to No. 2 of the General Conditions, the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published on the New Relevant Exchange. In addition, all references in these Terms and Conditions to the Relevant Exchange shall then be deemed, insofar as the context allows, to be references to the New Relevant Exchange.
- (6) In the event that a voluntary or compulsory liquidation, bankruptcy, insolvency, winding up, dissolution or comparable procedure affecting the Company is initiated, or in the event of a process as a result of which all of the shares in the Company or all or substantially all of the assets of the Company are nationalized or expropriated or required to be transferred in some other way to government bodies, authorities or institutions, or if following the occurrence of an event of another kind the Issuer reaches the conclusion that it is not possible to make an Adjustment that would reflect the changes that have occurred appropriately from a financial point of view, then the Issuer will terminate the Warrants pursuant to No. 2 of the General Conditions.

- (7) The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.

No. 7

Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) of this No. 7 exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which fulfills the criteria for a Valuation Date in accordance with No. 2 of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for [five (5)][●] consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.
- (2) "**Market Disruption Event**" shall mean
- (i) the suspension or restriction of trading in the Underlying on the Relevant Exchange, or
 - (ii) the suspension or restriction of trading (including the lending market) in a futures or options contract based on the Underlying on a Futures Exchange on which futures or options contracts based on the Underlying are traded (the "**Futures Exchange**");

if that suspension or restriction occurs or exists in the last half-hour before the calculation of the closing price of the Underlying that would normally take place and is material as determined by the Issuer in its reasonable discretion. A change in the Trading Days or Trading Hours on or during which the Underlying is traded does not constitute a Market Disruption Event, provided that the change takes place as the result of a previously announced change in the trading regulations by the Relevant Exchange.]

[in the case of exchange rates as the Underlying, insert:

No. 5

Underlying

- (1) The "**Underlying**" shall be the currency pair specified as the Underlying in Table 2 of the Annex to the Issue Specific Conditions.
- (2) The "**Reference Price**" of the Underlying shall correspond to the Reference Price for one unit of the base currency, expressed in the quote currency and specified in Table 1 of the Annex to the Issue Specific Conditions, as determined on the Reference Market specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Reference Market**") [and displayed on

the Screen Page of the specified financial information service for the Reference Price specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Screen Page**") or a substitute page. If the Screen Page is not available on the date specified or if the Reference Price is not displayed, the Reference Price shall be the reference price displayed on the corresponding page of another financial information service. If the Reference Price is no longer displayed in one of the ways described above, the Issuer shall have the right to specify as the Reference Price a reference price calculated in its reasonable discretion on the basis of the market practices applying at that time and taking into account the prevailing market conditions. The "**Price Currency**" corresponds to the Reference Currency specified in Table 2 of the Annex to the Issue Specific Conditions. The "**Base Currency**" corresponds to the Base Currency specified in Table 2 of the Annex to the Issue Specific Conditions. [The "**Observation Price**" of the Underlying shall correspond to the [middle prices (arithmetic mean of the respective pairs of bid and offered prices quoted)][bid prices][offered prices] for the Underlying, offered on the Reference Market and published on an ongoing basis on the relevant Screen Page for the Observation Price.][bid prices in case of Call, Bull and Long Warrants or ask prices in case of Put, Bear and Short Warrants for the Underlying, continuously displayed on the screen page specified for the Observation Price in Table 2 of the Annex to the Issue Specific Conditions (the "**Screen Page for the Observation Price**") or a substitute page, determined by the Issuer in its reasonable discretion. If the Screen Page for the Observation Price is not available on the date specified or if the bid or ask price is not displayed, the Observation Price shall be the bid or ask price displayed on the corresponding page of another financial information service.] ["**Observation Hours**" shall be the [Trading Hours][period during which bid and ask prices for the Underlying are normally published continuously on the Screen Page for the Observation Price].] "**Trading Days**" shall be days on which prices are normally calculated for the Underlying on the Reference Market and published on the relevant Screen Page for the Reference Market. "**Trading Hours**" shall be hours during which prices are normally calculated for the Underlying on the Reference Market and published on the relevant Screen Page for the Reference Market.

No. 6 Adjustments

- (1) If the Underlying has been modified due to conditions of the Reference Market or a third party or due to circumstances set out in the following paragraph, the Issuer shall have the right to adjust the features of the Warrants.
- (2) If one of the currencies (quote or base currency) of the Underlying has been replaced in its function as a legal means of payment within a country or a currency area by another currency as the result of measures or sanctions of any kind taken or imposed by a governmental or supervisory authority of such a country or such a currency area, the Issuer shall have the right to adjust these Terms and Conditions in such a way that all references to the relevant currency shall be deemed to be references to the replacement currency. In this context, amounts reported in the currency replaced shall be converted into the replacement currency at the official rate of conversion on the date of such replacement.

- (3) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying, shall entitle the Issuer to adjust the features of the Warrants accordingly in its reasonable discretion. The Issuer shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change.
- (4) In the event that the Reference Price or other prices that are relevant for the Underlying in accordance with these Terms and Conditions are no longer calculated and published on the Reference Market, but by another person, company or institution which the Issuer considers suitable in its reasonable discretion (the "**New Reference Market**"), then the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published on the New Reference Market. In addition, all references in these Terms and Conditions to the Reference Market shall then be deemed, insofar as the context allows, to be references to the New Reference Market.
- (5) The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.

No. 7

Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) of this No. 7 exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for [five (5)][●] consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.
- (2) "**Market Disruption Event**" shall mean
 - (i) the suspension or restriction of foreign exchange trading in at least one of the currencies of the currency pair (including options and futures contracts) or the limitation of the convertibility of the currencies of the currency pair or the inability to obtain an exchange rate for the same on economically reasonable terms,
 - (ii) events other than those described above but whose effects are comparable in economic terms with the events mentioned,

provided that the events referred to above are material as determined by the Issuer in its reasonable discretion.]

[in the case of commodities as the Underlying, insert:

No. 5
Underlying

- (1) The "**Underlying**" shall be the commodity specified as the Underlying in Table 2 of the Annex to the Issue Specific Conditions.
- (2) The "**Reference Price**" of the Underlying shall correspond to the Reference Price of the Underlying specified in Table 1 of the Annex to the Issue Specific Conditions, as determined on the Reference Market specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Reference Market**") [and displayed on the Screen Page of the specified financial information service for the Reference Price specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Screen Page**") or a substitute page. If the Screen Page is not available on the date specified or if the Reference Price is not displayed, the Reference Price shall be the reference price displayed on the corresponding page of another financial information service. If the Reference Price is no longer displayed in one of the ways described above, the Issuer shall have the right to specify as the Reference Price a reference price calculated in its reasonable discretion on the basis of the market practices applying at that time and taking into account the prevailing market conditions.] [The "**Observation Price**" of the Underlying shall correspond to the [middle prices (arithmetic mean of the respective pairs of bid and offered prices quoted)][bid prices][offered prices] for the Underlying, offered on the Reference Market and published on an ongoing basis on the relevant Screen Page for the Observation Price, determined by the Issuer in its reasonable discretion.][bid prices in case of Call, Bull and Long Warrants or ask prices in case of Put, Bear and Short Warrants for the Underlying, continuously displayed on the screen page specified for the Observation Price in Table 2 of the Annex to the Issue Specific Conditions (the "**Screen Page for the Observation Price**") or a substitute page, determined by the Issuer in its reasonable discretion. If the Screen Page for the Observation Price is not available on the date specified or if the bid or ask price is not displayed, the Observation Price shall be the bid or ask price displayed on the corresponding page of another financial information service.]] ["**Observation Hours**" shall be the [Trading Hours][period during which bid and ask prices for the Underlying are normally published continuously on the Screen Page for the Observation Price].] "**Trading Days**" shall be days on which prices are normally calculated for the Underlying on the Reference Market and published on the relevant Screen Page for the Reference Market. "**Trading Hours**" shall be hours during which prices are normally calculated for the Underlying on the Reference Market and published on the relevant Screen Page for the Reference Market.

No. 6
Adjustments

- (1) If the Underlying has been modified due to conditions imposed by the Reference Market or a third party or due to circumstances set out in the following paragraph, the Issuer shall have the right to adjust the features of the Warrants.
- (2) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying, shall entitle the Issuer to adjust the features of the Warrants accordingly in its reasonable discretion. The Issuer shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change.
- (3) In the event that the Reference Price or other prices that are relevant for the Underlying in accordance with these Terms and Conditions are no longer calculated and published on the Reference Market, but by another person, company or institution which the Issuer considers suitable in its reasonable discretion (the "**New Reference Market**"), then the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published on the New Reference Market. In addition, all references in these Terms and Conditions to the Reference Market shall then be deemed, insofar as the context allows, to be references to the New Reference Market.
- (4) The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.

No. 7
Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for [five (5)][●] consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.
- (2) "**Market Disruption Event**" shall mean
 - (i) the suspension or restriction of trading in or price-setting for the Underlying on the Reference Market, or

- (ii) the suspension or restriction of trading in a futures or options contract based on the Underlying on a Futures Exchange on which futures or options contracts based on the Underlying are traded (the "**Futures Exchange**").

A restriction of the trading period or Trading Days on the Reference Market shall not constitute a Market Disruption Event if it is based on a previously announced change.]

[in the case of futures contracts as the Underlying, insert:

No. 5
Underlying

- (1) The "**Underlying**" [shall correspond to the futures contract specified as the Underlying in Table 2 of the Annex to the Issue Specific Conditions [with the Initial Expiry Date specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Initial Expiry Date**")]] [on the Issue Date shall correspond to the futures contract specified as the Underlying in Table 2 of the Annex to the Issue Specific Conditions with the Relevant Expiry Month of those defined in Table 2 of the Annex to the Issue Specific Conditions next following the Issue Date in respect of which a Rollover Date (No. 2 (3) of the Issue Specific Conditions) has not yet occurred on the Issue Date].
- (2) The "**Reference Price**" of the Underlying shall correspond to the Reference Price of the Underlying specified in Table 1 of the Annex to the Issue Specific Conditions, as determined on the Relevant Exchange specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Relevant Exchange**"). [The "**Daily Settlement Price**" of the Underlying shall correspond to the Daily Settlement Price of the Underlying as determined on the Relevant Exchange.] [The "**Observation Price**" of the Underlying shall correspond to the [prices for the Underlying calculated and published on an ongoing basis on the Relevant Exchange on Trading Days.][prices continuously displayed on the screen page specified for the Observation Price in Table 2 of the Annex to the Issue Specific Conditions (the "**Screen Page for the Observation Price**") or a substitute page, determined by the Issuer in its reasonable discretion. If the Screen Page for the Observation Price is not available on the date specified or if the price is not displayed, the Observation Price shall be the price displayed on the corresponding page of another financial information service.]] ["**Observation Hours**" [shall be the Trading Hours][shall be the period between [Monday][●][,] [08.00][●] a.m. and [Friday][●][,] [19.00][●] p.m. (in each case local time in [London][*alternative location*: ●)][shall be the period during which prices for the Underlying are normally published continuously on the Screen Page for the Observation Price.]] "**Trading Days**" shall be days on which the Underlying is normally traded on the Relevant Exchange. "**Trading Hours**" shall be hours during which the Underlying is normally traded on the Relevant Exchange on Trading Days.
- [(3) The futures contract will be replaced in each case [on a Rollday] [*insert date of replacement*: ●] [with effect as of the beginning of the [*insert date on which replacement becomes effective*: ●] by a futures contract with the same contract specifications, and the Expiry Date of the new relevant futures contract will correspond to [*insert specification of the*

Expiry Date: ●]. The Strike will be adjusted in each case [*insert date of adjustment: ●*] with effect as of the beginning of the [*insert date on which adjustment becomes effective: ●*]. The adjustment shall be made in such a way that the previous relevant Strike[, the Knock-Out Barrier][, the Digital Target Amount][*insert other relevant features: ●*] is reduced (or increased, respectively) by the absolute difference by which the settlement price of the previous relevant futures contract determined for the last Trading Day is higher (or lower, respectively) than the settlement price of the new relevant futures contract.] [replaced by a futures contract with the same contract specifications such that the expiry date of the new relevant futures contract corresponds in each case to the nearest Relevant Expiry Month specified in Table 2 of the Annex to the Issue Specific Conditions. The Strike is adjusted in each case on the Rollover Date. The Adjustment shall be effected by determining the result, rounded to three (3) decimal places, of the following calculation as the new Strike:

in the case of [insert product name including "Bull" or "Long" insert: ●] Warrants:

$$\text{Strike}(\text{new}) = \text{Strike}(\text{old}) - (\text{RK}(\text{old}) - G) + (\text{RK}(\text{new}) + G)$$

in the case of [insert product name including "Bear" or "Short" insert: ●] Warrants:

$$\text{Strike}(\text{new}) = \text{Strike}(\text{old}) - (\text{RK}(\text{old}) + G) + (\text{RK}(\text{new}) - G)$$

whereby the terms used in the formula shall have the following meaning:

"**Strike(old)**" is the relevant Strike of the Warrants before adjustments according to this paragraph.

"**RK(old)**" corresponds to the Daily Settlement Price on the Rollover Date for the futures contract to be replaced.

"**RK(new)**" corresponds to the Daily Settlement Price on the Rollover Date for the new futures contract.

"**G**" corresponds to transaction fees incurred for the replacement of the futures contract which will be specified by the Issuer at its reasonable discretion. The transaction fees per unit of the Underlying will not exceed the Maximum Transaction Fee specified in Table 2 of the Annex to the Issue Specific Conditions.

The Knock-Out Barrier will be adjusted on the Rollover Date pursuant to No. 2b (2) of the Issue Specific Conditions following the adjustment of the Strike.]

No. 6 Adjustments

- (1) If, during the term of the Warrants, changes are made to the concept on which the futures contract is based which are so fundamental that it is no longer comparable with the previous concept as determined by the Issuer in its reasonable discretion, or if trading in the futures contracts is permanently discontinued on the Relevant Exchange, the Issuer will determine a theoretical daily settlement price for each business day of the Relevant Exchange from the date when the changes occur onward. The price shall be determined on the basis of the method of calculation currently used to determine the theoretical contract value (fair value) of

the futures contract. In the event that a theoretical daily settlement price is determined, it shall be deemed to be a daily settlement price within the meaning of these Terms and Conditions.

- (2) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying, shall entitle the Issuer to adjust the Option Right accordingly in its reasonable discretion. The Issuer shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change.
- (3) In the event that the Underlying is permanently delisted on the Relevant Exchange but continues to be listed on another exchange or another market which the Issuer in its reasonable discretion considers to be suitable (the "**New Relevant Exchange**"), then, subject to extraordinary Termination of the Warrants by the Issuer pursuant to No. 2 of the General Conditions, the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published on the New Relevant Exchange. In addition, all references in these Terms and Conditions to the Relevant Exchange shall then be deemed, insofar as the context allows, to be references to the New Relevant Exchange.
- (4) If the Issuer determines that the continued calculation of the value of the Underlying in accordance with paragraph 1 is not possible or that, following a change in the Conditions or the tradability of the Underlying, it is not possible for other reasons to make an Adjustment that would reflect the changes that have occurred appropriately from a financial point of view, the Issuer will terminate the Warrants pursuant to No. 2 of the General Conditions.
- (5) The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.

No. 7

Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for [five (5)][●] consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.
- (2) "**Market Disruption Event**" shall mean
 - (i) the suspension or restriction of trading in the Underlying on the Relevant Exchange, or

- (ii) a material change to the method of price-setting or the trading conditions with respect to the Underlying on the Relevant Exchange.

A change in the Trading Days or Trading Hours on or during which the Underlying is traded does not constitute a Market Disruption Event, provided that the change takes place as the result of a previously announced change in the trading regulations by the Relevant Exchange.]

2. General Conditions

No. 1

Form of the Warrants;

Collective Custody; Status; Increase of Issue Size; Repurchases

- (1) *In case the Warrants are represented by a global bearer warrant pursuant to No. 2 (3) of the Issue Specific Conditions the following applies:*

Each series of Warrants issued by the Issuer shall be represented by a global bearer Warrant (referred to in the following as "**Global Bearer Warrant**"), which shall be deposited with the Central Securities Depository in accordance with No. 2 (3) of the Issue Specific Conditions. Definitive Warrants will not be issued during the entire term. Warrant Holders shall have no right to the delivery of definitive securities.

In case Nederlands Centraal Instituut voor Giraal Effectenverkeer B.V. is specified as Central Securities Depository and the Warrants are issued in dematerialized form pursuant to No. 2 (3) of the Issue Specific Conditions the following applies:

The Warrants will be issued in dematerialized bearer form and registered in the book-entry system of the Central Securities Depository pursuant to No. 2 (3) of the Issue Specific Conditions in accordance with Dutch law. No global security and no definitive securities will be issued in respect of the Warrants.

In case Euroclear France S.A. is specified as Central Securities Depository and the Warrants are issued in dematerialized form pursuant to No. 2 (3) of the Issue Specific Conditions the following applies:

The Warrants will be issued in dematerialized bearer form (*au porteur*) and inscribed in the books of the Central Securities Depository pursuant to No. 2 (3) of the Issue Specific Conditions which shall credit the accounts of the Account Holders. For the purpose of these Terms and Conditions, "**Account Holder**" means any authorised financial intermediary institution entitled to hold securities accounts, directly or indirectly, with the Central Securities Depository pursuant to No. 2 (3) of the Issue Specific Conditions, and includes Euroclear Bank SA/NV and the depositary bank for Clearstream Banking, société anonyme. Title to the Warrants will be evidenced in accordance with Articles L.211-3 *et seq.* and R.211-1 *et seq.* of the French Monetary and Financial Code (*Code monétaire et financier*) by book entries (*inscriptions en compte*). No physical document of title (including *certificats représentatifs* pursuant to Article R.211-7 of the French Monetary and Financial Code (*Code monétaire et financier*)) will be issued in respect of the Warrants.

In case Central de Valores Mobiliários ("CVM") is specified as Central Securities Depository and the Warrants are issued in dematerialized form pursuant to No. 2 (3) of the Issue Specific Conditions the following applies:

The Warrants will be dematerialized (*forma escritural*) and represented by book entries (*registros em conta*) only and centralised through the CVM managed by Interbolsa in accordance with Portuguese law. No global security and no definitive securities will be issued in respect of the Warrants.

In case Euroclear Sweden AB is specified as Central Securities Depository and the Warrants are issued in dematerialized form pursuant to No. 2 (3) of the Issue Specific Conditions the following applies:

The Warrants will be cleared through Euroclear Sweden AB (formerly known as VPC AB) and issued in registered form in accordance with the Swedish Financial Instruments Account Act (SFS 1998:1479). The Warrants will be issued in uncertificated book-entry form. No global security and no definitive securities will be issued in respect of the Warrants.

In case Euroclear Finland Ltd. is specified as Central Securities Depository and the Warrants are issued in dematerialized form pursuant to No. 2 (3) of the Issue Specific Conditions the following applies:

The Warrants will be issued in the Finnish book-entry securities system maintained by Euroclear Finland Ltd. No global security and no definitive securities will be issued in respect of the Warrants.

- (2) *In case the Warrants are represented by a global bearer warrant pursuant to No. 2 (3) of the Issue Specific Conditions the following applies:*

The Warrants shall be transferred as co-ownership interests in the respective Global Bearer Warrant in accordance with the regulations of the Central Securities Depository and, outside the Clearing Territory of the Central Securities Depository, of the additional Securities Depositories in accordance with No. 2 (3) of the Issue Specific Conditions or, in the case of No. 6 (6) of the General Conditions, of other foreign Securities Depositories or custodians.

In case Nederlands Centraal Instituut voor Giraal Effectenverkeer B.V. is specified as Central Securities Depository and the Warrants are issued in dematerialized form pursuant to No. 2 (3) of the Issue Specific Conditions the following applies:

Title to the Warrants will pass by transfer between accountholders at the Central Securities Depository effected in accordance with the legislation, rules and regulations applicable to and/or issued by the Central Securities Depository that are in force and effect from time to time.

In case Euroclear France S.A. is specified as Central Securities Depository and the Warrants are issued in dematerialized form pursuant to No. 2 (3) of the Issue Specific Conditions the following applies:

Title to the Warrants shall pass upon, and transfer of such Warrants may only be effected through, registration of the transfer in the accounts of the Account Holders in accordance with the French Monetary and Financial Code (*Code monétaire et financier*). Except as ordered by a court of competent jurisdiction or as required by law, the holder of any Warrant shall be deemed to be and may be treated as its owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, or an interest in it, and no person shall be liable for so treating the holder.

In case Central de Valores Mobiliários is specified as Central Securities Depository and the Warrants are issued in dematerialized form pursuant to No. 2 (3) of the Issue Specific Conditions the following applies:

The Warrants will be freely transferable by way of book entries in the accounts of authorized financial intermediaries entitled to hold securities control accounts with Interbolsa on behalf of their customers ("**Affiliate Members of Interbolsa**", which includes any custodian banks appointed by Euroclear Bank SA/NV and Clearstream Banking, société anonyme for the purpose of holding accounts on behalf of Euroclear Bank SA/NV and Clearstream Banking, société anonyme) and each Warrant having the same ISIN shall have the same denomination or unit size (as applicable) and, if admitted to trading on the Euronext Lisbon regulated market ("**Euronext Lisbon**"), such Warrants shall be transferrable in lots at least equal to such denomination or unit multiples thereof.

- (3) The Warrants create direct, unsecured and unsubordinated obligations of the Issuer that rank *pari passu* in relation to one another and in relation to all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of obligations that have priority due to mandatory statutory provisions.
- (4) The Issuer shall be entitled to issue further Warrants with the same features at any time, without the consent of the Warrant Holders, by consolidating these with the original Warrants in a single issue and increasing their total volume. In the case of such an increase of Issue Size, the term "**Warrants**" shall also refer to the additional Warrants issued.
- (5) The Issuer shall be entitled to repurchase Warrants via the exchange or by means of off-market transactions at any time and at any price. The Issuer shall be under no obligation to inform the Warrant Holders of such repurchases. The repurchased Warrants may be cancelled, held, resold or used by the Issuer in some other manner.

No. 2

Extraordinary Termination

- (1) If an adjustment in accordance with No. 6 of the Issue Specific Conditions is not possible for any reasons whatsoever, the Issuer shall have the right to terminate all of the Warrants of a Series extraordinarily on the occurrence of one of the Termination Events described below by giving notice pursuant to No. 4 of the General Conditions, specifying the Termination Amount defined in accordance with paragraph (3) of this No. 2, and to declare them due for early repayment.

"**Termination Events**" shall be

- (a) the occurrence of a circumstance for which the Issuer is not responsible as a result of which the fulfillment of its obligations arising from the Warrants becomes or has become – for whatever reason – wholly or partly contrary to law or impracticable or unreasonable from a financial point of view, or
- (b) a change in the legal position or regulatory conditions or instructions as a result of which it has become contrary to law for the Issuer to maintain its hedge positions, or

- (c) the occurrence of a circumstance for which the Issuer is not responsible that makes it impossible or unreasonable for the Issuer (i) to convert the Reference Currency of the Underlying into the Settlement Currency of the Warrants by means of normal and legal transactions on the foreign exchange market or (ii) to transfer deposits held in the Reference Currency of the Underlying from a specific jurisdiction into another, or the occurrence of other circumstances for which the Issuer is not responsible that have a comparable negative effect on the convertibility of the Reference Currency of the Underlying into the Settlement Currency of the Warrants if the Issuer concludes as a result of these circumstances that conversion of the Reference Currency of the Underlying into the Settlement Currency of the Warrants is no longer possible (the "**Currency Disruption Event**"), or
- (d) the occurrence of circumstances for which the Issuer is not responsible pursuant to the provisions of No. 6 of the Issue Specific Conditions (Adjustments), as a result of which it is not possible to make Adjustments that are appropriate from a financial point of view to reflect the changes that have occurred.
- (2) All Termination Notices issued pursuant to this No. 2 shall be irrevocable. Any Termination by the Issuer pursuant to paragraph (1) of this No. 2 shall become effective on the date on which notice is given in accordance with No. 4 of the General Conditions or, if different, on the Termination Date specified in the announcement of the notice.
- (3) In the case of a Termination pursuant to paragraph (1) of this No. 2, the Issuer shall pay to each Warrant Holder in respect of each Warrant held by him an amount (the "**Extraordinary Termination Amount**"), determined by the Issuer in its reasonable discretion as the fair market value of a Warrant. In this event, the Issuer will transfer the Extraordinary Termination Amount for all of the Warrants affected by the Termination to the Central Securities Depository within fifteen (15) Banking Days at the head office of the Issuer and at the location of the Central Securities Depository after the date on which the Termination becomes effective for the credit of the Warrant Holders registered with the Central Securities Depository on the second Banking Day at the location of the Central Securities Depository following the date on which the Termination becomes effective ("**Payment Date upon Extraordinary Termination**"). Upon the transfer of the Extraordinary Termination Amount to the Central Securities Depository, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Central Securities Depository has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer is not possible within three months after the Payment Date upon Extraordinary Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the Frankfurt am Main Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.

No. 3

Presentation Period; Postponement of Maturity

- (1) The presentation period in accordance with § 801 (1) sentence 1 of the German Civil Code (*Bürgerliches Gesetzbuch*, "BGB") shall be reduced to ten years.
- (2) If Citigroup Global Markets Deutschland AG or the relevant paying agent is not in a position in fact or in law to fulfill its obligations arising from the Warrants in a legally permitted manner in Frankfurt am Main or at the location of the relevant paying agent, respectively, the maturity of those obligations shall be postponed to the date on which it is once again possible in fact and in law for Citigroup Global Markets Deutschland AG or the relevant paying agent to fulfill its obligations in Frankfurt am Main or at the location of the paying agent, respectively. No rights shall be due to the Warrant Holders against the assets of Citigroup Global Markets Deutschland AG or the paying agent located in Frankfurt am Main or elsewhere as a result of such a postponement of maturity.
- (3) The Issuer will give notice of the occurrence and cessation of an event described in paragraph (2) of this No. 3 without delay in accordance with No. 4 of the General Conditions.

No. 4

Notices

Notices under these Terms and Conditions shall be published on the Issuer's Website (or on an alternative web page which the Issuer shall announce with a notice period of at least six weeks in accordance with this provision) and shall become effective with respect to the Warrant Holders upon such publication, unless a later effective date is specified in the notice. If and to the extent that mandatory provisions of the applicable laws or exchange regulations require notices to be published elsewhere, they shall also be published, where necessary, in the place prescribed in each case.

No. 5

Replacement of the Issuer

- (1) The Issuer shall be entitled at all times, without the consent of the Warrant Holders, to designate a different company as issuer (the "**New Issuer**") with respect to all obligations arising from or in connection with the Warrants in place of the Issuer, provided that
 - (a) the New Issuer assumes all obligations of the Issuer arising from or in connection with the Warrants (the "**Assumption of Obligations**");
 - (b) the Assumption of Obligations has no negative credit rating, financial, legal or taxation consequences for the Warrant Holders and this is confirmed by an independent Trustee, to be appointed especially for this purpose by the Issuer at its expense, which is a bank or accountancy firm of international standing (the "**Trustee**");
 - (c) the Issuer or another company authorized by the Trustee provides a guarantee in favor of the Warrant Holders of all of the obligations of the New Issuer arising from the Warrants; and

- (d) the New Issuer has received all necessary permissions from the relevant authorities to enable it to fulfill all its obligations arising from or in connection with the Warrants.
- (2) In the event of such replacement of the Issuer, all references to the Issuer contained in these Terms and Conditions shall be deemed to be references to the New Issuer.
- (3) Notice shall be given of the replacement of the Issuer in accordance with No. 4 of the General Conditions. Upon fulfillment of the conditions described above, the New Issuer shall replace the Issuer in every respect and the Issuer shall be released from all obligations vis-à-vis the Warrant Holders arising from or in connection with the Warrants associated with its function as Issuer.

No. 6

Binding Determinations; Amendments to Terms and Conditions; Termination in the case of errors

- (1) Determinations, calculations and other decisions of the Issuer shall, in the absence of manifest error, be binding on all involved parties.
- (2) The Issuer has the right and, if the amendment is advantageous for the Warrant Holder, the obligation after becoming aware of obvious spelling and calculation errors in these Terms and Conditions to amend these without the consent of the Warrant Holders in the Tables of the annex to the Issue Specific Conditions as well as in the provisions regarding the determination of the Cash Amount. An error is obvious if it is recognizable for an investor, who has competent knowledge about the relevant type of Warrants, particularly taking into account the Initial Issue Price specified in Table 1 of the Annex to the Issue Specific Conditions and the other value-determining factors of the Warrants. In order to determine the obviousness and the relevant understanding of a knowledgeable investor, the Issuer may involve an independent expert. Corrections to these Terms and Conditions are published in accordance with No. 4 of these General Conditions.
- (3) The Issuer has the right to amend any contradictory provisions in these Terms and Conditions without the consent of the Warrant Holders. The change may only serve to clear up the contradiction and not lead to any other changes to the Terms and Conditions. Furthermore, the Issuer has the right to supplement provisions containing gaps in these Terms and Conditions without the consent of the Warrant Holders. The supplementation may serve only to fill the gap in the provision and may not lead to any other changes to the Terms and Conditions. Changes pursuant to sentence 1 and supplementations pursuant to sentence 3 are permitted only, if they are reasonable for the Warrant Holder taking into account the economic purpose of the Terms and Conditions, particularly if they do not have a material adverse effect on the interests of the Warrant Holders. Changes or supplementations of these Terms and Conditions are published in accordance with No. 4 of these General Conditions.
- (4) In the case of an amendment pursuant to paragraph (2) of this No. 2 or change or supplementation pursuant to paragraph (3) of this No. 6, the Warrant Holder may terminate the Warrants within four weeks after the notification of the correction or change or supplementation with immediate effect by written termination notice to the Paying Agent, if

as a consequence of the correction or change or supplementation, the content or scope of the Issuer's performance obligation changes in a manner that is not foreseeable for the Warrant Holder and detrimental for it. The Issuer will inform the Warrant Holder in the notification pursuant to paragraph (2) or paragraph (3) of this No. 6 about the potential termination right including the election right of the Warrant Holder regarding the Termination Amount. Termination date for purposes of this paragraph (4) (the "**Correction Termination Date**") is the date on which the Paying Agent receives the termination notice. An effective exercise of the termination by the Warrant Holder requires receipt of a termination statement signed with legally-binding effect, which contains the following information: (i) name of the Warrant Holder, (ii) designation and number of Warrants to be terminated, and (iii) designation of a suitable bank account to which the Termination Amount is to be credited.

- (5) To the extent that a correction pursuant to paragraph (2) of this No. 6 or change or supplementation pursuant to paragraph (3) of this No. 6 is out of the question, both the Issuer and each Warrant Holder may terminate the Warrants, if the preconditions of a contestation in accordance with Section 119 *et seq.* BGB exist vis-à-vis the respective Warrant Holders or vis-à-vis the Issuer. The Issuer may terminate the Warrants in their entirety, but not partially, through a notice in accordance with No. 4 of the General Conditions to the Warrant Holders; the termination must contain information about the Warrant Holder's election right regarding the Termination Amount. The Warrant Holder may terminate the Warrants vis-à-vis the Issuer by the Paying Agent receiving its termination notice; regarding the content of the termination notice, the rule of paragraph (4) sentence 4 applies accordingly. The termination by a Warrant Holder does not have any effect vis-à-vis the other Warrant Holders. The Termination Date in the sense of this paragraph (5) (the "**Error Termination Date**") is, in the case of a termination by the Issuer, the date on which the respective notice to the Holders in accordance with No. 4 of the General Conditions is made or, in the case of a termination by the Warrant Holder, the date on which the Paying Agent receives the termination notice. The termination must occur without undue delay after the party entitled to terminate has become aware of the cause for termination.
- (6) In the case of an effective termination pursuant to paragraph (4) or paragraph (5) of this No. 6, the Issuer will pay a Termination Amount to the Warrant Holders. The termination amount (the "**Termination Amount**") corresponds to either (i) the most recently determined market price of a Warrant (as defined below) determined by the Calculation Agent or (ii) upon request of the Warrant Holder, the purchase price paid by the Warrant Holder when acquiring the Warrant, if he documents it to the Paying Agent.

The Issuer will transfer the Termination Amount within three (3) Banking Days after the Termination Date to the Clearing System for credit to the accounts of the depositors of the Warrants or in the case of a termination by the Warrant Holder to the account stated in the termination notice. If the Warrant Holder demands repayment of the paid purchase price after the Termination Date, the amount of the difference, by which the purchase price exceeds the Market Price, is transferred subsequently. The rules of No. 3 of the Issue Specific Conditions concerning the payment terms apply accordingly. By payment of the Termination Amount, all rights of the Warrant Holders from the terminated Warrants lapse. This leaves any claims of the Warrant Holder for compensation of any negative interest according to Section 122

paragraph 1 BGB unaffected, unless these claims are excluded due to knowledge or grossly negligent ignorance of the Warrant Holder of the cause for termination in accordance with Section 122 paragraph 2 BGB.

If the Warrants are listed on an exchange the Market Price (the "**Market Price**") of the Warrants corresponds to the arithmetic mean of the cash settlement prices (*Kassakurse*), which were published on the three (3) Banking Days immediately preceding the Correction Termination Date or the Error Termination Date (each a "**Termination Date**") at the securities exchange where the Warrants are listed. If a Market Disruption pursuant to Section 7 of the Issue Specific Conditions for the Warrants occurred on any of these Banking Days, the cash settlement price on that day is not taken into account when determining the arithmetic mean. If no cash settlement prices were published on all three (3) Banking Days or a Market Disruption pursuant to Section 7 of the Issue Specific Conditions for the Warrants existed on all of those days, the Market Price corresponds to an amount, which is determined by the Calculation Agent in its reasonable discretion taking into account the market conditions existing on the Banking Day immediately prior to the Termination Date.

If the Warrants are not listed on an exchange the Market Price (the "**Market Price**") of the Warrants corresponds to an amount, which is determined by the Calculation Agent in its reasonable discretion taking into account the market conditions existing on the Banking Day immediately prior to the Correction Termination Date or the Error Termination Date (each a "**Termination Date**").

No. 7 Miscellaneous

- (1) *In case the Warrants are represented by a global bearer warrant pursuant to No. 2 (3) of the Issue Specific Conditions the following applies:*

The form and content of the Warrants, as well as all rights and obligations arising from the matters regulated in the Conditions, shall be governed in every respect by the laws of the Federal Republic of Germany.

*In case Nederlands Centraal Instituut voor Giraal Effectenverkeer B.V. ("**Euroclear Netherlands**") is specified as Central Securities Depository and the Warrants are issued in dematerialized form pursuant to No. 2 (3) of the Issue Specific Conditions the following applies:*

The Warrants shall be governed by the laws of the Federal Republic of Germany, except for No. 1 (1) and (2) of the General Conditions that are governed by Dutch law.

*In case Euroclear France S.A. ("**Euroclear France**") is specified as Central Securities Depository and the Warrants are issued in dematerialized form pursuant to No. 2 (3) of the Issue Specific Conditions the following applies:*

The Warrants shall be governed by the laws of the Federal Republic of Germany, except for No. 1 (1) and (2) of the General Conditions that are governed by French law.

*In case Central de Valores Mobiláros ("**CVM**") is specified as Central Securities Depository and the Warrants are issued in dematerialized form pursuant to No. 2 (3) of the Issue Specific Conditions the following applies:*

The Warrants shall be governed by the laws of the Federal Republic of Germany, except for No. 1 (1) and (2) of the General Conditions that are governed by Portuguese law.

*In case Euroclear Sweden AB ("**Euroclear Sweden**") is specified as Central Securities Depository and the Warrants are issued in dematerialized form pursuant to No. 2 (3) of the Issue Specific Conditions the following applies:*

The Warrants shall be governed by the laws of the Federal Republic of Germany, except for No. 1 (1) and (2) of the General Conditions that are governed by Swedish law.

*In case Euroclear Finland Ltd. ("**Euroclear Finland**") is specified as Central Securities Depository and the Warrants are issued in dematerialized form pursuant to No. 2 (3) of the Issue Specific Conditions the following applies:*

The Warrants shall be governed by the laws of the Federal Republic of Germany, except for No. 1 (1) and (2) of the General Conditions that are governed by Finnish law.

- (2) The exclusive place of jurisdiction for all legal actions or other proceedings arising from or in connection with the Warrants shall be Frankfurt am Main.
- (3) The place of performance shall be Frankfurt am Main.
- (4) If a provision of these Conditions is or becomes invalid or impracticable in whole or in part, the remaining provisions shall continue to be valid. The invalid or impracticable provision shall be replaced by a valid and practicable provision that reflects the economic objectives of the invalid provision as far as legally possible.
- (5) The Issuer reserves the right to introduce all of the Warrants or individual Series to trading on other securities exchanges as well, including those in foreign countries, and to offer the Warrants for sale publicly in foreign countries, and in this connection to take all measures necessary for the introduction of the Warrants to trading on the respective exchange or for a public offer.

IV. FORM OF FINAL TERMS

The subject matter of the Final Terms is governed by Article 22 (4) of the Prospectus Regulation. Accordingly, the Final Terms (i) contain new information relating to the information items in the schedules for the securities note that are listed in Annex XX of the Prospectus Regulation as Category B and Category C information items, and (ii) replicate or refer to optional items already set out in the Securities Note that are applicable to the respective Series. All information items within the relevant optional items are therefore required to be completed and information items that are not relevant are to be marked in the Final Terms as "not applicable".

Citigroup Global Markets Deutschland AG

Frankfurt am Main

(Issuer)

[in the case of an increase of issue size, insert: Final Terms dated [insert date: ●] (Tranche ●) (the "[First][●] Increase of Issue Size"), which are being consolidated with the outstanding [insert description of the Warrants: ●] ([WKN ●][●]) issued on [insert date of the first issue: ●][insert additional issue where applicable: ●] under the Three-Part Base Prospectus dated [insert date: ●] into a single issue.]

Final Terms dated

[insert date: ●]

*[in the case of a replacement of the Final Terms, insert: **(which replace the Final Terms dated [insert date: ●])**]*

to the

Tripartite Base Prospectus dated 13 May 2013
as amended
(the "**Tripartite Base Prospectus**")

[●] WARRANTS [●]

based on the following underlying[s]

[insert underlying(s): ●]

[ISIN: ●]

[*insert other identifier*: ●]

The respective Final Terms to the Tripartite Base Prospectus will be made available as a separate document in paper form free of charge at the address of the relevant paying agent and published on the Issuer's website (www.citifirst.com).

The subject matter of the Final Terms is [Call or Put Warrants (Product No. 1)] [Turbo Bull or Bear Warrants with knock-out (Product No. 2)][Limited Speeder Bull or Bear (corresponds to Product No. 2)] [Open End Turbo Warrants with knock-out (Product No. 3)][BEST Speeder Bull or Bear (corresponds to Product No. 3)] [Mini Future Warrants (Product No. 4)][Open End Speeder Bull or Bear (corresponds to Product No. 4)] [Capped Call or Capped Put Warrants (Product No. 5)] [Straddle Warrants (Product No. 6)] [Digital Call or Digital Put Warrants (Product No. 7)] [Barrier Warrants (Product No. 8)] [(the "**Warrants**" or the "**Series**") based on [a share][shares] [a security representing shares][securities representing shares] [a share index] [share indices] [an exchange rate] [exchange rates] [a commodity] [commodities] [a futures contract] [futures contracts] issued by Citigroup Global Markets Deutschland AG, Frankfurt am Main (the "**Issuer**").

*[in the case of an increase of issue size of Warrants issued under this Tripartite Base Prospectus, insert: The [insert number: ●] Warrants together with the [insert number: ●] Warrants with the securities identification number [WKN ●][●], issued under the Final Terms dated [insert date: ●] (the "**First Final Terms**") [insert additional issue where appropriate: ●] to the Tripartite Base Prospectus for Warrants dated [insert date: ●] as amended by any supplements, form a single issue within the meaning of No. 1 (4) of the General Conditions, i.e. they have the same [WKN][●] and – with the exception of the number – the same features (referred to together as the "**Warrants**").]*

The Final Terms were prepared in accordance with Article 5 (4) of Directive 2003/71/EC of the European Parliament and of the Council of 4 November 2003 (as most recently amended by Directive 2010/73/EU of the European Parliament and of the Council of 24 November 2010) (the "Prospectus Directive") and must be read in conjunction with the Tripartite Base Prospectus (consisting of the Summary and the Securities Note, each dated 13 May 2013, and the Registration Form of Citigroup Global Markets Deutschland AG dated 3 May 2013, including any supplements). Complete information about the Issuer and the offer of the Warrants can be obtained only from a synopsis of these Final Terms together with the Tripartite Base Prospectus (including all related supplements, if any).

The Final Terms to the Tripartite Base Prospectus take the form of a separate document within the meaning of Article 26 (5) of Commission Regulation (EC) No. 809/2004 of 29 April 2004 as amended by Commission Delegated Regulation (EU) No. 486/2012 of 30 March 2012 and Commission Delegated Regulation (EU) No. 862/2012 of 4 June 2012 (the "**Prospectus Regulation**").

An issue specific summary that has been completed for the Warrants is attached to these Final Terms.

[Where the DAX[®]/X-DAX[®] is the Underlying, the following should be noted:

The relevant observation price for the determination of the knock-out event where the DAX[®]/X-DAX[®] is the underlying includes both the prices of the DAX[®] and the prices of the X-DAX[®]. In this context, the respective exchange trading hours play a decisive role.

In the case of Turbo Warrants relating to DAX[®]/X-DAX[®], this means that: the calculation of the DAX[®] begins from 9.00 a.m. and ends at 17.30 p.m. (in each case local time in Frankfurt am Main) with the prices of the Xetra[®] closing auction.

The X-DAX[®], the indicator for the performance of the DAX[®] before the exchange opens and after Xetra[®] closes, is calculated on each exchange day on the basis of DAX[®] Future prices from 8.00 a.m. until the start of calculation of the DAX[®] and from 17.45 p.m. until 22.00 p.m. (in each case local time in Frankfurt am Main) including the DAX[®] Future closing auction.

The period in which the knock-out event can occur is therefore considerably longer than in the case of traditional DAX[®] Turbo Warrants. If there are changes to the underlying trading hours, the same changes apply for the purposes of these provisions.

On the valuation date (Turbo Warrants with a fixed term) or the exercise/termination date (Open End and Mini Future Warrants), the relevant price as the "Reference Price of the Underlying" is the official closing price of the DAX[®] Performance Index.]

[For reasons of clarity, the presentation of the tables, in particular the arrangement of the columns, in the Final Terms may differ from the presentation chosen here.]

RISK FACTORS

Investors should read carefully the risk factors set out under "I. Risk factors of Warrants" in the Securities Note and under 1. in the Registration Form.

[In case Limited Speeder Bull or Bear Warrants insert: Investor in Limited Speeder Bull or Bear Warrants should in particular read carefully the risk factors relating to Turbo Bull or Bear Warrants with knock-out (Product No. 2) in the Securities Note which are applicable to Limited Speeder Bull or Bear Warrants as well.]

[In case BEST Speeder Bull or Bear Warrants insert: Investor in BEST Speeder Bull or Bear Warrants should in particular read carefully the risk factors relating to Open End Turbo Bull or Bear Warrants with knock-out (Product No. 3) in the Securities Note which are applicable to BEST Speeder Bull or Bear Warrants as well.]

[In case Open End Speeder Bull or Bear Warrants insert: Investor in Open End Speeder Bull or Bear Warrants should in particular read carefully the risk factors relating to Mini Future Warrants (Product No. 4) in the Securities Note which are applicable to Open End Speeder Bull or Bear Warrants as well.]

In particular, the following optional risk factors that relate only to certain types of Warrants are applicable to these Warrants (please refer to "I. Risk factors of Warrants" in the Securities Note):

- **Risk relating to the loss of time value of Warrants depending on the remaining term]**
- **Risks relating to other factors affecting value such as money market interest rates, expected dividends and the Issuer's refinancing costs]**
- **Risk of Warrants with currency hedging (Quanto Warrants)]**
- **Risk relating to hedging transactions in the underlying in the case of Warrants with knock-out]**
- **Risk from the occurrence of a knock-out event outside the trading hours in the secondary market]**

[In the case of [Turbo][Speeder] Warrants for which the knock-out barrier is equal to the strike, the following risk factors also apply:

- **Risk of total loss prior to maturity if a knock-out event occurs]**

[In the case of [Turbo][Speeder] Warrants for which the respective strike is not equal to the knock-out barrier and the risk of jumps in the price of the underlying is not borne directly by the warrant holder ([Turbo][Speeder] stop-loss without direct gap risk), the following risk factors also apply:

- **Risk of total loss prior to maturity if a knock-out event occurs]**

[In the case of [Turbo][Speeder] Warrants for which the respective strike is not equal to the knock-out barrier and the risk of a total loss due to jumps in the price of the underlying (gap risk) is borne directly by the warrant holder ([Turbo][Speeder] stop-loss with gap risk), the following risk factors also apply:

- **Risk of total loss prior to maturity if a knock-out event occurs]**

- [• **Price risk in connection with rising implied volatility]**
- [• **Risk of total loss due to jumps in the price of the underlying (gap risk)]**
- [• **Risk of exercise of the Warrants and Issuer's right of termination]**
- [• **Risk of total loss due to a knock-out event and risk from the Issuer unwinding its hedging position]**
- [• **Additional risks relating to hedging transactions in the underlying for Warrants with knock-out]**
- [• **Price risk in connection with rising implied volatility for Turbo stop-loss Warrants with gap risk]**
- [• **Risk relating to adjustments of the strike and of the knock-out barrier]**

[In the case of Capped Warrants, the following risk factors also apply:

- **Risk from the limitation of the cash amount]**

[In the case of Digital Warrants, the following risk factors also apply:

- **Risk of total loss if the condition for payment of the cash amount does not occur]**

[In the case of Straddle Warrants, the following risk factors also apply:

- **Risk of loss up to and including a total loss if the price of the underlying on exercise or expiry is close to or equal to the strike]**

[In the case of Barrier Warrants, the following risk factors also apply:

- **Risk of total loss prior to maturity if a knock-out event occurs**
- **Price risk in connection with rising implied volatility**
- **Risk of jumps in the price of the underlying (gap risk)]**

[The following optional underlying specific risk factors also apply to Warrants (please refer to "3. Underlying specific risk factors" under Section "I. Risk factors of Warrants" in the Securities Note):

- [• **Risk in connection with indices as the underlying]**
- [• **Risk in connection with exchange rates as the underlying]**
- [• **Risk in connection with commodities as the underlying]**
- [• **Risk in connection with futures contracts as the underlying]]**

Conflicts of interest

[With respect to interests of natural and legal persons involved in the issue and resulting potential conflicts of interest, please refer to "4. Risk of conflicts of interest" under "I. Risk factors of Warrants" in the Securities Note.][●]

Offer method

[The Warrants are being offered over-the-counter on a continuous basis [in [one] [or] [several] series[, with different features]].

The offer of the Warrants begins in [Germany] [,][and] [Portugal][,] [and] [France][,] [and] [the Netherlands][,] [and] [Sweden][,] [and] [Finland] on ●.]

[The Warrants are being offered during a subscription period [in [one] [or] [several] series[, with different features,]] at a fixed price plus an issuing premium. When the respective subscription period has ended, the Warrants will be sold over-the-counter.

The subscription period begins on [●] and ends on [●].]

The Issuer reserves the right to terminate [the subscription period][the offer] early for any reason whatsoever. [If a total subscription volume of [●] for the Warrants has been reached prior to the end of the subscription period at any time on a business day, the Issuer will terminate the subscription period for the securities at the relevant time on that business day without prior notice.]

[The Issuer reserves the right to cancel the issue of the Warrants for any reason whatsoever.]

[In particular, the issue of the Warrants depends, among other things, on whether the Issuer has received a total volume of at least [●] valid subscription applications for the securities by the end of the subscription period. If this condition is not met, the Issuer may cancel the issue of the Warrants at the end of the subscription period.]

[where applicable: Minimum subscription amount: [●] Warrants]

[where applicable: Maximum subscription amount: [●] Warrants]

Stock exchange listing

[Application has been made to [admit][include] the Warrants [to trading] in the [regulated] [market] [unofficial market] on the [Frankfurt] [and] [Stuttgart] [●] Stock Exchange[, which [is [not] a regulated market][are [not] regulated markets] within the meaning of Directive 2004/39/EC]. [The Warrants have been admitted to the [regulated] [●] market of the [●] securities exchange, which is/are [not] a regulated market within the meaning of Directive 2004/39/EC.]

[No application has been made for the Warrants to be admitted to a regulated market on a stock exchange.]

Consent to the use of the Prospectus

[With respect to Non-exempt Offers pursuant to Article 3 (2) of the Prospectus Directive the Issuer consents to the use of the Prospectus by all financial intermediaries (general consent). The general consent to the subsequent resale and final placement of the securities by the financial intermediar[y][ies] is given with respect to [Germany][,] [and] [Portugal][,] [and] [France][,] [and] [the Netherlands][,] [and] [Sweden][,] [and] [Finland].]

[With respect to Non-exempt Offers pursuant to Article 3 (2) of the Prospectus Directive the Issuer consents to the use of the Prospectus by the following financial intermediaries (individual consent): [●]. The individual consent to the subsequent resale and final placement of the securities by the financial intermediar[y][ies] is given with respect to [Germany][,][and] [Portugal][,] [and] [France][,] [and] [the Netherlands][,] [and] [Sweden][,] [and] [Finland].]

[Furthermore, this consent is given subject to [●].]

[The subsequent resale and final placement of the securities by financial intermediaries may take place [during the period from [●] until [●] (the "Offer Period")] [during the period of validity of the Tripartite Base Prospectus pursuant to § 9 of the German Securities Prospectus Act (*Wertpapierprospektgesetz*, "WpPG").]

Issue price, price calculation and costs and taxes on purchase

The initial issue price is specified in Table 1 of the annex to the Issue Specific Conditions.

Both the initial issue price and the bid and offered prices quoted by the Issuer during the term of the Warrants are calculated using theoretical pricing models. In this context, the bid and offered prices for the Warrants are determined on the basis, among other things, of the mathematical value of the Warrants, the costs of hedging and accepting risk and the expected return. Please see also the information provided under "Risk relating to the calculation of the warrant prices" and "4. Risk of conflicts of interest", both in Section "I. Risk factors of Warrants".

[No costs or taxes of any kind for the warrant holders will be deducted by the Issuer whether the Warrants are purchased off-market (in countries where this is permitted by law) or via a stock exchange. Such costs or taxes [(see below for possible payments of sales commissions)] should be distinguished from the fees and costs charged to the purchaser of the Warrants by his bank for executing the securities order, which are generally shown separately on the statement for the purchase transaction in addition to the price of the Warrants. The latter costs depend solely on the particular terms of business of the warrant purchaser's bank. In the case of a purchase via a stock exchange, additional fees and expenses are also incurred. Furthermore, warrant holders are

generally charged an individual fee in each case by their bank for managing the securities account. Notwithstanding the foregoing, profits arising from the Warrants or capital represented by the Warrants may be subject to taxation.]

[The Issuer allows a sales commission of [up to] [●] per cent in respect of these Warrants. The sales commission is based on the initial issue price or, if greater, on the selling price of the Warrant in the secondary market.]

[Insert description of concrete costs: ●]

Information on the underlying

[●]

Publication of additional information

[The Issuer does not intend to provide any additional information about the underlying.] [The Issuer has provided additional information about the underlying under [●] [and will update this information continuously following the issue of the Warrants]. This information includes [●].]

The Issuer will publish additional notices described in detail in the terms and conditions. Examples of such notices are adjustments of the features of the Warrants as a result of adjustments relating to the underlying which may, for example, affect the conditions for calculating the cash amount or a replacement of the underlying. A further example is the early redemption of the Warrants if an adjustment cannot be made.

Notices under these terms and conditions are generally published on the Issuer's website. If and to the extent that mandatory provisions of the applicable laws or exchange regulations require notices to be published elsewhere, they will also be published, where necessary, in the place prescribed in each case.

Selling restrictions

Information on selling restrictions can be found under "VI. Selling restrictions" in the Securities Note.

[Where applicable, insert additional selling restrictions: ●]

[ILLUSTRATION OF THE MECHANISM OF OPERATION OF THE WARRANTS

Where applicable, insert example(s) for complex derivative securities: •]

ANNEX – ISSUE SPECIFIC SUMMARY

[the issue specific summary is to be appended to the Final Terms by the Issuer]

V. TAXATION

All taxes or other levies that may be incurred in connection with the payment of the cash amount shall be borne by the warrant holders.

Withholding tax may apply to any payments due under the Warrants or in the event that the Warrants are sold.

The following section briefly summarizes specific taxation issues related to the Warrants in the Offer State(s). It deals only with particular aspects of the taxation issues and does not in any way represent a comprehensive analysis of all the tax consequences of purchasing, holding or selling the Warrants, or exercising them for cash settlement or of their expiry. Furthermore, no account is taken of the tax regulations of countries other than the Offer State(s) nor of the individual circumstances of the investor. Exceptions to the legal position presented here may apply to specific situations or to specific investors.

This analysis is based on the legal position applicable in the Offer State(s) at the date of the Securities Note. The applicable legal position and its interpretation by the tax authorities may be subject to change, in some circumstances retrospectively. In particular in Germany at the present time, there are only a few statements made in court rulings and by the finance ministry relating to the tax treatment of innovative and structured financial products that relate to Warrants of this type. The possibility cannot be ruled out that the tax authorities, courts or banks (paying or custody agents) may hold an opinion of the tax position that is different from the opinion presented here.

Potential investors are recommended to consult their personal tax advisers in order to obtain further information on the tax consequences of purchasing, holding or selling the options, exercising them for cash settlement or of their expiry. Those advisers alone are in a position to make an adequate assessment based on the particular tax circumstances of the individual investor.

1. Taxation of income in the Federal Republic of Germany

The information below relates only to the taxation of private individuals whose domicile or customary residence is in Germany, and who hold the Warrants as private assets.

Investment income from the sale or exercise of the Warrants for cash settlement is subject to withholding tax if the Warrants are kept or managed in a securities account of a domestic bank or financial services institution (including a domestic branch of a foreign bank or financial services institution) or a domestic securities trading firm or domestic securities trading bank, or if the sale is executed by one of these institutions and the investment income is paid out or credited by the relevant institution (paying agent).

In the event of a sale, the basis of assessment is the difference between the income from the sale and the acquisition costs after deducting expenses directly and pertinently connected with the sale transaction, and in the event of cash settlement, the difference between the proceeds of the cash settlement in respect of the Warrants and the cost acquisition costs of the Warrants. In the case of transactions that are not conducted in euros, the income must be converted into euros at the time of sale and the cost of purchase into euros at the time of purchase.

The withholding tax rate is 26.375 per cent (including the solidarity surcharge, plus church tax, where applicable).

In principle, the income tax is covered with respect to these revenues with the deduction of the withholding tax (so called final withholding tax). Expenses actually incurred in connection with the investment income are not deductible for tax purposes. If no church tax is withheld by the paying office upon formal application of the warrant holder, the warrant holder remains obliged to file a tax return.

If the investment income is not paid out by a paying agent and no investment income withholding tax is therefore incurred, the investment income is subject to tax at a rate of 26.375 per cent (including the solidarity surcharge, plus church tax, where applicable).

A general assessment at the individual personal tax rate is possible if the personal marginal tax rate of the taxpayer does not exceed 25 per cent (*Günstigerprüfung*). However, also within this assessment procedure, no deduction of income-related expenses is possible.

In determining the overall revenues from the taxpayer's investment income, a lump-sum saver's deduction in the amount of EUR 801 (EUR 1,602 for joint assessments) is deducted.

If the Warrant expires, the acquisition costs of the Warrant are not deductible for tax purposes as expenditure incurred in vain (*vergebliche Werbungskosten*), in the opinion of the tax authorities.

The Issuer does not assume any responsibility for the withholding of taxes at the source.

2. Taxation of income in the Republic of Portugal

The information below relates only to the taxation of private individuals whose tax residence is in Portugal, and who hold the Warrants as private assets.

Income from transactions related to Warrants is generally classified as a capital gain.

The amount of income subject to personal income tax upon the disposal of a Warrant is determined by the positive difference between the sale price and the acquisition price. Any expenses directly and pertinently connected with the sale transaction are considered to be irrelevant for purpose of assessing the relevant taxable gain.

The relevant income subject to personal income tax upon the exercise of the Warrants for cash settlement is determined, at the moment of that exercise, by the positive difference between the market price of the underlying asset and the exercise price, for call warrants, and by the positive difference between the exercise price and the market price of the underlying asset, for put warrants, less the warrant acquisition price.

In the case of transactions that are not conducted in euros, the relevant amounts must be converted into euros at the time the said transactions take place, the applicable exchange rate being determined according to the rules contained in the personal income tax code.

Individuals may choose between (i) the taxation of the positive balance between capital gains and losses (losses resulting from transactions with parties domiciled in a tax haven as listed in the Governmental Order (Portaria) 150/2004 of February 13, as amended, are excluded) at the

autonomous rate of 28 per cent, or (ii) to aggregate that income with the remaining taxable income.

When aggregation is chosen, the taxable income will be subject to the general progressive personal income tax rates varying between 14.5 per cent and 48 per cent, and a solidarity surcharge will be added to taxable income exceeding €80,000. This surcharge is calculated at a flat rate of 2.5 per cent up to €250,000 and at a rate of 5 per cent on the taxable income exceeding €250,000, and a surtax of 3.5 per cent will also apply. The option for aggregation allows an individual to carry forward any losses related with Warrants during a two year period. However, such losses may only be used to offset future gains deriving from transactions related to Warrants.

If the Warrant expires, the acquisition costs of the Warrant are not deductible for tax purposes as expenditure incurred in vain.

A 10 per cent stamp duty applies to the acquisition through gift or inheritance of Warrants by an individual, except when the beneficiary is the respective spouse, parent or children.

Portugal does not have a wealth tax or an estate tax.

The Issuer does not assume any responsibility for the payment of any taxes due by Portuguese resident individuals in the Republic Portugal.

3. Taxation of income in the French Republic

The information below relates only to the taxation of private individuals whose domicile or customary residence is in France, and who hold the Warrants as private assets.

We understand that the Warrants serve no income during its life.

If the Warrants are sold on the secondary market, the gain (equal to the difference between (i) the sale price and (ii) the purchase price of the Warrant) will be subject to personal income tax at the marginal rate up to 45 per cent, excluding exceptional contributions for high-income individuals, and to social contributions at the rate of 15.5 per cent (of which 5.1 per cent are deductible from the income subject to personal income tax). Any loss made may be set off against capital gains made on other securities or certificates during the year in question and the following ten years.

Upon expiry/redemption of the Warrants, the gain (equal to the difference between (i) the monies received upon expiry/redemption or the value of the assets received on that date and (ii) the purchase price of the Warrants) will be subject to ordinary personal income tax with a marginal rate currently up to 45 per cent, excluding exceptional contributions for high-income individuals, and to social contributions at the rate of 15.5 per cent (of which 5.1 per cent are deductible from the income subject to personal income tax). Any loss made will not be deductible from other sources of income subject to personal income tax.

Currently, the French Republic does not levy any emission, stamp or registration taxes in relation to the Warrants unless shares or stock are acquired.

The French Republic has implemented the Savings Tax Directive (2003/48/EC) by providing information about the beneficial owner of the Warrants including information about income from the Warrants. Such information is provided by the French Tax Authorities to the competent

authority of the other country in which the beneficial owner is resident. Therefore, the French Republic does not raise a special withholding tax based on the Savings Tax Directive.

The potential investor in the Warrants should note that the information regarding the tax consequences in the documentation of the program and in the Securities Note is merely intended to provide a basic background with regard to the stamp and withholding taxes. The information provided relies on applicable laws, the practice of the French tax authorities and precedents of the competent French courts at the time such information was gathered. The information is not intended to provide for an exhaustive presentation of all tax aspects which may be relevant for the decision to acquire, hold, sell or redeem the Warrants. Especially, the information does not include special circumstances or concomitants which may be relevant for a specific Investor. Potential Investors in the Warrants are therefore encouraged to seek advised from their tax adviser with regard to an investment in the Warrants.

4. Taxation of income in the Netherlands

The following is a general summary of certain Netherlands tax consequences of the acquisition, holding and disposal of the Warrants. This summary does not purport to describe all possible tax considerations or consequences that may be relevant to a holder or prospective holder of Warrants and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as investors that are subject to taxation in Bonaire, Sint Eustatius and Saba and trusts or similar arrangements) may be subject to special rules. In view of its general nature, it should be treated with corresponding caution. Holders or prospective holders of Warrants should consult with their tax advisers with regard to the tax consequences of investing in the Warrants in their particular circumstances. The discussion below is included for general information purposes only.

Except as otherwise indicated, this summary only addresses Netherlands national tax legislation and published regulations, as in effect on the date hereof and as interpreted in published case law until this date, without prejudice to any amendment introduced at a later date and implemented with or without retroactive effect.

Please note that this summary does not describe the Netherlands tax consequences for:

- i. holders of Warrants if such holders, and in the case of individuals, his/her partner or certain of their relatives by blood or marriage in the direct line (including foster children), have a substantial interest or deemed substantial interest in the Issuer under The Netherlands Income Tax Act 2001 (in Dutch: "Wet inkomstenbelasting 2001"). Generally speaking, a holder of securities in a company is considered to hold a substantial interest in such company, if such holder alone or, in the case of individuals, together with his/her partner (as defined in The Netherlands Income Tax Act 2001), directly or indirectly, holds (i) an interest of 5 per cent or more of the total issued and outstanding capital of that company or of 5 per cent or more of the issued and outstanding capital of a certain class of shares of that company; or (ii) rights to acquire, directly or indirectly, such interest; or (iii) certain profit sharing rights in that company that relate to 5 per cent or more of the company's annual profits and/or to 5 per cent or more of the company's liquidation proceeds. A deemed substantial interest arises if a

substantial interest (or part thereof) in a company has been disposed of, or is deemed to have been disposed of, on a non-recognition basis;

- ii. holders of Warrants who are resident of the Netherlands, if such holders, and in the case of individuals, his/her partner or certain of their relatives by blood or marriage in the direct line (including foster children), have (a) a substantial interest or deemed substantial interest or right in another company and will obtain, under the Warrants, an additional interest or right in this company or (b) a substantial interest or deemed substantial interest under the Warrants in another company;
- iii. holders of Warrants who are non resident of the Netherlands, if such holders, and in the case of individuals, his/her partner or certain of their relatives by blood or marriage in the direct line (including foster children), have (a) a substantial interest or deemed substantial interest or right in a Netherlands company and will obtain, under the Warrants, an additional interest or right in this Netherlands company or (b) a substantial interest or deemed substantial interest under the Warrants in a Netherlands company;
- iv. holders of Warrants who are resident of the Netherlands if such Warrants entitle the holder to the beneficial ownership of (a) profit participating loans or rights in an entity or (b) an interest in the enterprise of a tax transparent entity;
- v. holders of Warrants who are non resident of the Netherlands if such Warrants entitle the holder to the beneficial ownership of (a) profit participating loans or rights in a Netherlands entity or (b) an interest in the enterprise of a Netherlands tax transparent entity;
- vi. holders of Warrants if such Warrants are or treated as (a) shares (in Dutch: "aandelen"), (b) profit participating certificates (in Dutch: "winstbewijzen"), (c) debt characterized as equity for Netherlands tax purposes, and (d) redeemable in exchange for, convertible into or linked to shares or other equity instruments issued or to be issued by a Netherlands entity;
- vii. holders of Warrants if the holder has an interest or could obtain an interest under the Warrants in (a) real estate located in the Netherlands or (b) an entity of which the assets consist or have consisted, directly or indirectly, on a consolidated basis or not, for 30 per cent or more, of real estate located in the Netherlands;
- viii. holders of Warrants if the holder has an interest or could obtain an interest under the Warrants that qualifies as a "participation" (generally, an interest of 5 per cent or more alone or together with a related entity) for the purposes of the Netherlands Corporate Income Tax Act 1969 (in Dutch: "Wet op de vennootschapsbelasting 1969");
- ix. holders of Warrants who are individuals for whom the Warrants or any benefit derived from the Warrants are a remuneration or deemed to be a remuneration for activities performed by such holders or certain individuals related to such holder (as defined in The Netherlands Income Tax Act 2001); and
- x. pension funds, investment institutions (in Dutch: "fiscale beleggingsinstellingen"), exempt investment institutions (in Dutch: "vrijgestelde beleggingsinstellingen") (as defined in The Netherlands Corporate Income Tax Act 1969) and other entities that are

exempt from Netherlands corporate income tax.

Taxes on income and capital gains

Residents of the Netherlands

Generally speaking, if the holder of Warrants is an entity that is a resident or deemed to be resident of the Netherlands for Netherlands corporate income tax purposes, any payment under the Warrants or any gain or loss realized on the disposal or deemed disposal of the Warrants is subject to Netherlands corporate income tax at a rate of 25 per cent (a corporate income tax rate of 20 per cent applies with respect to taxable profits up to €200,000, the bracket for 2013).

If a holder of Warrants is an individual, resident or deemed to be resident of the Netherlands for Netherlands income tax purposes (including the non resident individual holder who has made an election for the application of the rules of The Netherlands Income Tax Act 2001 as they apply to residents of the Netherlands), any payment under the Warrants or any gain or loss realized on the disposal or deemed disposal of the Warrants is taxable at the progressive income tax rates (with a maximum of 52 per cent), if:

- i. the Warrants are attributable to an enterprise from which the holder of Warrants derives a share of the profit, whether as an entrepreneur or as a person who has a co entitlement to the net worth of such enterprise without being a shareholder (as defined in The Netherlands Income Tax Act 2001); or
- ii. the holder of Warrants is considered to perform activities with respect to the Warrants that go beyond ordinary asset management (in Dutch: "normaal, actief vermogensbeheer") or derives benefits from the Warrants that are (otherwise) taxable as benefits from other activities (in Dutch: "resultaat uit overige werkzaamheden").

If the above-mentioned conditions i. and ii. do not apply to the individual holder of Warrants, such holder will be taxed annually on a deemed income of 4 per cent of his/her net investment assets for the year at an income tax rate of 30 per cent. The net investment assets for the year are the fair market value of the investment assets less the allowable liabilities on 1 January of the relevant calendar year. The Warrants are included as investment assets. A tax free allowance may be available. An actual gain or loss in respect of the Warrants is as such not subject to Netherlands income tax.

Non residents of the Netherlands

A holder of Warrants that is neither resident nor deemed to be resident of the Netherlands nor has made an election for the application of the rules of The Netherlands Income Tax Act 2001 as they apply to residents of the Netherlands will not be subject to Netherlands taxes on income or capital gains in respect of any payment under the Warrants or in respect of any gain or loss realized on the disposal or deemed disposal of the Warrants, provided that:

- i. such holder does not have an interest in an enterprise or deemed enterprise (as defined in The Netherlands Income Tax Act 2001 and The Netherlands Corporate Income Tax Act 1969) which, in whole or in part, is either effectively managed in the Netherlands or carried on through a permanent establishment, a deemed permanent establishment or a permanent representative in the Netherlands and to which enterprise or part of an enterprise the Warrants are attributable; and

- ii. in the event the holder is an individual, such holder does not carry out any activities in the Netherlands with respect to the Warrants that go beyond ordinary asset management and does not derive benefits from the Warrants that are (otherwise) taxable as benefits from other activities in the Netherlands.

Gift and inheritance taxes

Residents of the Netherlands

Gift or inheritance taxes will arise in the Netherlands with respect to a transfer of the Warrants by way of a gift by, or on the death of, a holder of such Warrants who is resident or deemed resident of the Netherlands at the time of the gift or his/her death.

Non residents of the Netherlands

No Netherlands gift or inheritance taxes will arise on the transfer of Warrants by way of gift by, or on the death of, a holder of Warrants who is neither resident nor deemed to be resident in the Netherlands, unless:

- i. in the case of a gift of a Warrant by an individual who at the date of the gift was neither resident nor deemed to be resident in the Netherlands, such individual dies within 180 days after the date of the gift, while being resident or deemed to be resident in the Netherlands; or
- ii. the transfer is otherwise construed as a gift or inheritance made by, or on behalf of, a person who, at the time of the gift or death, is or is deemed to be resident in the Netherlands.

For purposes of Netherlands gift and inheritance taxes, amongst others, a person that holds the Netherlands nationality will be deemed to be resident in the Netherlands if such person has been resident in the Netherlands at any time during the ten years preceding the date of the gift or his/her death. Additionally, for purposes of Netherlands gift tax, amongst others, a person not holding the Netherlands nationality will be deemed to be resident in the Netherlands if such person has been resident in the Netherlands at any time during the twelve months preceding the date of the gift. Applicable tax treaties may override deemed residency.

Value added tax (VAT)

No Netherlands VAT will be payable by the holders of the Warrants on any payment in consideration for the issue of the Warrants or with respect to the payment of interest or principal by the Issuer under the Warrants.

Other taxes and duties

No Netherlands registration tax, customs duty, stamp duty or any other similar documentary tax or duty will be payable by the holders of the Warrants in respect or in connection with the issue of the Warrants or with respect to the payment of interest or principal by the Issuer under the Warrants.

5. Taxation of income in Sweden

Warrants

Warrants are considered "financial instruments" for Swedish tax purposes. Any and all type of divestments (including redemptions or settlements) of Warrants are considered to constitute a taxable event and taxed in accordance with applicable capital taxation rules. Capital gains, or losses, are normally calculated as the difference between any and all remuneration, after divestment costs have been deducted, and the tax base of the Warrants including investment costs. When calculating the tax base, the so-called "average method" is normally used. The method entails that the tax base of a financial instrument is the average tax base for all financial instruments of the same class and kind held by a person or entity.

Tax consequences may vary depending on the type of underlying asset and the Warrant holders' situation. If the underlying assets are shares, share depository receipts, futures based on shares or indices, et cetera, the tax rules regarding shares are generally applicable. If the underlying assets are receivables or similar assets, the tax rules regarding these types of assets are generally applicable. If the underlying assets are commodities or futures based on commodities, et cetera, the tax rules regarding these types of assets will instead be applicable. The classification of the Warrants is mostly of concern when setting off capital gains towards capital losses.

Warrant holders resident in Sweden

Proceeds, to the extent they constitute a capital gain, and deemed interest, paid to a Warrant holder who is a tax resident in Sweden for tax purposes and an individual will be taxed as capital income and taxed at flat rate of 30 per cent. Specific tax consequences may, however, be applicable to certain individuals and certain ways of investing, for example, investments through endowments or share savings accounts.

Proceeds, to the extent they constitute a capital gain, and deemed interest, paid to a Warrant holder who is a tax resident in Sweden for tax purposes and a legal entity will be taxed as business income and taxed at a flat rate of 22 per cent. Specific tax consequences may, however, be applicable to certain categories of legal entities, for example, investment companies, life insurance companies and partnerships.

For Warrant holders who are legal entities deemed interest will become taxable on an annual accrual basis in accordance with Swedish GAAP, while capital gain will become taxable at the time of the disposal, redemption or settlement, of the Warrants. A Warrant holder who is a legal entity may also become subject to corporate income tax in case of unrealized currency exchange gains on an annual basis in accordance with Swedish GAAP. Swedish GAAP may, however, have a different content for certain types of legal entities, for example, banks and insurance companies.

Tax on payment of deemed interest or dividends to Warrant holders who are private individuals may be withheld at source. The Issuer does not assume any responsibility for the withholding of taxes at the source.

Warrant holders not resident in Sweden

Individuals who are non-resident in Sweden for tax purposes (and who has not been resident in Sweden during the last ten-year period) and legal entities not incorporated, registered, and without

a permanent establishment, in Sweden are normally not subject to Swedish capital income taxation on payments of capital gain or deemed interest.

Sweden does not impose withholding tax on payments of deemed interest abroad unless such payments are re-categorized as dividend distribution. Sweden does not impose taxation of the recipient of capital payments abroad, unless such payments are categorized as royalty-like payments. The Issuer does not assume any responsibility for the withholding of taxes at the source.

6. Taxation of income in Finland

The following section briefly summarizes specific taxation issues related to the Warrants in Finland. It deals only with particular aspects of the taxation issues and does not in any way represent a comprehensive analysis of all the tax consequences of the purchase, sale and redemption of the respective products. Furthermore, no account is taken of the tax regulations of countries other than Finland, nor of the individual circumstances of the investor. Exceptions to the legal position presented here may apply to specific situations or to specific investors.

This analysis is based on the Finnish legal position applicable at the date of the Securities Note. The applicable legal position and its interpretation by the tax authorities may be subject to change, which change may take place also retrospectively. It should be noted that there is in Finland very limited case law, guidelines by the tax authorities or tax practice relating to the tax treatment of innovative structured financial products such as Warrants of this type. As discussed below, there is a significant tax matter pending currently in the Finnish Supreme Administrative Court concerning the Finnish tax treatment of Warrants. There is a significant possibility that the tax authorities, courts or banks (paying or custody agents) may hold an opinion of the tax position that is different from the opinion presented here.

Potential investors are recommended to consult their personal tax advisers in order to obtain further information on the overall tax consequences and tax reporting obligations applicable with respect of the purchase, sale and redemption of the respective products, taking into account that there may be differences in the tax treatment of different series of the Warrants. Those advisers alone are in a position to make an adequate assessment based on the particular tax circumstances of the individual investor.

The information below relates only to the taxation of private individuals who are resident in Finland for income tax purposes, and who hold the Warrants as private assets.

Capital gains from the sale or exercise of listed cash-settled Warrants are subject to taxation in Finland as capital income of the Finnish resident individual investor. The tax rate applicable to capital income is at present 30 per cent. The tax rate for the part of capital income which exceeds EUR 50,000 per year is 32 per cent. (it should be noted that there are plans currently to reduce this threshold to EUR 40,000 as of 2014). Capital gains are not subject to tax withholding, and the taxes due are payable by the Finnish resident individual investor personally. Capital gains arising from a sale of assets are exempted from tax if the total amount of the sales prices of the assets sold by the Finnish resident individual investor does not exceed EUR 1,000 in a tax year.

Capital losses arising from the sale or exercise of listed cash-settled Warrants are deductible only from capital gains arising from the sale of assets in the same year or during the following five years. The capital losses will not, however, be tax deductible if the total amount of the acquisition prices of the assets sold by the Finnish resident individual investor does not exceed EUR 1,000 in a tax year.

Taxable capital gains and losses are calculated as the difference between the sales or exercise proceeds and the aggregate of the actual acquisition cost of the listed cash-settled Warrants and sales- or exercise-related expenses. When calculating capital gains, Finnish resident individual investors may choose to apply the so-called presumptive acquisition cost instead of the actual acquisition cost. The presumptive acquisition cost is normally 20 per cent of the sales or exercise proceeds, but it is 40 per cent of the sales or exercise proceeds for listed cash-settled Warrants that have been held by the Finnish resident individual investor for a period of at least ten years. If the presumptive acquisition cost is applied instead of the actual acquisition cost, any sales- or exercise-related expenses are deemed to be included and, therefore, cannot be deducted separately from the sales or exercise proceeds. Finnish resident individual investors must include in their pre-completed tax return information on the sale or exercise of the listed cash-settled Warrants taken place during the tax year.

According to a recent ruling by the Finnish Central Tax Board (KVL 46/2012, appeal pending in the Supreme Administrative Court), the income from the sale or exercise of non-listed cash-settled Warrants is subject to taxation in Finland as general capital income of the Finnish resident individual investor, and not as a capital gain. General capital income paid to a Finnish resident individual investor by a Finnish paying agent is, as a starting point, subject to tax withholding at a rate of 30 per cent. The taxes withheld are taken into account as credits in the ordinary taxation of the Finnish resident individual investor. In the ordinary taxation, the capital income is taxable at rates of 30 – 32 per cent as discussed above.

According to the above-mentioned ruling, losses arising from the sale or exercise of non-listed cash-settled Warrants are non-deductible altogether in the taxation of a Finnish resident individual investor.

In the case of tax non-resident investors, capital gains from the sale or exercise of listed cash-settled Warrants is not subject to taxation in Finland, unless the Warrants related to business carried out in Finland through a permanent establishment. Even the income from the sale or exercise of non-listed cash-settled Warrants should not be subject to taxation in Finland for tax non-resident investors unless the Warrants related to business carried out in Finland through a permanent establishment.

VI. SELLING RESTRICTIONS

General

The distribution of the Tripartite Base Prospectus and the offer of the Warrants may be restricted by legal requirements in certain countries.

With respect to all activities in connection with the Warrants, in particular their purchase or sale or the exercise of the option rights attaching to the Warrants, the statutory provisions in force in the respective country must be observed by the warrant holders and all other market participants involved. A public offer of the Warrants may normally only be made if a sales prospectus and/or a stock exchange prospectus in compliance with the statutory requirements of the country in which the public offer is being made has been approved by the relevant authority and published beforehand. The prospectus must normally be published by the person making the relevant offer in the respective jurisdiction. The Warrants may be offered or sold only if all applicable securities laws and regulations in force in the jurisdiction in which a purchase, offer, sale or delivery of Warrants is made or in which this document is circulated or kept for inspection have been complied with, and if all consents or authorizations required for the purchase, offer, sale or delivery of the Warrants in accordance with the legal norms in force in that jurisdiction have been obtained and no liabilities of any kind arise for the Issuer.

United States of America

The Warrants are not and will not be registered pursuant to the United States Securities Act of 1933 as amended. They may not be offered, sold, traded or delivered within the United States either directly or indirectly by or to or for the account of a US person (as defined in Regulation S pursuant to the United States Securities Act of 1933), except in the case of exemption from the registration requirements of the Securities Act.

An investor purchasing the Warrants is deemed to have agreed with the Issuer and, if the latter is not also the seller, with the seller of these Warrants (a) not to offer, sell, resell or deliver the Warrants acquired at any time directly or indirectly in the United States or to or for the account of or for the benefit of US persons, (b) not to purchase Warrants for the account of or for the benefit of US persons and (c) not to offer, sell, resell or deliver Warrants (acquired in any other manner) directly or indirectly in the United States or to or for the account of or for the benefit of US persons. In the event that the Warrants are sold, the warrant holder is under an obligation to deliver these selling restrictions to the purchaser or to draw the purchaser's attention to these selling restrictions in writing.

Any person receiving the cash amount in accordance with these terms and conditions is deemed to have made a declaration that the person entitled to the rights arising from the Warrants is not a US person.

United Kingdom

All applicable provisions of the Financial Services and Markets Act 2000 (referred to in the following as the "FSMA") must be observed in relation to all activities in connection with warrants or other derivative products in the United Kingdom. Any communication of invitations or inducements to engage in investment activity within the meaning of Section 21 of the FSMA in

connection with the issue or the sale of warrants or other derivative products may only be issued or initiated in circumstances in which Section 21 (1) of the FSMA is not applicable. With respect to securities with a term of more than one year, the following must also be observed: (i) the securities may only be sold by persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses, and (ii) these persons have not offered or sold securities and will not offer or sell securities except to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses, since the issue of the securities would otherwise constitute a contravention of Section 19 of the FSMA by the Issuer.

European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**"), any person offering the Warrants (the "**Offeror**") has represented and agreed, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "**Relevant Implementation Date**"), it has not made and will not make an offer of Warrants which are the subject of the offering contemplated by this Tripartite Base Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Warrants to the public in that Relevant Member State:

- (a) if the Final Terms in relation to the Warrants specify that an offer of those Warrants may be made other than pursuant to Article 3 (2) of the Prospectus Directive in that Relevant Member State (a "**Non-exempt Offer**"), following the date of publication of a prospectus in relation to such Warrants which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, provided that any such prospectus has subsequently been completed by the Final Terms contemplating such Non-exempt Offer in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or Final Terms, as applicable, and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (c) at any time to fewer than 100, or, if the Relevant Member State has implemented the relevant provisions of the **2010 PD Amending Directive**, 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the relevant dealer or dealers nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within Article 3 (2) of the Prospectus Directive,

provided that no such offer referred to in (b) to (d) above shall require the Issuer or the Offeror to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression "**offer of the Warrants to the public**", in relation to any Warrants in any Relevant Member State means the communication in any form and by any means of sufficient information about the conditions of the offer and the Warrants to be offered to enable an investor to decide whether to purchase or subscribe the Warrants, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State and the expression "**Prospectus Directive**" means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State) and includes any relevant implementing measure in the Relevant Member State and the expression "**2010 PD Amending Directive**" means Directive 2010/73/EU.

VII. GENERAL INFORMATION ABOUT THE SECURITIES NOTE

1. Responsibility for the Securities Note

Citigroup Global Markets Deutschland AG, Frankfurter Welle, Reuterweg 16, 60323 Frankfurt am Main, Federal Republic of Germany, as the Issuer has sole responsibility for the information contained in the Tripartite Base Prospectus. The Issuer is entered in the commercial register of the Frankfurt am Main Local Court under the number HRB 88301. The Issuer hereby declares that to the best of its knowledge the information contained in this Securities Note is correct and that no material circumstances have been omitted.

2. Information from third parties

The Issuer hereby confirms that information from third parties contained in this Securities Note has been reproduced correctly and that — as far as the Issuer is aware and was able to infer from the information published by that third party — no facts have been omitted that would render the information reproduced incorrect or misleading.

3. Method of publication

This Securities Note will be published in accordance with § 6 in conjunction with § 14 WpPG and/or in another form as may be required by law. The Final Terms for the offer will be published no later than the date of the public offer in the manner prescribed by § 6 (3) in conjunction with § 14 WpPG and/or in another form as may be required by law. The Securities Note and the Summary dated 13 May 2013, the Registration Form of the Issuer dated 3 May 2013, any supplements to these documents and the Final Terms will be made available in printed form at the Issuer Citigroup Global Markets Deutschland AG, Frankfurter Welle, Reuterweg 16, D-60323 Frankfurt am Main, Germany, for distribution to the public free of charge. These documents will also be published in electronic form on the Issuer's website (www.citifirst.com).

4. Availability of documents

The documents forming the Tripartite Base Prospectus, the Final Terms and any supplements to the Tripartite Base Prospectus will be made available at Citigroup Global Markets Deutschland AG, Frankfurter Welle, Reuterweg 16, 60323 Frankfurt am Main, Federal Republic of Germany, for distribution free of charge and will be published in electronic form on the Issuer's website (www.citifirst.com) and/or in another form as may be required by law.

5. Consent to the use of the Prospectus

The Issuer consents to the use of the Prospectus to the extent, and subject to any conditions, indicated in the respective Final Terms, and accepts responsibility for the contents of the Prospectus, including in respect of any subsequent resale or final placement of Warrants by financial intermediaries who have received consent to the use of the Prospectus. The consent to the use of the Prospectus applies for the period of validity of the Tripartite Base Prospectus in accordance with § 9 WpPG. Consent may, as specified in the respective Final Terms, be given to all financial intermediaries (general consent) or only to one or several financial intermediaries (individual consent) and apply for Germany, Portugal, France, the Netherlands, Sweden and Finland (the "**Offer States**") as specified in the respective Final Terms. Consent as described above is given subject to compliance with the selling restrictions applying to the Warrants and all

provisions of law applicable in each case. The Issuer's consent to the subsequent resale and final placement of the securities by financial intermediaries may be given either for the period of validity of the Tripartite Base Prospectus pursuant to § 9 of the German Securities Prospectus Act (*Wertpapierprospektgesetz*, "WpPG") or for a different period as specified in the respective Final Terms. All financial intermediaries are under an obligation to distribute the Prospectus to potential investors only together with any supplements (if there are any).

In the event that a financial intermediary makes an offer, that financial intermediary will inform investors at the time the offer is made of the terms and conditions of the offer as set out in the Final Terms.

If the respective Final Terms provide that all financial intermediaries in the Offer State(s) are given consent to the use of the Prospectus (general consent), each financial intermediary using the Prospectus must indicate on its website that it is using the Prospectus with the consent of the Issuer and in accordance with the conditions to which the consent is subject.

If the respective Final Terms provide that one or several financial intermediaries are given consent to the use of the Prospectus in the Offer State(s) (individual consent), any new information to financial intermediaries that was unknown at the date of approval of the Prospectus, or, where applicable, the date on which the respective Final Terms were delivered, will be published on the Issuer's website (www.citifirst.com).
